PORTLAND LOSES EIGHTH STRAIGHT

Los Angeles Evens Up With Beavers—Middleton Banned By Umpire

SAN FRANCISCO, June 5.—Portland lost its eighth game in a row today when the Seals went on a batting spree, making 13 hits and winning 11 to 4. Manager Middleton selected himself as a pitcher and was rather roughly handled by the San Francisco sluggers until Umpire Carroll banished him for protesting a call on Compton in the eighth. Yarrison had to come from the bench without warming up and Compton knocked the first pitched ball for a two-bagger. The Beavers took kindly to Courtney's delivery, making 14 hits, but the Seals were never headed after the first inning.

YANKS RESUME WINNING COURSE

Boston Heads Washington and Now Stands in Sixth Niche in List

NEW YORK, June 5.—(American)—After suffering three successive defeats, the New York Americans resumed their victorious course, defeating Chicago in a 10-inning game, 7 to 6. New York won when the Chicago infield weakened. Collins fumbled Pipp's grounder with one out, and Meusel's double followed by Ward's single, drove in the tying run for New York. Ward reached third when Strunk threw wild on Scott's grounder and scored the winning on Witts single.

RURAL CARRIERS ARE NEEDED HERE

Examinations to Be Given Saturday—Other Positions to Be Filled

A civil service examination for rural mail carriers from Salem is to be held Saturday, June 9, at the Salem postoffice. It calls for service over a minimum of 24 miles on the route at a salary of \$1800, with a \$30 addition for each added mile. The applicants have to have the authorization from Washington to take the examination, so those who have not already organized their campaign will hardly have a chance.

Another opportunity is near at hand, for those who have not taken the rural route chance. It is for appointment as clerk-carrier in the Salem office, at an entrance salary of \$1400 a year, and the examination is set for July 7. The age limits are between 18 and 46, except for those entitled to military or naval preference. Application blanks can be had by writing to the secretary, 11th U. S. civil service district, 207 Postoffice building, Seattle, or by calling on Paul W. Miller, local secretary, at the money order window of the Salem postoffice.

A call is out for an auto mechanic teacher for the veterans' bureau at Helena, Mont., starting on a salary of \$2000. This calls for some good teaching experience and general mechanical ability. Applicants should write to the civil service commission, Postoffice building, Seattle, for form 1371, or call on Paul Miller, local secretary of the civil service, at the Salem postoffice.

Three grades of doctors for various work with the veterans' bureau are asked for in yet another call for men. Their examination will come on June 30, for service in Oregon, Idaho, Montana, Washington and Alaska. The salaries for the various classifications are \$2350, \$4250 and \$5500 a year. Civil service blank No. 1312 should be called for in making application for consideration.

Rotary Convention to Frame Code of Ethics

ST. LOUIS, May 31.—Administrative problems and the best way to introduce a standard code of ethics among business and professional men throughout the world will focus the attention of ten thousand delegates, to the fourteenth annual convention of the Rotary International, which opens June 18.

The number of Rotary clubs in the world has almost doubled within the last five years, and there now are more than fourteen hundred club units, divided into 39 districts in cities of the United States, Canada, Mexico, Denmark, Uruguay, Spain, Panama and Argentina with one international organization in the British Isles, Australia and South Africa.

Probably the most interesting business to come before the convention will be the discussion of the proposition that Rotary clubs concentrate their energies for a year in development of programs that will have for an object the introduction of standard codes of ethical practices among business and professional men in all business or professions represented in Rotary.

An unusually large number of delegates from clubs overseas, particularly those from the British Isles and various parts of the British empire have announced their intention of coming and some have already started.

St. Louis is making great preparations for the reception of the visitors, and already reservations have been made for more than eight thousand.

FEEBLE-MINDED TO GIVE CANTATA

'The Indian Princess' to Be Presented By State Wards Saturday

The children of the State School for Feeble Minded will give the annual spring cantata Friday evening. It will be given in the evening and will be held on the grounds of the school. Trucks and Tractors Reduce Use of Oats

WASHINGTON, June 5.—Production of oats in the United States probably has reached its

highest point, in the opinion of the Department of Agriculture. The yearbook of the department for 1922 declares the advent of motorized trucking, both in city and country, and of the tractor on the farm, are reducing markedly the commercial demand for feeding oats. The result, it is predicted, will be to reduce acreage and production, which have increased rapidly and consistently since annual estimates first became available in 1868. The oat crop now ranks third in importance, the cereals being next to corn and wheat.

The importance of barley which

rank fourth among cereals in this country, is increasing even though production is not. The average annual production of barley for the 10 years ended in 1922 was about 193,000,000 bushels. The future outlook for this crop is said to be encouraging. Rye is listed as an unimportant crop in this country, but there has been an increase in production since 1912, due to an increased European demand which is expected to disappear later in large measure.

BISHOPS CLOTHING AND WOOLLEN MILLS STORE

By Stop-Watch and Speedometer

CAREFUL TESTS with several Gardner stock cars, under average driving conditions, show that any Gardner owner should be able to equal these acceleration figures:

- 5 to 25 miles in 7.77 seconds.
- 5 to 35 miles in 12.92 seconds.
- 10 to 30 miles in 8.22 seconds.
- 10 to 40 miles in 13.97 seconds.

These figures are an index of the power and flexibility of the Gardner 5-bearing motor. They indicate why the Gardner is out in front in traffic, and why it has never been beaten in hill-climbing competition. This we can prove.
