YEOMEN AIM FOR FULL 1000 ROLL

This Order Putting on an Intensive Campaign to Show Supreme Officers

Salem Homestead, Brotherhood of American Yeomen, is launching the biggest membership campaign in its history.

There are present 400 members of this order in Salem; and they hope to make it a full 1000, before the coming of the supreme officers in February. These officers are to be here to check up on the sites offered in this section for the proposed \$15,000,000 Yeoman's children's home—and of course all the members of the order here are hoping that a site near Salem may be selected.

For this campaign the state manager, J. H. Ezell, and the several field workers have set at the Terminal hotel, and the members of the order who were present at the last meeting were divided into five groups with a captain and lieutenant at the head of each group. Other members will be added to the groups.

Will Show Supreme Officers—So the whole Salem membership will work as one man to make the order 1000 strong here, in order to prove to the supreme officers that in addition to Oregon being the healthiest state in the union—with the lowest child death rate in the United States—there are many loyal Yeomen here in Salem who will do all they can for the children if the home is established near this city.

The phone number of the headquarters for the big campaign is 1641, and the drive opens on the first day of the year and will last till January 19.

WARREN TRIAL TO BE JANUARY 11

Grande Ronde Indian Will Be Tried for Murder of Price Next Month

DALLAS, Ore., Dec. 29. (Special to The Statesman)—The second trial of Phillip Warren, the Grande Ronde Indian charged with the murder of Glen H. Price, a prohibition agent, on the night of September 3 has been set for Monday, January 15, at 10 o'clock. At the October term of the circuit court, Warren was tried for the killing of Grover Todd, also a prohibition agent, but was acquitted by the jury after being out all night and part of another day.

It is expected in Dallas that the state will have a hard time getting a conviction at this trial as the alleged murder of Price has been said to be the weakest case of the two and the state brought up the stronger case in the hope of getting a conviction at the first trial.

A jury was drawn this week to sit on the regular cases, but it is doubtful if any of them will be able to get on the murder case and for this reason preparations have been made for the drawing of a special venire of nearly 100 names to serve on the jury if their services are needed.
