THE NORTHWEST POULTRY JOURNAL

The oldest and largest of the Pacific Coast poultry and pet stock magazines, a recognized leader in its class in the West, is THE NORTHWEST POULTRY JOURNAL, which was established in Salem, the Oregon state capital city, more than 25 years ago.

It contains from 40 to 60 pages each month and is well edited, printed and nicely illustrated. Among its regular writers are some of the leading poultry judges, poultry specialists and most successful breeders of the Northwest. It has always borne the reputation of being reliable and progressive, a fact much appreciated by its management and a reputation it hopes to maintain throughout the succeeding years.

No line of poultry and pet stock breeding is neglected or overlooked in its columns. It has a fine and ably-edited rabbit department and interesting articles are published from time to time on turkeys, ducks, geese, guinea fowl and pigeons, as well as canaries and other pet stock.

This publication has the largest circulation of any poultry magazine published west of Chicago, its claim of being read by 90 per cent of the poultrymen and pet stock raisers of the Pacific Northwest being no idle boast, and its subscription list is increasing very rapidly.

Advertisers find its columns bring them quick and excellent returns as the very complimentary and unsolicited testimonials published in its columns every month are conclusive evidence or proof.

Not only are its columns devoted to fancy and standard-bred poultry, but it is a tireless booster for the commercial poultryman, devoting more space than any other poultry magazine in the country to the various egg-laying competitions, farm poultry demonstrations, poultry judging demonstrations and poultry experimental reports from the government and various agricultural colleges, as well as reports of the various poultry shows and smaller exhibits. A little spice and pep is added through its much commented upon wit and humor page.

These facts, together with its low subscription price (75 cents per year) has given this poultry magazine wonderful prestige throughout the Pacific Northwest, in which vast territory it wields no little influence among the poultrymen and is deservedly popular.
