REACTION SEEN IN SORE STOCKS

Merchandise Shares Make Good Gains
 Industrial Favorites Are Sold

NEW YORK, Jan. 20.
 Selling of the speculative industrial favorites by traders who felt that the foreign situation was too critical for them to remain on the long side over the week-end, imparted a reactionary tone to most stocks in today's brief session of the market although a few specialties, notably the merchandising shares, made some good gains.

The so-called leaders, United States Steel common, Baldwin and Studebaker, all closed fractionally lower, most of the selling representing profit-taking on the part of recent buyers.

Foreign exchanges yielded in response to selling pressure, resulting from the receipt of disquieting cable dispatches from Europe. Demand sterling got back to \$4.66, and French francs broke nearly 20 points to below 6.50 cents, as compared with last week's high of 5.80 cents, and the extreme low of 6.17 cents established last November.

German marks were quoted at .0051 cents as compared with .0056 last night, and the extreme low of .0042 established earlier in the week.

The weekly clearing house statement showed a decrease of \$953,000 in loans, discounts and investments, \$5,852,000 cash in own vaults and \$4,177,000 in reserve of member banks in the federal reserve bank. Aggregate reserve totaled \$545,284,000, leaving an excess reserve of \$7,136,440, an increase of \$12,012,800 over last week.
