BAYES AND HUNT WILL BOX TONIGHT

Two Salem Scraggers Slated to Appear on Heilig Theatre Program

Two Salem boxers are on the program at the Heilig theatre, Portland, tonight.

One is Phil Bayes, who is up for a six-round bout with Benny Dotson of Portland. Dotson is rated as a fast, clever boxer, with about the same amount of experience as Bayes has had. They think highly of him in Portland though the Telegram says that the Bayes match is the most formidable try-out he has ever attempted. This is stating the case too mildly for the Salem lad, say those who have seen the two. They look for Bayes to win by a wide margin. This is Phil's second match this week. He appeared in Salem Tuesday night, against Soldier Archer and won a decision. Archer is to meet Kewpie Riley tonight, in a four-round bout. Bayes has beaten both of them.

The other Salemite is Bill Hunt, who meets Nig Yager of Albina, a heavyweight with a good deal of a local reputation. Hunt did not appear in Salem Tuesday because his opponent, Young Peter Jackson of Portland, was crippled and under the surgeon's care for a broken hand. He is in first class condition, and took on the Portland match to fill out a vacancy. Hunt has won a number of victories up and down the valley, and has lost only three of his matches. A win tonight would place him pretty well up in front. A number of Salem sportsmen are going down to Portland tonight to see the two locals at work.

World's Airplane Speed Record Is Again Bested

DAYTON, Ohio, March 29.—Lieutenants Lester Maitland and R. L. Maughan, McCook field pilots, flying speed planes today bested the world's airplane speed record held by Sadi LeComte of France, it was announced tonight at McCook field. Instruments used to determine the speed of the ships are being calibrated and official announcement of the speed attained is expected soon.

McCarthy Plans to Bring Up Stock of Seattle Club

SAN FRANCISCO, March 29.—William Wrigley, Jr., owner of the Los Angeles club of the Pacific coast baseball league and stockholder in the Chicago club of the national league was asked today in a questionnaire sent to him by William H. McCarthy, president of the Coast league, whether or not he "directly or indirectly aided or assisted or extended credit to Charles L. Lockhard or Wade Killefer or any other persons to purchase stock in the Seattle baseball club."

The recent purchase of the Seattle club by Lockhard and Killefer is to be brought up by President McCarthy at the next league meeting.

Army Planes Reach Miami

After 235-Mile Flight
MIAMI, Fla., March 29.—The six United States army de Havilland planes on the Porto Rico flight reached Miami shortly after noon today from Havana, completing the last lap of their return trip to American soil, 235 miles, in two hours and a half. The six land machines have flown 4,330 miles in 42 hours actual flying time to date.

Not a serious accident or mishap has marred the flight, Thomas G. Lamphier, commanding, said tonight, although Lieutenants McDonald and Kirksey landed at San Juan without a drop of gasoline in their tank.

The flight has proved that land machines under service conditions can make long flights across water without any great hazard to personnel, or planes, Captain Lamphier said.

SCHOOL TROUBLE WILL BE AIRED

Dallas Protest Against Salem Players to be Presented to Board

Representatives of Dallas and Salem high schools will meet at the office of J. A. Churchill, state superintendent of schools Saturday morning, with one of the directors of the Oregon Interscholastic Athletic association to iron out difficulties relative to a protest of Dallas against two Salem players who participated in the basketball game between the two schools several weeks ago. Grant Fallin and Frank Lillgren are the two men protested.

Fallin is accused of professionalism, it being asserted that he was one of the principals in a boxing bout about two years ago for which he received \$15. Fallin claims that as soon as he found out that this might class him as a professional he returned the money.

Lillgren is accused of having played with the Chemawa basketball team under an assumed name against the Mt. Angel college five. He claims he played only under the nickname by which he was known at Chemawa.

Salem claims that the Dallas school has no moral or legal right to protest now. When Salem went to Dallas for the first game between the schools during

the recent season it is said Dallas talked of protesting, but went ahead with the game without doing so. When the date for the second game arrived the Dallas team was unable to come to Salem because of illness of some of the players and Salem allowed them an additional week, which it was under no obligation to do, it is claimed. When the second game was played Dallas again talked of protesting, but failed to do so.

BASEBALL TEAM WILL WORK OUT

Candidates for Positions Invited to Appear at Oxford Park Sunday

The Salem baseball club will have its first workout of the season Sunday forenoon at Oxford park, beginning about 11 o'clock. All aspirants for the team are invited to make an appearance as candidates for the places they would like to hold on the team.

The club held a meeting for organization recently and Harry Wenderoth, who has piloted the club successfully for two seasons, was again the choice for manager. A field captain has not yet been selected. Biddy Bishop is desirable for the job, but Biddy is not soliciting the place. He may take it if conditions are right.

Several new players are in sight and doubtless a number of them will be in the lineup.

CAPT HERBERT HARTLEY.

New commander of the Leviathan.

Hill Children of Arizona See Their First Elevator

TUCSON, Ariz., March 15.—Tucked away in the hills, near Twin Buttes, 30 miles from Tucson, there is a thriving little community of farmers numbering three families. A rural school has been established there for the 17 children of these families.

During a talk recently by the teacher, mention was made of the postal card. The remark was met with open-eyed curiosity. Questioning revealed the fact that a postal card had never entered their world. Further conversation led to a modern contraption called an elevator. This was too much. These bucolic mountain children could not grasp the idea of an entire room being moved up and down, with people in it.

The result was a personally conducted excursion to Tucson, by the upper grades of the school, involving seven children in all, under the guidance of the teacher. The children were taken to the University of Arizona on a street car, then taken through the museum, after which they were shown a postal card. Then

came the supreme climax and thrill of the tour—a dizzy ride in a real elevator!

This once their pilgrimage to the city of strange sights, and the children were safely returned to their mountain home with memories that will gladden their young hearts for years to come.
