

SPORTS---Here, There and Everywhere

OREGON MUTES BEAT WASHINGTON

State School for Deaf Wins from Vancouverites for First Time

The Oregon State school for the deaf won their first victory over the Washington State school for the deaf in a game at Vancouver Saturday night, by the decisive score of 43 to 23. This is the first time that the Salem boys have ever beaten their northern opponents, and the fact that did it so decisively and after an uncomfortable trip and on a foreign floor is all the more credit to them.

The game was played in four 10 minute quarters and was refereed by Rodgers of the Vancouver high school, who did a strict job of it but was impartial to both sides. The first half ended with the Salem boys leading by a four-point margin, the score standing at 18 to 14. Salem led all the way in this half with the exception of the start when Vancouver dropped two into the basket from the free throw line.

The start of the second half found the visitors on their "sea legs" and they proceeded to show their superiority in every branch of the game, clean play included, and began to run away from their opponents who, however, fought back savagely. Better team work and a play which invariably brought the left guard under the goal were the chief reasons why the Salem lads succeeded in turning the trick. Salem made 17 field goals against 7 for Vancouver. Heath and Taylor starred for Salem, Cookson and Bosson for Vancouver.

All the players on the Salem team registered with the exception of LaFave. There was only one substitution, A. Burne of Vancouver, who was disqualified toward the end of the game.

The line-up—OSD, Heath, lg., 18; Tyler, rf., 2; LaFave, c; Taylor, fl., 19; Rickert, lf., 4; WSD, Beadbury, lg., 2; Burne, rg.; Cookson, c., 15; A. Rehn, rf.; Bosson, lf., 6.

Referee: Rodgers, Vancouver high. Scorer: Drapela. Timer: Peterson. Score at end of halves Salem 18; Vancouver 14. Second half: Salem 43; Vancouver 23.

Now that the Salem boys have learned that their northern opponents are not invincible it is to be expected that there will be a more equitable division of the spoils of war in years to come.

It is expected to have the Vancouverites come down for a return game about the end of February or the first week in March, and stage the game in the armory. It will be interesting from every point. The game in Vancouver certainly was a hair raiser.

GOVERNOR PIERCE TO FIGHT BOOTLEGGERS

(Continued from page 1)

turing the offender; the governor needs no special fund to prosecute him. If a crook steals a car, there is the whole army of auto owners to help apprehend him, in protecting themselves. But in this prohibition law, every sale by a bootlegger or law violator, makes him that many more friends.

"He hasn't stolen anything? He has taken the things that are dearest to man—his monhood, self respect, honor, the virtue of his wife and daughter and the integrity of his son. It's time to stop it all!"

The speaker told of three cases where women of his county had resolutely come to him, telling of the ruin of their young daughters through the use of booze. "I made up my mind, following these stories and these murders—if I needed anything more to convince me—that we should add strength to the prohibitory laws, and make it impossible to further debauch our boys and girls."

A bill aimed to reach migratory merchants and enable counties to lay and collect personal taxes on merchandise, has been introduced by Representative Miller by request. The bill requires the filing of a statement of all personal property held before a license to sell will be granted.

Delinquent Tax Publicity Provided for in Measure

At the request of the state editorial association, Representative Hurd of Clatsop has introduced a bill requiring the publication in newspapers of all delinquent tax lists. The bill prescribes the method of selecting the newspapers and fixes the fee for such advertisements.

WILLAMETTE TO PLAY OAC

Local Boys Are Outweighed But Meet Tonight is Expected to be Scrappy

There are no odds to be either taken or given in the Willamette Bearcat camp on tonight's game with the OAC basketball quintet on the armory floor.

The locals agree that they are outweighed; that they haven't all the experience they would like; that they have been beaten already this year, and that there are some probabilities against their winning. But they do not yield the remotest possibility of their own courage weakening. It never did, win, lose or draw, and they say it will not, now.

The visitors trimmed the husky Warhington team that beat Willamette last week. But upsets might happen at any time. If there is a chance for an upset of the dope tonight the locals expect to take it. They have speed, if they have not height and weight, and they expect to make a showing for their friends, whatever the odds.

The game will have a host of partisans of both schools, enough to make it interesting from the personal point of view. It will be called at 8 o'clock.

Some interesting dope might be dug up on past athletics. Willamette has been regularly trimming all the rest of the valley in tennis, in baseball, in oratory; and two years ago cleaned up most of them in basketball. It happens that the experienced basketball men are about all gone, and they haven't yet trained up enough newcomers to quite match the old seasoned teams of the other schools. The handicap of no adequate gymnasium has set the local team back frightfully this year. But with a \$70,000 gym promised for next fall, and a splendid lot of new players working up to varsity caliber, the Willamette prospects taken over a period of years look as bright as anybody's, whatever happens tonight.

