

WHEAT PRICES AVERAGE LOWER

Closing Quotations are Unsettled—No Incentive Is Furnished

CHICAGO, March 29.—Confronting a holiday tomorrow, the wheat market failed to furnish any decided incentive to buyers today and prices averaged lower. Closing quotations were unsettled at the same as yesterday's finish to %c down, May, \$1.18 1/2 to \$1.19, and July \$1.15 1/2 to 1.15 %c. Corn gained 1/4 to %c with oats closing at a shade decline to a like advance, and provisions off 10 to 17 cents.

Downturns in values at Liverpool put bulls at a disadvantage from the outset in the wheat market here, especially as Canadian wheat in the United States ports were being offered at the lowest premiums of the season. Besides, wheat shipped from various domestic centers appeared to be accumulating here for delivery on May contracts.

Commission house demand was of small proportions but in the late dealings a little increase of support developed as chiefly of efforts to even up for the holiday.

Rallies at the last in the wheat market were aided by asserted extension of the dry area southwest and by reports of crop damage from green bugs in Texas. Besides, no rain or snow of importance was reported anywhere in the principal sections of the winter wheat belt and the forecast was for cold wave in the north-west.

Scarcities of rural offerings and the meagerness of receipts here gave something of a lift to prices of corn and oats. In addition, cold weather was said to be delaying field work on farms and to be prolonging heavy feeding of livestock.

Despite firmness of the hog market, provisions were weak as a result of selling on the part of the smaller packers.

Mrs. Franklin Assists State Historical Society

Mrs. Viola Price Franklin, wife of Professor Franklin of Willamette university, is spending the week in Portland where she is assisting the Oregon Historical society in indexing documents and preparing them for the edification of the public.

Mrs. Franklin has had wide experience in the newspaper field, having been assistant editor on several papers in Minnesota and in Washington, D. C.

Besides her newspaper work Mrs. Franklin has had gratifying success in work that she has prepared for magazines. Several of the leading magazines of the United States have accepted articles at various times from Mrs. Franklin.

In addition to this Mrs. Franklin has edited a number of booklets dealing with questions of public interest.

BISHOP TUTTLE LETTER

ST. LOUIS, March 29.—Bishop Daniel S. Tuttle, of the Episcopal church who is critically ill with grip at his residence here, continues to show improvement, physicians announced tonight. The condition of the prelate has been changing for the better in the past several days, it was said.

The biggest booster for Golden West is the person who has tried all the rest—He knows that

REALTORS WILL HELP JUBILEE

Organization to do all Possible to Make Annual Event Success

One of the largest crowds for a number of weeks attended the Realtors' luncheon at the Marion Thursday noon. It was business day and a number of business matters were taken up and discussed. One subject was that of cooperating with the Jersey Jubilee, which is to tour the Willamette valley May 29 to 31, ending at the Pickard ranch near Marion on the 31. There is to be a great barbecue and basket dinner there, and 3000 people are expected to attend. The Realtors turned the matter over to their own executive committee to act in cooperating to make the jubilee a success.

Cooperation in a "Home Beautiful" campaign was asked of the Realtors and the advertising committee will inquire into and make recommendations on the matter.

F. W. Heilman of Portland, field secretary for the Near East

campaign, presented the names of the committee that will handle the Near East relief funds for Salem. This committee consists of Dr. E. C. Hickman of Kimball School of Theology, Dr. Doney of Willamette, Rev. Martin Fersethian, George Griffith, R. O. Snelling, Mrs. LaMoine Clark, Joseph Albert, Paul Wallace, Dr. H. E. Morris, C. A. Kells, C. E. Wilson, F. S. Gilbert, and N. C. Kafoury. They will make public their plans in the near future.

Frank Ober, for 25 years editor of "Association Men," the international YMCA magazine, was introduced to speak briefly on the needs of the orphans of Asia Minor. More than 2,000,000 have been killed, and another 2,000,000 exiled. The shores of the Mediterranean as far as they can go are lined with pitiful refugees for whom there is no salvation but the United States. They have no country left to farm or occupy in their own right—though it was their own land for 800 years. They have no capital to enable them to become established in the other lands where they now are. They need the helping hand of America to save them from starvation.

