

CITY NEWS IN BRIEF

On Annual Outing—About 75 young people of the Live Wire class from Leslie Methodist church are to start this morning for their annual three-day outing. This year they go out between Mehama and Lyons, where there is a delightful camp ground with everything desirable for such an outing. A. C. Bohrnstedt, the teacher and leader, is in charge, with Mrs. Bohrnstedt as his lieutenant. This evening the young people are to put on a paid entertainment at the Lyons Odd Fellows hall. On Sunday they are to take charge of the church services also. Between times, it's all a grand good time for the students who have been sticking close to their books for months. Enough of the members who can not go for the full time are expected out on Saturday or Sunday, to make the total number close to 150.

It determines failure or success in baking, more than any other ingredient.

If you do not always have satisfactory bakings, change to Calumet for just one trial.

It is pure; containing only such ingredients as have been officially approved by U. S. Food Authorities.

Within the Calumet factories—the largest and most sanitary on earth—hundreds of skilled workers clad in white are busily engaged in producing the baking powder that is used by millions. Human hands never touch it. Its sale is 2 1/2 times as much as that of any other brand. Pure in the making—pure in the baking.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.
