Gloria Swanson, famous Paramount star. And to prove that it can be done, she dons a bejewelled costume and headdress, steps into a setting representative of the architecture of the ancient race of the Incas in South America and becomes for all appearances an Inca princess of hundreds of years ago.

Lauren & La Dare, in "Bits of Melody," working in special setting of beautiful shimmering silk artistically decorated, came on at the Palace for 15 minutes of vocal and instrumental music that was a real treat.

Lester & Vincent more than delight the crowd with their exceptional blackface sketch. The troubles of a man of color attempting to secure a position are portrayed in fine manner.

Vision De Art. This is a posing act which can be termed the best offering of this character yet seen in vaudeville. The author and producer has practically devoted his whole life to the building of acts of this character.

SENATOR NELSON OF MINNESOTA IS DEAD (Continued from page 1)

Vermont, would succeed to the chairmanship of the judiciary committee. Senator Nelson's present term would have expired in 1925.

Knute Nelson was serving his fifth term in the United States senate having been elected for the fifth term in 1915. He was governor of Minnesota for two terms just preceding his service in the senate and previous to that had been a member of congress for three terms and had served in the state senate of Minnesota for four terms.

Interested in Education Senator Nelson served with the Fourth Wisconsin regiment during the Civil war. He was interested in educational work and was a member of the board of regents of the University of Minnesota for 11 years.

Death was due to heart failure. The railroad train crew said that as the train was passing through Timblu, Md., 11 miles from Baltimore, the aged senator had an attack of angina pectoris and died in a few minutes.

"He was never defeated for public office," Governor Preus said. "He was revered and loved and trusted more than any man in public life in the northwest. His foreign birth alone on several occasions stood in the way of his going to the White House. No greater inspiration can be left to a foreign born American than the life and deeds of Knute Nelson. It gives hope to the immigrant and inspiration to the American-born."

APOLLOS TO SING WEDNESDAY NIGHT

Concluding Concert For Year Will Be Presented By Local Organization

When the Apollo club sings of its magnificent "Sea Tera" chorus at its third and last 1923 concert on Wednesday night, the common land-lubber would trade his soul for a pair of wide-bottomed trousers and a pair of bare feet to slush around on the deck of the wing-jammer.

There is a melting pot group of songs—Scotch, Irish, Scandinavian, American, that ought to give almost anybody a taste of the old ancestral home, and there are two numbers from a cycle of "Rose Songs," by Dr. John Siles, director of the chorus for the past three years.

Most of Salem patrons would attend these Apollo concerts if they were exclusively local talent. A chorus like this ought to be sixty times as good as a solo singer. But the club has always had an imported soloist of state or national prominence. This time, Constance Horn, mezzo-soprano, comes as the star number. She will bring a voice as smooth as a velvet curtain, as thrilling as the ship go by under full sail.

posed certain conditions to be appended to the resolution to be passed by the senate in giving their advice and consent to the signature of the protocol or statute regarding the international court. This condition must include a declaration of the refusal of the United States to join the league of nations and, second, a declaration that the United States shall have an equality of representation both in the council and in the assembly in voting for the election of the judge of the court. These two suggestions of the secretary of state are vitally important.

"It will be the duty of the senate, therefore, to frame conditions under the first two suggestions of the secretary of state and it also may be assumed that the senate may very possibly originate and propose other conditions."