MANY BILLS DELUGE HOUSE YESTERDAY

(Continued from page 1)

after the scalp of prohibition and other law enforcement officers who are careless in the disposition of seized liquors in a bill which would provide a penalty of \$100 to \$500 or imprisonment for 30 days for any officer who appropriate for their own use, sell, barter or give away any seized liquor.

Trolling in the Pacific Ocean over which the state has authority would be permitted under a bill introduced by Mott of Clatsop, which would repeal the existing law prohibiting such trolling.

The sale of denatured alcohol by grocers and general merchants for use by motorists would be permitted under a bill by Wilson.

Salaries for Commission Permission for the state board of control to purchase a piece of property to be used as a site for the new state training school, at a cost of not to exceed \$55,000, appropriated from the \$280,000 appropriation by the 1921 session of the legislature for the construction of such a school.

The state board of control is given concurrent jurisdiction with the state board of health over all charitable, benevolent and corrective institutions and the amount of state aid now received is reduced 50 percent under a bill introduced by Representative Watson.

A companion bill by Watson would require the appropriation of \$50,000 a year for a period of years, to be fixed by the legislature, to be used for the building of institutions for homeless and neglected children, foundlings and indigent orphans and wayward girls.

Members of the state highway commission would be placed on a salary of \$3600 each under the terms of a bill by Carkin in line with the request of Governor Pierce.

Must File Statement Under the provisions of two bills introduced by Representative Lovejoy all funds remaining to the credit of the several examining boards and commissions would be turned into the general fund of the state to be used for general expenses. This is in line with the suggestion of Governor Pierce in a letter addressed to the joint ways and means committee Saturday.

SQUIRE EDGEGATE--The Wife Refuses to Take the Blame

Local Boys Are Outweighed But Meet Tonight is Expected to be Scrappy

There are no odds to be either taken or given in the Willamette Bearcat camp on tonight's game with the OAC basketball quintet on the armory floor.

The locals agree that they are outweighed; that they haven't all the experience they would like; that they have been beaten already this year, and that there are some probabilities against their winning. PIGGY WIGGLY CROWD IS LARGE

(Continued from page 1)

Six thousand people passed through the turnstile at the new Piggy-Wiggly store on State street, Saturday, when the store was thrown open to the public. The idea of a self-serving grocery appealed to the public, and they certainly flocked in to see how it was done.

The plan of merchandising was developed in Memphis, Tenn., and has spread like wild-fire all over the country, until there are now more than 1500 of the stores in operation. It is really a clerkless, self-serving store, with the goods arranged so that the public walks through the aisles, picks out what it wants, carries the stuff to the counter, and has it tied or bagged, and pays for the stuff as it is tied up.

Standard package goods is handled almost exclusively; the exception being beans, sugar and such bulk goods as can be put up right at the store in convenient units. Almost nothing is handled but nationally advertised goods, that has a reputation to sustain. "It doesn't pay to even take a chance with anything but the best," said Manager C. A. Johnson, of the new Salem store.

The Memphis company sells all the store furniture, and the patent right, but the dealers buy their own goods as they like. The idea has taken a great hold on the markets; there are 42 such stores in Washington, 30 in Denver, 45 in Chicago, and the others scattered all over the country.

"We find that it is as a rule the best shoppers, the people with the best ideas of economical and clean shopping, that patronize these stores," said Assistant W. B. Foster. "And the Piggy-Wiggly service reduces the overhead cost of merchandising, sometimes as much as 15 per cent; anyway the average is 10 per cent less for handling cost."

The store is enough of a novelty to be real news—though the idea of having the customer help himself is almost as old as the hills. It has just been named and given direction in an attractive way.

Representative Hammond's Bill Signed by Pierce

Governor Pierce has signed Representative Hammond's house bill No. 23, providing for the filing of notices of federal liens in the offices of county clerks and recorders.

MAY CLOSE YEAR WITHOUT DEFICIT

National Debt of Twenty-Five Billion Inherited—Democrats Scored

TOPEKA, Kas., Jan. 29.—Accomplishments of the Harding administration and congress in carrying out the Republican party pledges for economy and cutting down government appropriations and expenditures were reviewed here tonight in an address by Congressman Nicholas Longworth of Ohio, at the annual banquet of the Kansas Day club. He reiterated the statement made today by President Harding in Washington that the present finance year probably will be closed without a deficit.

