SENATORS BEAT PRISON PLAYERS

Score Is Nine to One in First Game—Three Pitchers are Used

The state penitentiary baseball team made too many errors in the initial game of the season with the Salem Senators Sunday afternoon on the prison diamond with the result that the Senators won by a score of 9 to 1. Of the Senators' nine runs only two were earned.

In the first inning Cosby of the prisoners was nipped at the plate while trying to steal home. In the second inning the Senators scored a brace of runs through two hits, a walk and an error.

The prison's lone score came in the third. Frink, the Senator twirler, allowed a walk. The runner stole second and came home on a single. Frink waited three men in this inning, and then Manager Wenderoth, not wishing to overwork him, replaced him with Bittles, Indian pitcher. Frink, a newcomer in Salem, played with Kelso last season.

The Senators scored two more in the fifth. Bittles occupied first on an error and then Wilson, the prison pitcher, allowed a couple to walk. Gill singled and scored Bittles. Reinhart was thrown out at second, and Humphreys was out at third on a fielder's choice, which allowed Gill to score. The Senators scored two more in the seventh and three in the ninth.

The score— R. H. E. Senators 9 11 2 Penitentiary 1 4 5 Batteries: Senators, Frink, Bittles, Zosel and Emil Houser; Penitentiary, Johnson and Murphy, Wilson and Lloyd, Crosby and Walton.

GOLFERS GO OUT FOR FIRST ROUND

Scores Made Sunday Not Yet Made up by Committee for Purpose

Thirty-five earnest, enthusiastic golfers took their turn at the links Sunday for the handicap championship. The day was real springlike, and it tempted everybody to do his or her part. Just how good the best is the handicappers hadn't figured out at a late hour last night. The report is being made up by the committee, of which Chester Cox is the chairman.

The golf course is expected to be in better condition this year than ever before. It is a little older, and it is to have a little more care, and the players are coming to know its peculiarities. Some good scores were turned in Sunday, considering that it was the first really big day of the year. They should become better all through the season, and whoever wins the Hartman Bros. trophy will have to play a good game.

Tickets on Sale Here For Portland Ball Game

Salem baseball fans are to have the chance to get in on the big opening game between the Portland Beavers, and the San Francisco Seals, to be played in Portland on Tuesday, April 17. One hundred tickets for the game have been received in Salem, and will be on sale Monday and Tuesday at Smith's cigar store and the Waters cigar store for these two days only. The tickets remaining unsold after these two days have to be returned to Portland.

Floyd Johnson in Mix-up Over Bout With Willard

NEW YORK, April 9.—Floyd Johnson, Iowa heavyweight who is matched to box Jess Willard at the Yankee stadium on May 12 today was the central figure of a controversy involving boxing commissions in the states of New York, New Jersey and Massachusetts.

Promoters in both Boston and Jersey City claim to have the signature of Charley Cook, Johnson's manager, to contracts calling for the pugilist to meet Fred Fulton, Minnesota plasterer, on April 16, while added complications have arisen from the edict of William Muldoon, chairman of the New York state athletic commission, barring Johnson from boxing any one prior to the charity show at the Yankee stadium. This ruling was applied to all participants in the local event.

SISLER QUESTION DOUBTFUL

NEW ORLEANS, La., April 9.—Manager Lee Fohl of the St. Louis American league club, declined here late today to discuss reports that George Sisler, the Brown's first sacker, was out of the game for good because of eye trouble. Fohl said, however, that he did not expect Sisler to be in condition to begin the season.

BOWLING DISPLAY CONSIDERED GOOD

Many World Records are Shattered and Unusual Scores Recorded

MILWAUKEE, Wis., April 9.—(By the Associated Press.)—Repeated shattering of world's records in three of the four events, scoring an unusually high total and the display of better bowling than ever has been seen in a congress meet featured in the 23rd annual tournament of the American Bowling congress which ended this afternoon.

New records were established in the five-man, doubles, and all-events divisions. The Nelson-Mitchell aggregation of Milwaukee led in the team event with a total of 3139, the Clayman Dairy lunch quintet of Indianapolis being a close second with 3115. The Claymans registered the first 3100 total ever shot in a national meet, establishing a world's record for ABC competition and led the major event for ten minutes, the Nelson's bumping them out of first place almost immediately.

