#### Japs Protest With U. S. Against Postal Rates

YOKOHAMA, JAPAN, Jan. 23.—(By The Associated Press.)—High postal rates charged by the Japanese government which have for long been bitterly resented by foreign businessmen here have just been attacked by the Japanese themselves. The Japanese Exporters' association has made representations to the government pointing out that while the United States and Britain some time ago raised foreign postage rates slightly in accordance with

the resolution passed by the International Postal convention held at Madrid November 1920, the Japanese government in January this year doubled the foreign postage. With the exception of France and Germany, no country has raised the foreign postage to so great an extent as Japan.

#### Bill Asks Election of Central Committeemen

Election of members of the state central committee of political parties is provided for in a bill introduced in the senate yesterday by Senator Klepper. It provides that there shall be elected by the county central committee of each political party at its first meeting after election one member of the state central committee for that county, and an additional member for each 3000 votes or fraction over one-half thereof, cast at the last preceding presidential election. The members of the state central committee so elected would meet at such time and place as might be designated by the chairman and within 60 days from the date of the general primary election for the purpose of organization. No proxies would be recognized.

#### Olympia Lawmakers Not Ready for Confab Here

#### Curb on Firearms Asked by Senator Hall's Bill

Senator Hall introduced a bill yesterday that would make it a misdemeanor for a person to carry firearms after having been found guilty of murder in any degree, or manslaughter, or after having injured or killed another accidentally with firearms. #### Why Called Stationery?

A stationer originally meant a man who had a regular station or stall at a market and, as in days gone by, such a stall was often placed outside a church, the word in time acquired the distinct meaning of a man who sold religious articles, often manuscripts. Then the stationer became regarded as a man who copied manuscripts, whether religious or not, and so he became definitely identified with the book trade. Gradually, however, men specialized in different branches, the bookseller going one way and the man who sold papers, pens and the odds and ends of literature, another. The latter kept the old name and sold "stationery," a word which became officially approved.

# A Mighty Power Today

SHALL IT KILL?

Over fifteen hundred strong—it's a great force—it can do good and it can do wrong—which shall it be?

There comes into the world over certain cycles of time a great power that can influence the times—the people—it can kill opportunity for better things or it can be opportunity itself for that which is good.

The existing order of things always cries "it can not be," "It shall not live—why? Because the new and big force means a supplanting of that which has served its purpose—that which has lasted long enough.

SHALL IT HELP?

Piggly Wiggly has had its struggles—its battles—the misrepresentation of competition to contend with—but after seven years of fighting and living it has more than fifteen hundred stores in 750 cities of the United States and Canada.

Piggly Wiggly is now a mighty power in grocery merchandising. This power enables it to buy merchandise in huge quantities at prices that mean millions of dollars saved each year to the housewives of America.

Piggly Wiggly is national in its scope—its stockholders live in the United States—from Maine to California, from the Great Lakes to the Gulf of Mexico—it is not a local or sectional proposition and does not appeal to the hate or prejudice of the good people of this town.

# A PIGGLY-WIGGLY STORE

Located at 456 State Street Will Open Its Doors to the Public at 10 o'Clock

PIGGLY WIGGLY is an idea transformed into action, which is daily putting money into the pockets of the Grocery Buying Public.

PIGGLY WIGGLY is the most economical and efficient method of distributing food products ever devised.

PIGGLY WIGGLY brings the producer direct to the consumer, thus saving all intermediate profits, thereby putting actual dollars and cents into the Housekeepers' pockets.

Eliminating clerks, delivery and charge accounts, and by putting into practice other economies, it keeps down the overhead expenses, saves the buyer money, and permits the shopper to get whatever he or she wants in the shortest time possible.

PIGGLY WIGGLY is not a store of "Specials" which are priced low as a bait so that other goods

at higher prices may be sold. It is a system whereby everything in the grocery line may be purchased at consistently low prices—NOT FOR ONE DAY, BUT FOR EVERY DAY.

Some Grocers will take a household necessity like sugar and offer it at or below cost as a bait, and then make up this loss by overpricing all other items. Remember where there is no profit there is usually rascality.

When you enter a PIGGLY WIGGLY Store, you see on the shelves nationally advertised goods, whose reputation is unquestioned. Nationally advertised goods, are not used simply because they are nationally advertised, but because they have stood the acid test. They have been approved by the public as to quality and price.

PIGGLY WIGGLY DOES NOT SELL PRIVATE BRANDS, OFF BRANDS OR JUNK.