Meanwhile, he said, the repeal of certain taxes—surtax and so-called nuisance taxes—reduced the government income about \$850,000,000 a year.

Regarding the expenditures of the Democratic administration, Congressman Longworth said the Harding administration "inherited" a national debt of twenty-five billion dollars, eleven billion represented by loans to foreign countries.

"No such riotous expenditure of the people's money has ever been known in history," he said, stating favored contractors fairly wallowed in huge profits. Billions of dollars were wasted in construction of plants and the acquisition of war materials which were never used.

Of the fourteen billion dollars it is safe to say that somewhere between a third and a half was an absolute useless expenditure and represents nothing but waste extravagance and worse."

Third Income Tax Bill is Introduced by Larkin

The third income tax bill to appear during this session of the legislature was introduced today by Representative Carkins of Jackson county, a member of the National Tax association.

The bill combines features of the flat 4 per cent income tax on individuals and the progressive tax which also includes corporations and is based on the recommendations of the National Tax association which has devoted considerable study to this subject.

Because of the comparatively small numbers of persons in Oregon with incomes of \$50,000 or above, the tax on individual incomes under the Carkin bill which provides a progressive rate from 1 to 6 per cent would probably closely parallel those imposed under the flat 4 per cent tax advocated by the state tax investigation commission.

One of the objections advanced by Carkin to the so-called administration bill introduced by McMahon of Linn, is that the tax is too high and another is that state, city and county officials and employees would be exempt from taxation.

Brownell is Elected as Temporary Speaker

Representative Cyril G. Brownell was elected speaker pro tem at the opening of the session yesterday. In explanation of the agreement of the several factions in the house interested in the selection of a temporary speaker to serve during the illness of Speaker Kubil, Representative Miles stated that it has been agreed that Brownell was to serve four days if Kubil's absence continued that long, and that at the end of that time he would resign and permit the election of another speaker pro tem.

This was agreed to by Brownell and a unanimous ballot cast in support of the motion.

A movement to place Representative Bennett of Coos county in the speaker's chair gained considerable headway this morning, but it was agreed that Brownell should be permitted to serve, since he was named temporary speaker by Kubil before he left Friday.

TO MAKE OREGON MEMORIAL SHIP

Spanish War Veterans Ask Money to Save Battleship for State

PORTLAND, Or., Jan. 29.—Renewed efforts to win for the state permanent custody of the famous battleship Oregon are being made with the preparation of a legislative bill accepting the historic vessel as a memorial of its exploitation racing around Cape Horn and participating in the naval battle of Santiago during the Spanish-American war.

The Oregon is now at Puget Sound navy yard awaiting decision on whether to give it to the state, send it to the scrap heap, or expend sums to restore it as a naval unit. The proposed bill will provide for a maintenance fund to be appropriated by the state.

Those whose hearings are continued are Herman Sproed, Germany; Peder Martin Nilcon, Norway; Adolph Bombeck, Germany; Paul Jean Folquet, France; Jesse Tefft, Canada; and David Denis Dunne, Ireland.

New petitions to be considered are those of Kristian Thorpe, Norway; Arno Hanson Ruud, Norway; Karl Sprauer, Germany; Peter Degen, Germany; John Leonhard Hain, Germany; and Giacomo Bean, Italy.

Public School Inspection Is Proposed in Measure

The state labor commissioner would be authorized to inspect all public school buildings and report on their safety, under the provisions of a bill introduced by Representative Wheeler. It is his judgment a school is unsafe if the commissioner may require the local school board to take steps to protect the health and safety of the pupils.

"Four Horsemen" Due for Another Sprint to Grand

A return engagement of "The Four Horsemen of the Apocalypse," the great Spanish play, is announced for the Grand, beginning Saturday. Don Vicente Blasco Ibanez, the author, is one of the big, compelling figures of the modern world literature, and he has written a truly stupendous play based on the story and spirit of Biblical revelation. The play is coming at popular prices, for this return engagement; it is presented especially for its literary and artistic revelation as showing how powerfully the movies can give the biggest things of human thought. It has ranked as one of the greatest successes in all the history of the movies, in spite of its coming out at first as a double price special. This time it goes at easy prices. A special musical score is coming for the 8-piece orchestra, and the show promises to hit the high mark for attraction.

Five Bills Are Passed In House Yesterday

The house yesterday passed the following bills:

H. B. 67, Lewis (by request)—Fixing circumstances under which appeals shall be declared abandoned.

H. B. 86, Wheeler—Repealing the statute which requires that assessors file lists of foreign corporations with the corporation commissioner.

