**23 SERIES STUDEBAKER LIGHT-SIX TOURING CAR \$275**

Judged solely on what you yourself can see—its beauty of line and finish and its many refinements—the 23 series Studebaker Light-Six Touring Car will merit quick approval.

But go deeper than that. Fine appearance is only one of the essentials you want. Judge it on its hidden, vital qualities that make for long life, extra service and certainty of operation.

For example, the crankshaft and connecting rods are machined on all surfaces. This practice, which is followed exclusively by Studebaker in the low price field, virtually eliminates vibration.

The striking body is all steel, even to the framework. Seats are wide and deep and are set at the exact angle for most restful riding. The ten-inch cushions are upholstered in genuine leather. And there really is plenty of room for five without crowding.

The one-piece, rain-proof windshield provides unobstructed view of the road ahead. The cowl ventilator is opened or closed in a moment. Attractive cowl lights are set in the windshield base—and there are many other features.

The reputation of the Light-Six is firmly established. Every unit has proved its worth on the highways of the world. One hundred thousand owners have experienced its satisfaction in performance, durability, economy, comfort and convenience.

The name Studebaker stands for satisfaction and service.

New all steel body of striking beauty. One-piece, rain-proof windshield with attractive cowl lights set in base. Quick-action cowl ventilator. Curtains, bound on three sides by steel rods, open with doors. Upholstered in genuine leather. Large rectangular window in rear curtain. Thief-proof transmission lock.