F. Wilson and C. Daw, members of the champion Nelson-Mitchell team, hung up a new record in an ABC meet for double competition when they totaled 1358, bettering the record established in 1917 by G. Satorius and W. Holzschup of Peoria, Ill., by 12 pins.

W. Knox of Philadelphia, the only man that has ever scored a perfect game in ABC competition, which he accomplished in Toledo in 1913, leads the all-events with a new world's record of 2019. Two other men, C. Daw of Milwaukee, and M. MacDowell of Cleveland, also topped last year's record score of 1999 rolled by B. Spinnilla of New York City, with 2014 and 2003 respectively. C. Baumgartner of Cincinnati, is in the top position in the individual event with a total of 724, falling five pins short of the world's record held by W. Lundgren of Chicago, who made the mark at Toledo last year.

SACRAMENTO TO BE MINING HUB

Centralization of Industry for California at Capital Is Planned

SACRAMENTO, Cal., April 15.—Centralization of the mining industry of central and northern California in this city and cooperation in the development of the vast mineral resources of the northern half of the state, as well as in Nevada, are the objects of the formation of a mining department by the Sacramento Chamber of Commerce. For nearly half-century after James W. Marshall discovered gold at Colma on January 24, 1848, Sacramento was the active mining center of the west, and the civic organization intends to revive the activities of that period.

Steps will be taken to have the state mining bureau removed from San Francisco to this city, held to be the logical location for it, as Sacramento claims to be the hub of the great mining districts of California.

Charles B. Bills, vice president of the United Bank & Trust company and former state senator, has been appointed chairman of an executive committee of the mining department. An advisory committee of some fifty big mine operators, mining engineers and metallurgists is also to be appointed. Joseph H. Quire has been named manager.

Among the plans already adopted for the department are: Mineral survey of Northern California showing deposits in each county and annual production; active support of the Mother Lode Highway project; organization of a Northern California Mines Association; excursions through the mining districts of the Mother Lode territory, Sacramento, Yuba, Butte, Plumas, Nevada, Trinity, Shasta and Siskiyou counties; installation of a comprehensive mining exhibit in the local chamber of commerce building; publicity campaigns on the mining opportunities of Northern California and Nevada.

PORTLAND CATCHER SOLD

PORTLAND, Or., April 9.—Ollie Fuhrman, catcher of the Portland club of the Pacific Coast Baseball league, has been sold to the Evansville, Ind., club of the Three I league, according to an announcement today by the Portland club.

SQUIRE EDGE GATE --Speaking of Hold-Ups

LISLE WILL GO TO PORTLAND 'Y

Willamette Senior Contracts to Enter Service of Big Association

While Leslie Cranbourne, of the Portland YMCA, was in Salem Monday, he contracted with Everett Lisle, a senior in Willamette university, to enter the service of the Portland "Y" for the coming year. Secretary Claude Kells of the Salem "Y," has been maintaining a class in YMCA methods at Willamette for the past two years, so successfully that there is a demand for several times as many graduates as the classes have been able to supply.

Mr. Lisle is one of his "Y" class that recently toured the northwest as far as Seattle, visiting six YMCA organizations. He will go into the salesmanship department, really the business relations department that has to do with the business men of the city, about the most responsible work of the whole association.

Everett Craven, a 1922 graduate of Willamette, who went there last July, is to succeed Mr. Cranbourne as head of the department. There are two other Willamette graduates of 1921 and 1922, Paul Fogel and Ben Rickli, who are making notable records there, and Mr. Cranbourne was very certain where he could find others of the right sort. It is expected that two others of the 1923 Willamette class will be installed in Portland later in the year. Mr. Lisle's work begins July 1, and in August he will go, on the association time, to the great two weeks' secretarial conference and summer school at Seaback, Wash., which was attended last year by Secretary Kells of Salem and hundreds of other secretaries from all over America.

The extraordinary success of the Willamette university YMCA course has given to the university a national standing. The Portland "Y" is recognized as one of the keenest, most aggressive, most exacting in its services, of all in the United States, and its wholehearted endorsement of the Salem school by taking practically all of its "Y" graduates months before their graduation when others might be bidding for them, is a testimonial that would be hard to excel.

