Scored—Deliveries Top

Records CHICAGO, April 11.-Sudden expansion of buying brought about a sharp advance in the wheat market today with July and September deliveries scoring a new high price record for the season. All deliveries of corn, too, to good school. Only \$1350, \$250 cash | and July and September oats outdown, balance terms. This is a fine did the season's previous top record quotations wheat closed un-

gained 2 1-8 to 2 5-8 at 2 3-4 and

oats 3-8 to 7-8 atle. In provis-

ions the outcome ranged from 7 cents decline to 5 cents advance. At first the wheat market showed apparent indecision, starting with a show of firmness, followed by a moderate sag. Then, heavy buying in which houses with eastern connections were conspicuous hoisted values quickly with gossip meanwhile current that export business aggregating 1,000,000 bushels was under way. Unfavorable weather northwest threatening delay to spring seeding counted meanwhile as a bullish factor, and so, likewise, did adverse reports about crop conditions west and southwest. Besides relative firmness of the Liverpool market in the face of de-

the Atlantic received a good deal of notice. One of the largest shipping firms in Omaha was named in authority for an assertion that the yield of wheat in Nebraska this season would be only half of last year's total. There were reports current also that much laud in Ohio would be idle this year as a result of searcity of farm labor. As the end of the session approached profit taking sales

were large but were without any decided effect on prices. Gossip that corn would soon be moving rapidly out of Chicago gave impetus to buying of that cereal. Seeding delay tended to strengthen the oats market. Lower quotations on hoge made

the provision market easy despite

the rise in the value of grain.
