

MORRIS TELLS OF HIS TRIP

Salem Delegate Talks on Great Kiwanis Convention at Atlanta

High points and side lights of the Kiwanis International convention recently held in Atlanta, Ga., were related by Dr. Henry E. Morris, credentialed delegate from Salem, at the Kiwanis luncheon held Tuesday noon at the Marion hotel.

"The convention was a wonderful success," declared Dr. Morris, "and was attended by 5000 members of the organization, outside of nearly 1000 others, wives and families of the delegates. While bootleggers were numerous, and we were informed that the city was wet, and that refreshments could be obtained at any hotel simply by calling the bellboy, I did not see a single Kiwanian under the influence of liquor, though several had evidently partaken of minor quantities. About 95 per cent of the organization is of the better class of citizens."

Americanization is the keynote of the convention, both of the nation and of foreigners, will be the high note of the year. At least one meeting will be held during the year for the better understanding of labor and capital by each unit. Under-privileged children remains one of the principal issues of the Kiwanis, along with better homes. Muck work is being done along this line, especially in Texas.

Just how Salem was able to win first place and national recognition for attendance in the silver division was explained by Dr. Morris as simply a matter of "out-figuring" other contestants. Salem records were kept straight and no additional entries were made. For efficiency the northwest division was awarded second place.

Club Classification. In classing the divisions, membership of each club is taken as a basis. Clubs with about 150 members are placed in the gold division; those between 75 and 150, as Salem, in the silver division, while those under 75 members are placed in the blue division. Two small clubs, with about 35 members each, scored 100 per cent in attendance. Final percentages gave Salem 98.87; Woodlawn, who contested for first honors, 98.35 and Richmond, Va., 98.73.

The silver bound gravel, brought home and the permanent property of the Salem Kiwanis, was passed around the table for all to inspect. This had the following engraved upon it: "Attendance Prize, Silver Division, The Kiwanis Club International, 1923." On the handle was the official seal of the club.

Hand in Hand. "Commercial clubs and the Kiwanis clubs are working hand in hand throughout the United States," declared Dr. Morris. "The Kiwanis are hard workers and boosters, while the Rotary club is making a strong bid for second place. It is impossible for any club or district to work alone and obtain the best results."

"At present it is the practice for coast visitors to jump from Seattle to Los Angeles, missing Portland. The individual club is not large enough nor has it sufficient money to work alone. Regarding the attitude of coast states toward one another, that of Washington toward Oregon is better than that of California."

That the Salem broadcasting station is heard in the east was the report brought back by the delegate, who declared that several had told him it could be heard with more clearness than those of Seattle, Portland or Los Angeles.

ter we were as wet as if we had been dropped into a river. Within five minutes the water was running down the streets several inches deep. It is more than a rain in that country. Out here it is content to rain from one direction, but back there it rains two ways, both up and down. When the rain strikes the ground it bounces into the air for a couple of feet. It will rain more in five minutes than it does out here in a month."

Changes Advocated

Before closing the speaker urged the changing of committees, especially the program, music and entertainment, once in a while, not only to give all a chance to be active in the club, but so that each could arrange for some feature in which he was interested. That the Chautauqua this year would be the last in Salem was the opinion expressed by Otto Paulus, who said that last year a deficit of nearly \$500 occurred. The guarantors of the Chautauqua had to make this amount good. If the same thing happens again this season, he declared, the business men will become tired of such contributions, and refuse to guarantee another season. The entire program can be attended with an average expense of 17 1/2 cents for each number. Paulus stated.

A box of incandescent globes, donated by Paul Hauser, was awarded Harry Lewis as the attendance prize for the luncheon. Seven names are drawn from those present, and the last is the lucky man.

SILVERTON NEWS

SILVERTON, Or., June 12.—(Special to The Statesman)—Mr. and Mrs. Gordon McCall left Sunday night for an extended trip east.

Miss Esther Saunders of Baker is visiting at the M. J. Madson home.

Mr. and Mrs. J. Campbell have gone to Michigan for a month's visit.

B. H. Conkle, who spent the week-end at Silverton, returned to Portland for the Rose show. Mr. Conkle intends to return to Silverton for a month's visit.

Victor Madsen is home for the summer vacation now.

Mrs. H. Irish and her three sons have gone to Boulder, Colo., for the summer.

Dr. J. Welch, while taking part in a friendly bout Sunday afternoon, broke his ankle bone. It is said that Dr. Welch stepped backward into a small hole.

Home Teachers Desired in Silverton Schools

SILVERTON, Or., June 12.—(Special to The Statesman)—The Silverton school board held a special meeting at the Eugene Field auditorium Monday night. Dr. C. W. Keene, one of the members of the board, could not be present due to the serious illness of A. McClaine at Spokane. Mr. McClaine is a brother of Mrs. Keene.

After the routine business was completed the matter of signing the contracts for next year's instructors was taken up. A motion was made and carried to the effect that the contracts be signed either by the chairman of the board or by a majority of the board. Mrs. Palmer, chairman of the board, signed the contracts of teachers who lived in town or had previously taught here. She then put in a plea for several other home teachers who were as yet without positions before outside teachers be signed up for.

Superintendent Youel gave a manual training and home economics report for the past year. The report showed that the manual training department was self-supporting and that the home economics department was more than self-supporting. At the cafeteria of the domestic science department 79 meals were served. At these 79 meals 1888 people were served. The class presented the department with a pressure cooker.