S. B. 14, Hare—Fixing the date of circuit court terms in Washington county.

S. B. 16, Hall—Providing a penalty for selling liquor while armed.

S. B. 66, committee on revision of laws—Providing that actions may not be dismissed without notice.

Indoor Tennis Tournament Opens in Brooklyn Casino

NEW YORK, Jan. 29.—All of the top ranking players in the field of competitors won their first matches in the first round of the invitation indoor tennis singles tournament which opened today on the Brooklyn heights casino courts. Only one second round match was played.

That the winter rest has not greatly depreciated her game was shown by Mrs. Molla Bjurstedt Mallory, national woman's champion, who easily defeated Mrs. G. A. Adams of Brooklyn, in two love sets. Mrs. Carl V. Hitchens, Mexican champion, easily beat Mrs. W. H. Prichard of New York, 6-2, 6-0.

TWO AIR PILOTS CRASH TO EARTH

MACHINES GO INTO TAIL SPIN AT ALTITUDE OF 700 FEET—BOTH ARE DEAD

HONOLULU, Jan. 29.—(By The Associated Press.) First Lieutenant Rupert Julian, an aviator attached to Schofield barracks, was killed and a wounded man accompanying was probably fatally injured today when their airplane went into a tail spin at an altitude of about 700 feet and crashed. The accident occurred about half a mile from the Schofield flying field. Julian was born in Indiana in 1899 and had been here but a short time.

Private Charles Denson, attached to the Eleventh Signal corps, died later of his injuries.

State's Witness Returns Suddenly to Bastrop, La.

NEW ORLEANS, La., Jan. 29.—Harold Teegerstrom, 19-year-old time keeper at the Southern Carbon company's plant at Spyker, La., who mysteriously disappeared December 29, was arrested at Spyker late today, according to a telephone message received here tonight by T. S. Walmsey, assistant attorney general, from Sheriff Fred Carpenter of Morehouse Parish.

GAS TAX BILL BEING DRAWN

(Continued from page 1)

not add to the distillate tax. The new bill is to be similar to the 1921 act.

Under the two existing acts the total tax on gasoline for 1922, which has not all been reported in, is estimated at \$1,144,000. With another cent added it should reach over \$1,700,000 and possibly as high as \$2,000,000.

SEVERE COUGH AFTER INFLUENZA

"After an attack of the 'Flu' which left me with a severe cough nothing seemed to relieve me until I used Foley's Honey and Tar," writes Mrs. K. D. Drake, Childs, Maryland. Coughs resulting from influenza, Whooping Cough, Asthma, Croup, La Grippe and Bronchitis are quickly relieved with Foley's Honey and Tar. Contains no opiates—ingredients printed on the wrapper. Largest selling cough medicine in the world. Sold everywhere.—Adv.

FRENCH FORCED TO FIRE ON GERMANS

(Continued from page 1)

projected himself into the Ruhr limelight. This employer of 65,000 miners and steel workers seemingly has explicit faith in what he termed the good sense of the plain working man, because, to use Thyssen's own words, "his heart is in the right place."

The loyalty with which all classes in the invaded zone, down to the humblest pit workers, are cooperating, was designated by Herr Thyssen as "a magnificent source of inspiration." He said the thousands of mine workers of Polish nationality were loyally supporting their German comrades.

Herr Thyssen was skeptical about the feasibility of the proposed French customs ring and said the French threat of a hunger blockade could not be taken seriously.

Representatives of all the Roman Catholic organizations and unions of the German occupied territory, according to a dispatch from Cologne, have, with the express approval of the archbishop of Cologne, decided to issue a proclamation appealing in behalf of the five million Catholics of occupied Rhineland, to the Catholics of the whole world and to all mankind "in the interest of justice, peace and reconciliation."

WARSAW, Jan. 29.—Official authority was given today to deny all rumors on the subject of alleged efforts to induce the Polish government to send Polish workmen to the Ruhr basin. The Polish Telegraph Agency was similarly officially authorized to deny that any workers have been sent to the Ruhr basin or that any plans to that effect have been or are being made.

All such rumors are characterized as devoid of all foundation and sent out from German sources with the intention of misleading public opinion into an attitude unfriendly to Poland.

The reports to which the Polish agency denial refers were circulated January 25 in an agency dispatch from Berlin to London, credited to a semi-official news agency in the German capital. The Berlin agency stated it was in receipt of information from Warsaw that the Polish war ministry had ordered former service men familiar with railway, mining and smelting and postal service work to hold themselves at the disposal of the French government. The men, it was alleged,
