Measure to Create New Office in Multnomah County and Another For Incorporation of Industrial Loan Companies Given Axe-Two Other Measures Signed by Executive.

Because the state bond commission proposed by house bill No. 167, which was passed by the legislature, is such a wide departure from the commission he suggested in his message, because it would interfere unjustly with purely local affairs and because he has doubt of its constitutionality, Governor Pierce yesterday vetoed the measure.

The governor sees injustice in the provision for the pro-

posed commission to charge a fee of one tenth of one per cent of the face value of the bonds, and points to a number of other burdens it would impose. The bill was introduced in the senate to vote tomorrow sought to address an open air by the house committee on assessment and taxation.

The governor's objections to the bill as set out in his

lieve Condition.

Practically the whole meeting senate bill 234, to regulate dance ed schools, at the school board vide such sinking fund. towns was up for final passage. Up in the Grant school, it After three hours of debate on was proposed that the district would work an in

night, and found that the city has eight just like it-one for every school except the high school. Statement Shows Condition

A statement was made from Principal Miller, showing that some of his Grant school teachers have been doing more than vision appears in this bill. dcuble the work usually asked of teachers, work utterly beyond human power to do adequately. One teacher has been carrying 1390 pupil hours per week; another 1590. One of teaching writing and spelling, the and unnecessary expenses, studies that many critics say are most fearfully neglected. But there is no room at Grant for dividing the classes, if they had the extra teachers, as was shown in the report to the board. The board will wrestle with the problem of how to teach these important studies without either room or teacher and report at the next meeting.
