

ACCIDENT FUNDS SHOW INCREASES

Expenses of Department Less in Last Ten Months, Late Report Shows

Receipts of the state industrial accident commission for the 10 months from July 1, 1922, to April 30, 1923, amounted to \$2,176,818.24 and expenses \$1,522,813.22. For the 10 months' period from July 1, 1921, to April 30, 1922, the receipts were \$1,795,736.82 and expenses \$1,600,940.33. During the 10 months ending April 30, this year, the receipts were \$411,082.42 more and expenses \$8,127.11 less than for the same period the preceding year, showing an increase of 24 per cent in receipts and a decrease of 5 per cent in expenses.

CONTRACTORS ARE AFTER GYM JOB

Nine Portland Firms Eager to Build Willamette University Building

It is understood that at least nine Portland contractors have already called for the plans for the proposed new Willamette university gymnasium since the plans were announced to be ready on Wednesday morning. Two or three Salem bidders have called for plans and specifications, and it is understood that one or two others are still to come in, so that there will be vigorous competition for the desirable contract.

The bids are to be opened at the office of Architect Doyle at Portland on the morning of May 17. Information as to the matter can be had by calling at the office of President Doney at the university campus. No suggestion as to the probable figures have been given from any of the bidders. The university has set apart no absolutely unchanging sum for the purpose. The fine swimming pool may be added if the figures for the main construction are low enough, but they won't know until the bids are opened just what they shall be able to get.

More Than Three Millions Received From Fuel Taxes

Producing a total of \$2,426,549, the state tax on gasoline and distillate during the month of March, 1923, exceeded the revenue derived from this source during the preceding month by about 35 per cent, according to Sam A. Koger, secretary of state. Of the amount collected on March sales \$46,351.61 resulted from the law of 1919 imposing a tax of one cent a gallon on gasoline and one-half cent a gallon on distillate, while \$47,074.95 was returned from the law of 1921 providing for an additional tax at the uniform rate of one cent a gallon on all kinds of motorvehicle fuels.

March remittances were based upon a total distribution of 4,362,822 gallons of gasoline and 344,675 gallons of distillate. To date, the operation of the motor vehicle fuel tax laws has brought to the state treasury the total sum of \$5,220,844.80 of the amount collected under the law of 1921, there has been returned up to April 30, 1923, the sum of \$47,517.57 to operators of farm tractors, motor boats, commercial cleaning establishments, etc., pursuant to that provision authorizing refunds of taxes on such motor vehicle fuels as are used for purposes other than in the operation of motor vehicles upon the public highways.

As provided by law, the proceeds of the motor vehicle fuel taxes are credited to the state highway fund, becoming available for expenditure in the construction and maintenance of state highways.

PRODUCTION OF LUMBER 10 PER CENT OVER NORMAL

One hundred and thirty-two mills reporting to the West Coast Lumbermen's association for the week ending May 5, manufactured 99,564,187 feet of lumber; sold 92,845,938 feet, and shipped 99,268,705 feet.

Production for reporting mills was 10 per cent above normal. New business was 7 per cent below production. Shipments were 7 per cent above new business.

Thirty-one per cent of all new business taken during the week was for future water delivery. This amounted to 285,984,485 feet, of which 22,469,792 feet was for domestic cargo delivery, and 6,128,766 feet export. New business for delivery by rail amounted to 1921 cars.

Twenty-six per cent of the week's lumber shipments moved by water. This amounted to 28,249,235 feet, of which 17,126,110 feet moved coastwise and inter-coastal, and 11,123,125 feet overseas. Rail shipments totaled 2150 cars.

Local auto and team deliveries totaled 6,617,470 feet. Unfilled domestic cargo orders total 160,058,482 feet. Unfilled export orders, 81,439,307 feet. Unfilled rail trade orders 8285 cars.

In the first 18 weeks of the year production of West Coast Lumbermen's association mills has been 1,733,009,475 feet; new business, 1,922,964,848 feet, and shipments 1,971,857,084 feet.

MANSFIELD WILL ATTEND MEETING

Head of Oregon Farm Bureau Will Lend Hand to Loganberry Growers

George A. Mansfield, president of the Oregon State Farm Bureau federation, is to be in Salem today to participate in the Loganberry conference relative to permanent organization and a regular advertising campaign for the Loganberry interests. A telegram sent to Mr. Mansfield by H. H. Mumford of the present Loganberry association, brought the reply that he would be glad to come and give whatever assistance he could give in making the movement a success.

The Salem Chamber of Commerce has been taking great interest in this movement, and has sent out thousands of letters and postals for this and other similar meetings. The meeting itself is to be held in the club auditorium, and the club is planning a follow-up campaign for whatever definite action is taken in the matter.

Reports already received from the questionnaire sent out through the chamber of commerce indicate that the farmers will be almost a unit in appropriating money from their crops to help advertise the Loganberry. It has been figured out that if they should ship up 10,000 tons of logan this year, at one-tenth of a cent a pound, it would give an advertising fund of \$20,000. If only one-half of that tonnage should ship or pay, even that would make \$10,000, which it is believed would be of vast value in helping to open new markets.

All Loganberry growers are requested to participate in the meeting and give their personal support toward making a market for their fruit crop that will pay them for their labor of production.

A questionnaire was recently sent out through the Salem Chamber of Commerce office, asking the farmers if they would contract to pay one-tenth of a cent a pound for a Loganberry advertising fund, and if they would endorse the appointment of a committee to handle the publicity matter. Out of the large number of replies received, only three have said "No"; the others endorse it. One Japanese grower stands pat for the publicity assessment; another grower says that he speaks for at least 80 per cent of his community, in supporting the plan. The indications are that the meeting today will break all records for Loganberry grower attendance.

Congressional blocs are the latest in children's toys.

The increase in the price of sleds indicates that the manipulators know when the rhubarb and strawberry season strikes the country.

A Few Facts

You or your neighbor may trade with us: If it is you we have endeavored to please you at all times; both in quality and price. If your neighbor ask them about our goods and service. We claim to have the best service in the city, the most alert, thorough and fast-moving clerks in the business. We give our customers the benefit of a wide experience in what we deem the best for their interests. Give us some of your orders and we will prove to you that your trade is appreciated here.
