public places. A similar movement last year is said to have materially reduced the number of deaths and injuries caused by railway trains at crossings. The railway officials advise that there is only one way to be safe in crossing a "railway track" and that is to "stop" within the safety zone, close to track, and "look and listen."

They drove to Old Grand Ronde, where they left their car and walked in 14 miles to the fishing grounds. The trout fell for salmon eggs, chubs and a double spinner, and not even the rain that shook extra bugs into the water for the trout feed, could keep them from taking the store bait ravenously.

Cherrians Drill—King Bing Hamilton says that the Cherrians who were to have turned out last night to drill for the Portland Rose fair, must have imagined themselves as

over-ripe cherries, that would "burst" if a little wet rain struck them. Most of them didn't turn out at all, but stayed at home and jawed their wives and probably scolded the babies and kicked the cat because of the weather. The drill was held up in the top floor of the city hall, so that they really work out in the rain. Only the stay-at-homes didn't know it. He wants 'em all next time.

He has been in Willamette for almost 40 years, counting his student and his professional days. He has come to be regarded as one of the foremost mathematics teachers in the west. Professor Hewitt, now of Linfield college, a former professor in Willamette, is to take the department of mathematics in the Willamette summer school in Professor Matthews' stead. He will go a little farther than the Matthews course contemplated, for in the second term he will present a course in physics that has been much in demand. PAROLE OFFICER FOR BOYS' SCHOOL

Portland Rotarians Likely to Pay Salary for New State Position

The Portland Rotarians, it is reported, are willing to pay the salary of a parole officer for the state training school for boys, and L. M. Gilbert, superintendent of the school, was directed by the state board of control yesterday to go to Portland and discuss the matter with the Rotarians.

It is said the Rotarians want J. G. Kilpack, well known welfare worker, appointed to the place, and he is willing to accept.

The board and Superintendent Gilbert are unanimous in the opinion that the school should have a parole officer, and it was also recommended by former Superintendent W. L. Kuser, Governor Pierce said yesterday that from what he had learned of the parole law and its operation, as applied to the state penitentiary, he is of the opinion the parole officer at the prison is in the wrong place, and that the boys' school and the state insane hospital instead should have parole officers.

Should the salary of a parole officer for the boys' school be paid from the outside, the state would have only the expense of transportation under the office and maintenance of the officer to pay.

OUR COUNTRY.
I cannot seem to see today
Beyond the grin and gruesome gray
Which clouds my path and fogs the way!
"Why this? Why that?" I ask my soul,
As I see Fate's hand taking toll,
With lawless forces in control.
The laws of country are downtrod,
Say nothing of the laws of God;
Our need is Moses' anger-rod
Where love and peace shall henceforth
flower;
To smite irreverence, growing power,
And make of earth a fairer tower,
Our loved land of Freedom's way,
Where love and peace shall henceforth
flower;
Where alien arsenals of hate
Shall not tear down, nor dare berate,
Our holy institutions great!
Oh, flood with sunlight, Lord, I pray,
Our loved land of Freedom's way,
That liberty may not decay!
—Edgar Field.

Flax and Hemp Men Hold Annual Session Today

The annual meeting of the stockholders of the Willamette Valley Flax and Hemp association is to be held today at the Chamber of Commerce, the session beginning at 10 o'clock. The president and the secretary will hand in their annual reports, and much association business will be up for settlement. It is expected that

the session may last well along into the afternoon.

From all reports, the flax crop of this year promises well. In general it was planted earlier than last year. It has grown well under the prevailing weather, that was close to ideal for its needs, and a record crop seems now in prospect. It appears that the most realistic hopes of the friends of flax are to be realized this season, and the industry firmly established in Salem and the Willamette valley.

There seems to be a lot of talking over the back fence at Lausanne.

Naturally Affected Her
The magnate came home grinning and sat down in a cheerful frame of mind to carve a large roast.

"My private secretary," he announced, "told me today that he is engaged to be married. On his salary the girl will starve."

At this the daughter of the house burst into tears, and her dad was considerably taken aback.

"Why, what's the matter, my daughter?" he figured solicitously.

"It's me he is engaged to-o-o," sobbed the girl.—Unidentified.
