

Domestic Bliss In Kitchenette

Joe Santley and Ivy Sawyer in harmony over the kitchenette table as well as behind the footlights

Those who have enjoyed the harmony of Santley and Sawyer in the Music Box Revue now learn that they are just as good a "team" at home over the kitchen stove. Joe Santley believes that the days when a woman's place was supposed to be in the kitchen are gone forever—that is unless her husband is in the kitchen with her.

The Santleys are mixing the filling for Virginia Sweet Potato Pie which they unanimously vote to be their favorite dish. Mrs. Santley (Ivy Sawyer) has kindly volunteered these directions:

"I bake the sweet potatoes (some-times I boil them), and press

through a vegetable ricer. I cream the half-cupful of vegetable shortening, which I prefer to lard, as the former has no "taste", and is also more easily digestible, beat in $\frac{1}{2}$ teaspoonful salt and $\frac{1}{2}$ cup sugar, then four egg yolks, well beaten, a pint of the strained sweet potato, then four egg whites of four eggs are stiff beaten in, and the whole light mass is turned into a pie plate lined with pastry. This I bake until the pastry is well-cooked and the filling puffy and firm in the center. This makes a pie usually larger than the two of us can eat."

Leftovers Are Real Problem

The problem of using the left-over odds and ends of food after each meal is one which confronts every housewife and cook. Where the family entertains considerably there is always more or less expensive food material left over after a meal. It is undesirable to serve this in the same way a second time as it loses its attractiveness.

Roasted or boiled fowl may be used for salad, croquettes, loaves, and the like. If there is but a small amount of material left over, then a recipe should be selected that calls for an amount sufficient to give flavor to the dish, yet is appetizing and attractive.

Chicken for Luncheon—This is a good luncheon dish, and also is an economical way of using small quantities of left-overs. To prepare it, line small buttered dishes with soft-boiled rice half an inch in thickness. Fill the center with cooked chicken finely minced, delicately seasoned and slightly made moist with cream sauce or chicken gravy. Cover the top with a layer of rice and bake in a moderate oven for 15 minutes. Turn out on hot platters and serve with sauce.

Chicken Moulds

Soak one tablespoon granulated gelatin in four tablespoons cold chicken stock, dissolve in three-fourths cup hot chicken stock. Set aside to chill; when it begins to thicken, beat, using an egg beater, until frothy; then add one cup cream, beaten until stiff, and one cup cold chicken, cut into dice. Season with salt and pepper. Turn into small cups, which have been wet on inside with cold water, and chill.

Southern Chicken on Toast

Cream two tablespoons butter and add the yolks of three hard boiled eggs rubbed to a paste. Soak one-fourth of a cup of cracked crumbs in one-fourth cup of cold milk for 15 minutes, then add to first mixture. Pour on gradually one cup of hot chicken stock then add to first mixture. Bring to a boil, add one cup of cooked chicken diced; season and serve on toast.

Chicken Croquettes

Make one and one-half cups very thick white sauce, using for it one-third cup butter, one-half cup flour, one-half teaspoon salt, one-fourth teaspoon white pepper and one and one-half cups hot milk. Cook in double boiler until thick and smooth. Add one beaten egg and two and one-half cups chopped chicken after removing from fire. Turn out on plates to cool; then shape in croquettes; roll in fine crumbs, then in beaten egg diluted with cold water and again in fine crumbs. Fry in deep, hot fat; serve hot.

Chicken Loaf

Mix one cup cooked chicken, chopped and one cup cooked veal (or a mixture of lamb, veal ham, etc.). Add one cup fine soft bread crumbs, one teaspoon salt, one-fourth teaspoon celery salt, two teaspoons chopped parsley, two well beaten eggs and one cup milk. Mix thoroughly and bake for 30 minutes in a moderate oven.

Jewelers Lien Measure Goes Back to Committee

Senator Garland's bill giving jewelers the right of lien on watches or other articles repaired by them, was re-referred when it came on for third reading. It provides that after holding the article for six months, if not paid for the jeweler may, after advertising, have the article sold by public auction. The proceeds of the sale would go first to the payment of the expenses of the sale; second, to the discharge of the lien, and third, the balance, if any, to the county clerk, to be held in trust for the owner of the article. The measure is particularly for the benefit of country jewelers. Attorneys in the senate were of the opinion that the purpose could be covered by amending another statute.

Bootleggers Prohibited from Toting Smoke Wagons

It is made a felony, punishable by imprisonment in the penitentiary for a person to have a dangerous or deadly weapon on or about his person when engaged in making or possessing intoxicating liquor by a bill passed by the senate yesterday. It was introduced by Hall.

M'MAHAN BILLS PLACED ON TABLE

Adverse Reports from Education Committee Results in Postponement

An adverse report from the education committee of the house, submitted at an unexpected moment almost resulted in the indefinite postponement of a group of four bills introduced by Representative McMahana, of Marion, providing for tuition fees at the state educational institutions to be charged both resident and non-resident students.

McMahana was not advised of the proposed adverse report and was not given an opportunity to appear before the committee in defense of the bills.

When the house learned from McMahana that efforts were being made by representatives of the two institutions and himself to agree on a compromise set of bills, that body agreed to place the bills on the table from which they may be taken at any time for final action.

McMahana's bills would require the payment of a flat fee of \$100 by Oregon residents who attend the state schools of higher education and a non-resident fee to be based on the actual cost of maintaining the Univer-

Half Million in Bonds Are Sold by Commission

The state highway commission yesterday sold \$500,000 state highway bonds to Cyrus Pierce & Co., of Portland at 101.131, or a total premium of \$5555. The bonds bear 4 1-2 per cent interest.

The commission announced the purchase of 12 acres near Cascade Locks from the Oregon-Washington Railroad & Navigation company to be used for public park purposes. The sum of \$1050 was paid for the tract.

The commission voted to limit traffic on the state highway between Albany and Corvallis to trucks of not more than one and one-half tons carrying capacity.

A request of the Oregon-California Power company to stretch a power line between Grants Pass and Wilderville on the Grants Pass-Crescent City highway was granted.

Our idea of some job is that of Major General Allen and the chaplains of the American army at Coblentz, trying to straighten out the love affairs of the sailors and frauleins.

Proposal Submitted by North Canal Company

A contract for the construction of the Powell Butte irrigation project, in Deschutes county, has been submitted for the consideration of State Engineer Percy A. Cupper.

It is proposed that the North Canal company, subsidiary of the Warren Construction company, will supply the necessary storage water from its Crane Prairie reservoir for the irrigation of 13,000 acres of land in the Powell Butte district. It also proposed to construct the necessary works to deliver the water to the land at a price of \$75 an acre. The company also agrees to purchase \$60,000 additional bonds in order that the district may be supplied with funds for administrative and engineering purposes.

All bonds are to be accepted in payment by the North Canal company at 85 cents on the dollar, making a total estimated cost to the district of approximately \$50 an acre, or approximately \$1,000,000.

The contract is contingent upon the certification of the bonds by the irrigation and drainage securities commission, and the agreement on the part of the state to pay interest thereon for

two and one-half years. It will require an allotment of the water from the Deschutes river for these lands from the withdrawal made by the state a number of years ago in connection with its investigation of the Deschutes project in cooperation with the United States reclamation service. The North Canal company was represented by Oswald West and its engineer, John Dubois, and the district was represented by Attorney N. G. Wallace of Prineville. The matter was taken under advisement.