A full million of these refugees are staying in Greece, though Greece is bed almost white by the wars, and has no food or money to care for them.

The children are being taught in American schools and fed

from American kitchens. From nowhere else in the world can they hope for life. The speaker urges the people of Salem to do their part in helping to rescue these people, and eventually to see that they are established somewhere as a part of the best blood of the race.

New Drafts on Treaties Will be Presented Soon

WASHINGTON, March 29.—State officials are working on drafts of new commercial treaties and arrangements which it is planned to negotiate with a number of countries created as a result of the war. Conventions with the older countries which require revision to meet modern conditions also will be replaced.

A new commercial arrangement is being prepared for ratification with Spain.

In all of these arrangements, it was said today, favorite nation privileges will be included.

They have a rotary snowplow attachment for tractors now. This enables the New Englanders to break the roads so that gentle spring can get in. It is a fine thing to be able to hitch a snowplow to the family car. It eases the burden of existence around Hudson's bay.

TONNAGE SALE HELD USELESS

Provision that Purchase Continue to Operate Routes Scouted by Speakers

WASHINGTON, March 29.—Spokesmen for the American merchant marine are unanimous in the opinion that it is useless under existing circumstances for the shipping board to attempt to sell its tonnage with the provision that the purchaser continue to operate specified routes.

A committee of the council of American shipbuilders, in conference today with the policy committee of the board, endorsed the opinion previously expressed by representatives of the owner and operator groups as to the unattractiveness of government tonnage in the shipping market. The committee declared that specified preferential treatment to American shipping would be necessary to offset the advantages held by foreign tonnage.

Among the suggestions advanced

for such preferentials were: The bringing of the Philippine trade with the United States under the coastwise laws, giving of reduced railroad rates on through shipments for export and import only when carried on American flagships; abrogation of those portions of commercial treaties with foreign nations that prevented preferential treatment in tonnage taxes to American flagships; giving of preferential customs duties on imports in American vessels and preferential treatment to American flag vessels in Panama canal tolls.

FALL KILLS CHILD

CHICAGO, March 29.—Henry Peterson, who with his 8-year-old son in his arms, fell over a banister and lit on a cement pavement two stories below, without injuring himself seriously, but causing the death of the child, was exonerated of blame by a coroner's jury today. The police had claimed that he was intoxicated when the accident occurred.

FURS FOR EASTER

You may be counting on warm and balmy weather for Easter but it is best to be prepared for Spring weather with a chilly tang in the air. A new fur neck-piece will add smartness to your costume and warmth to you.

Splendid line of Chokers.

University Professors To Make County Surveys

EUGENE, Or., March 29.—Professor Peter C. Crockett, of the economics department, and Dr. Warren D. Smith, head of the geology department of the University of Oregon, are planning to leave here Sunday for Central Oregon to make a complete study of Klamath, Lake, Harney, Malheur, Crook, Deschutes and Grant counties for the Union Pacific railway, it was announced today.

The railway company employed them to examine this section of the state with a view to possible rail construction. Professor Crockett and Dr. Smith have

been working on a report on these counties for the past 30 days and will finish it immediately after their trip. Dr. Smith will study the topography and economic geography while Professor Crockett will look into the possibilities of traffic in freight.

Combining Our Previous Extensive Showing
Sponsors: Salem's Greatest Millinery Exposition

EACH ONE NEW—EACH ONE DIFFERENT

True to the People's Cash store resourcefulness, and initiative we have made a most gorgeous assemblage of the grandest creations of the season.

This exposition carries the qualifications that sets this store as the leader in style as well as that of value giving.

PAISLEY HATS

It will be to your advantage to remember that, as important as color is in the spring mode, it should not dim the quality of the fabric that holds the color. Nowhere is this more evidenced than in these brilliantly hued hats of paisley designing.

HATS FOR SPRING TRAVELING

Here are hats to serve the traveler as well as those who seek a hat for general wear. Their adaptability to add charm to most any costume make them, perhaps, most favored for these purposes. Many, many modes at this one attractive price.

IN FACE OF THE FACT THIS IS SALEM'S MOST COMPREHENSIVE SHOWING OF NEWEST MILLINERY—YET PRICES ARE LOWEST HERE!
