BE PRETTY! TURN GRAY HAIR DARK

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and trouble some. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and often another application or two, your hair becomes beautifully dark, glossy and attractive.—Adv.

Insist upon Foley's. Refuse substitutes. Sold everywhere.—Adv.

is of land in Oregon devoted to the proper rotation of crops. Perhaps so. But the Salem district is getting to the front in this respect faster than any other section. The great interest in the acreage here devoted to legumes and corn amply proves this.

If the state industrial school for boys can be made self-supporting, with the right land and the proper crops grown on the land, that is interesting. It is important because of the money that would be saved the taxpayers. It is still more important because of the greater percentage of reformations that would result from keeping all the boys busy all the time—in the school rooms, in the shops, and on the farm; with of course a part of the time spent in play.

Well, on the Slogan pages this morning there is a plan for making that institution self-supporting, from the best use of good land. You are invited to read it; to discuss it; to find fault with it. If it cannot be done, why not?

Beware of political propaganda being dosed out, especially in Salem. Mark Twain once said that