FUNDS DONATED BY ASSOCIATION

Silverton Parent-Teacher Group Gives Money for Various Purposes

SILVERTON, Or., April 9.—(Special to The Statesman.)—The Parent-Teacher association of Silverton held a meeting Friday afternoon at the high school study hall, at which time an important business meeting was held, followed by a good program. Mrs. Helen M. Wrightman, local president, presided at the meeting. The association voted to donate \$10 to the high school boys to help finish their track which is being made back of the Eugene Field school; \$20 toward the sealing of the top of the stage in the Eugene Field auditorium; \$5 in prizes to Mrs. Vida Bennett to be used for the music memory tests; \$5 in prizes for bird houses to be used for Miss Rosella Richardson's art class, and \$13 for a basket and volleyball. The association further decided to frame pictures of the basketball team.

A committee consisting of Mr. and Mrs. George Hubbs and Superintendent Yoniet was appointed to make plans for the landscape gardening for the school grounds. A committee composed of Mrs. R. E. Kleinsorge and Mrs. Grace Palmer reported that they had appeared before the city council

LAW IS NEEDED TO SAVE LIVES

Thomas K. Campbell Comments on Practice of Automobile Drivers

Thomas K. Campbell, member of the public service commission, declares that unless congress passes a uniform law making it a specific requirement that automobiles of all classes to stop, look and listen before passing over grade crossings, the people of Oregon and the entire country will continue to pay the death toll of carelessness.

"That unseem factor over which we have absolutely no control, and which prompts auto drivers to keep their eyes glued on an oncoming train until train and automobile arrive exactly at the point of crash, can probably never be overcome," explains Mr. Campbell. "If it were possible for the automobile driver to tear his gaze away from a train that he sees coming and which is soon to cross his path, these grade crossing accidents would not occur. It is the same uncanny thing controlling the automobile driver that controls the bicycle rider who is intently watching the stone in front of him. The cyclist, he continues to start at a particular stone will invariably run over it, and the automobile driver will do about the same if he watches a train."

Mr. Campbell advocates a federal law requiring every automobile driver to pass a test on his knowledge of the highway laws, and on the science of driving.

Stops Coughs and Wheezy Breathing

"Had a rough and wheezing in my throat," writes Caroline Dillard, Petersburg, Va. "Foley's Honey and Tar gave me quick relief and stopped my cough." Coughs resulting from Flu, Grippe, Whooping Cough, Asthma and Bronchitis, quickly relieved with Foley's Honey and Tar. Three generations of satisfied users have made Foley's Honey and Tar the largest selling cough medicine in the world. Refuse substitutes. Insist upon Foley's. Sold everywhere.—Adv.

BIG MEETING STAGED

WASHINGTON, April 9.—Amateurs from 25 states and two provinces of Canada met tonight in the ring of the Boston Arena to reduce the approximately 150 aspirants for national boxing honors to 32 before morning.

COBB TO BENCH VEACH

DETROIT, Mich., April 9.—Manager Cobb of the Detroit Tigers plans to bench Bobby Veach, veteran outfielder, in favor of Henie Manush, the hard hitting recruit from Omaha, he announced at Huntsville, Ala., today according to word received here.

Girls Acquire Firm Hands Through Physical Training

CHESTER, Pa., April 2.—Widespread participation in athletics by girls is developing powerful fingers and firm hand grips according to reports compiled by the department of psychology and physical education at Darlington Seminary, a school for girls here.

"Measures of muscular power taken on a recording instrument known as a dynamometer," said Prof. Frank Paxson Bye, director of the school, "have disclosed marked development in the hand grips of virtually all Darlington students. Under a system of compulsory athletics our girls have added from three to 20 kilograms of hand strength."

"Modern girls do not feel a sense of loss with the departure of delicate hands. On the contrary, they view this development as a part of the modern athletic program to provide them with strong glowing bodies and alert mentalities."

"Similar development in muscular effort is noted by tests for the arms, back and legs. Basketball, hockey, baseball, riding and swimming are conclusive to this general growth of power. However, a firm, strong grip from the hand is frequently accepted as an indication of a staunch frame and good mentality. It is indicative of proper coordination between mind and muscles."
