

Aitchison Will Conduct Hearing in This State

Clyde B. Aitchison, member of the interstate commerce commission and former member of the Oregon public service commission, will hear the railroad extension case in Portland this summer, according to a letter received by the service commission from Mr. Aitchison. The commission believes it fortunate for the state that Aitchison has been assigned to hearing.

This is a case in which the Oregon commission will endeavor to persuade the commerce commission that a railway line should be built across eastern Oregon to connect with the Natron cut-off, and also that other railroad development should be accorded the eastern Oregon district.

PORTLAND GROWS AS SHIP CENTER

Columbia Pacific Shipping Company Is Reaching Out for Larger Trade

Edgar E. Piper of Portland, son of Edgar B. Piper, editor of the Oregonian, was a Salem visitor yesterday, combining business with pleasure.

Mr. Piper is connected with the Columbia Pacific Shipping company, which is increasing its operations very considerably, running vessels from Atlantic and Gulf ports to the principal cities of the Pacific coast, and also to Europe.

These vessels carry a good deal of Salem freight, including canned goods, dried fruit, wool, etc., and their increasing activities and range of operations will help the Willamette valley along with Portland and all the country tributary to Portland.

This shipping concern is backed by some of the big men of the Oregon metropolis, and the indications are that in the years to come they will make the name of Portland better known on the shores of all the seven seas.

A reform based on negation is only the shadow of a reform.

COMING

NEW TELEPHONE DIRECTORY OUT

Covering Marion and Polk Counties, it is Largest One Ever Issued

A new telephone directory for Marion and Polk counties has just been published—the March, 1923, directory.

It contains more names and more pages than any former telephone directory for this territory. It was printed in The Statesman's job office, and is of course a good piece of printing.

Copies of the new telephone directory are now being distributed to all subscribers. There are 6000 copies of this issue.

If you have received your copy, or when you do receive it, the new book ought to be immediately substituted for the old one you

have had in use—that is, the September, 1922, copy. There are constant changes being made, owing to the growth in number of subscribers, and for other reasons, and the value and convenience of the telephone service will be greater if you do not refer to old copies, or trust to memory.

The cover of the new book is blue. The one for which it is substituted had a tan cover.

Telegram Protest Effort To Kill Gasoline Tax

Numerous telegrams are reaching the office of Governor Pierce asking that everything possible be done to halt the referendum of the additional one-cent gasoline tax act passed by the 1923 legislature. Pleas are made for local road development which it is said, would be impossible during 1923 and 1924 should the referendum be invoked. Telegrams have been received from the Boardman Commercial club, the Rotary club at Marshfield, and from organizations at Redmond and North Bend. A Coos Bay delegation visited the governor early today and then went on to Portland to attend the meeting of the state highway commission there today. It is said a number of delegations will be before the commission today.

Progress is possible only to the intellect; our passions have not changed since Cain hated and Abel adored. All human advancement is measured by the degree in which the intellect triumphs over the emotions.

EDITORIALS OF THE PEOPLE

Lowell Unruh

Editor-Statesman: May I drop a garland on the bier of "Heavy", as his fellow-workers knew him? Lowell Unruh was a remarkable young fellow in many respects other than those of a physical nature. His mind was as far ahead of the average mentality as was his physical ensemble. Naturally artistic in more than one respect, his boisterous habit was but a mask that very thinly veiled sensibilities that remained discordantly housed in his body, grown great before its time. He had the greatest respect for things of honor and a brain that recorded untaltingly those things that are esteemed as real knowledge not only of that intangible sort, so-called, that guides men into lives of true usefulness, but the more practical sort that make of them ornaments to industry and trust.

worthy both to master and fellow craftsmen. Perhaps there will be no death from among the printers of Salem that will be more sincerely felt or longer recollected than that of Lowell Unruh. His hearty geniality, and kindly badinage combined with his great strength and youthful optimism made him a personality that brought out every man from the "night side" of The Statesman, from the managing editor down, in token of respect for him and in sympathy for those who will miss Lowell hardly less than we of the newspaper "chapel." Re-quit in pace. —Sef.

RINEHART PLAY IS HERE TONIGHT

"The Bat" Makes Remarkable Record in its Run in Large Cities

Each year in the theatrical world one play invariably stands out head and shoulders above all the other attractions. The past two years that distinction fell to "The Bat" the dramatic triumph, written by Mary Roberts Rinehart and Avery Hopwood. Not only did "The Bat" run for more than two years in New York, but it played over one year in Chicago, a new record and something never before heard of in theatrical annals of Chicago.

"The Bat" will be seen at the Grand theatre tonight only and theatregoers who have long been hearing of the success of this play will undoubtedly welcome the announcement. Assuredly a play that has received such universal praise from both critics and public alike, will be worth the seeing.

"The Bat" is presented by Waggoners & Kemper. They have an enviable reputation in the theatrical world as producers of successes. With "The Bat" they have brought all their skill to play and the result is, as one critic put it, "a production that will keep you talking for months after it has been here and gone."

"The Bat" is a super-mystery play. But it is something else as well. Running through it is one of the funniest and altogether delightfully humorous characters ever depicted on the stage. Thanks to this element in "The Bat" while it will furnish