Dates Are Set for Next County YWCA Encampment

Date of the Marion county YWCA camp this year has been set for August 1 to 14, inclusive, on the Trask river, in Tillamook county. Plenty of fishing, swimming, and outdoor activities will be engaged in by the boys attending. Between 60 and 70 are expected to be in camp this year, approximately 25 more than last year. The camp is much better equipped now than it was last season. Boys who attended at that time were forced to hike a distance of 22 miles before reaching the camp site, while all supplies had to be carried in. With a new road it will be possible to drive to within a half mile of the camp. Parents can rest assured, it is said, that their boys will be in safe hands and that they will be given the best of camp training. The camp will be under the direction of A. E. Young, state YWCA secretary; R. H. Boardman, Ed Sociolofsky and a number of leaders from Willamette university.

HONORS AWARDED AT WILLAMETTE

Four Additions to Faculty Made—Class Day Exercises at Waller Hall

Four additions to the faculty of Willamette university were sanctioned by the board of trustees Tuesday at their annual business meeting. Only two of these are named: Herman Clark of Salem, as associate professor in chemistry, and Mrs. G. L. Rathbun as physical director for women. The other two places, an assistant in political science, and an instructor in modern languages have not been named. They will be left for the faculty committee to select.

Professor Clark is an alumnus of Willamette, with a master's degree in chemistry. He has taught with marked success in the Salem high school for the past seven years. Mrs. Rathbun was a college and high school physical director before her marriage, and comes with good recommendations. She will look after the women of Willamette, while her husband is to take charge of the men.

Prof. Robert Gatke was given a year's leave of absence to carry on some advanced historical studies. His place has not been filled. The trustees ratified the list of graduates as published a few days ago with no changes. It is remarked upon a very exceptionally coherent class. There have been almost no drop-outs, failures or contingent certificates. Last year the university adopted the plan of making an exhaustive study of every personal record, to ascertain just wherein the students might be deficient for graduation. The results of the investigation were given to the students themselves before registration last fall so that every one knew exactly what delinquencies would have to be made up. The cooperation of students and faculty has brought the class through practically 100 per cent strong.

Not a great deal of new matter came up for action by the board. One of the most important though the least spectacular and hardly noticeable to the outside public, is the action on the revision of the by-laws under which the university is governed and its finances controlled. A revision of the old by-laws is in process of completion, but it cannot be ratified until the next board meeting.

Class day exercises were held at Waller hall Tuesday afternoon with the hall well filled. Stunts were put on by the sophomore and junior classes, and the senior class presented a short play in lieu of the longer class play that had been planned for the evening. After the evening had been assigned to the seniors it was thought well to call the annual alumni banquet for Tuesday instead of Wednesday evening, so as to accommodate many out-of-town guests and also to release the graduates who would otherwise be entirely free following the Wednesday formal graduation, so the big play was canceled. The sophomore offering, "The evolution of a Freshman," was a particularly joyful farce that brought roars and screams of laughter.

Announcement was made of the senior class gift of \$1000 for the Willamette endowment fund. Bishop W. O. Shepard of Portland accepted the gift in the name of the trustees, and gave a very pleasing little talk for the board. Athletic and forensic honors were then announced, and sweaters and certificates distributed to those who have earned them during the past year. Football and basketball honors were announced earlier in the year; the awards at this time covered baseball, tennis, track and forensics. The awards are here listed in full:

Baseball—Sweaters and certificates: A. D. Robertson, Earl Mootry, John Robins, George Oliver, Charles Coryell. Certificates, after having won sweaters in previous years: Harold Isham, Dave Ellis, Orlo Gillett. Track—Sweater, John Wright. Certificates: Albert Logan, Merwin Stolzeise, Willis Vinson, Elmer Strevey. Tennis—Sweaters, Hale Mickey, Elva Burriss. Certificates: Edward Huston, Stanley Emmel. Debate—Bar "W." Ward Southworth, for first year. Certificates: Rodney Alden, Robert Littler, Robert Notson. Oratory—Bar "W." Leland Chapin. Certificate: Roy Skeen. Collegian honors—Ruby Rosenkranz, Daniel Taylor, Victor Carlson, Leland Chapin, Albert Guyer, Mary Wells, Lowell Beckendorf.

A new form of university honor was inaugurated this year, the granting of parchment diplomas to graduates who have achieved inter-collegiate honors during the course. These entitle them to perpetual free access to all collegiate sports or events held on the home floor. The lists start this year with 14 seniors, as follows:

Football—Waldo Zeller, 4 years honors; Verne Bain, 3 years; Bruce White, 3 years; Raymond Ganzans, 1 year. Baseball—Dave Ellis, 2 years; John Robins, Raymond Ganzans, each one year. Track—Elmer Strevey, Bert Ford, each 2 years. (Ford is a law graduate, 1923.) Tennis—Ed Huston, 2 years; Elva Burriss, 1 year. Debate—Rodney Alden, 2 years; Helen Hoover, Ruby Rosenkranz, each 1 year. Oratory—Roy Skeen, 2 years.

Bids Will Be Opened On Highway and Trestles

At a meeting of the state highway commission in Portland June 25 bids will be opened on about 28 miles of highway construction in Curry, Malheur and Wallowa counties, and several bridges in Grant and Josephine counties. The projects are:

Grading and Surfacing. Curry county—Hunters creek—Hunters head section of the Roosevelt highway. Two miles of grading and 6.3 miles of crushed gravel surfacing involving approximately 45,000 cubic yards of excavation and 10,650 cubic yards of crushed gravel. Malheur county—Vale—Ontario section of the John Day River highway. Fifteen and four-tenths miles of grading and crushed gravel surfacing, involving approximately 117,000 cubic yards of excavation and 39,000 cubic yards of crushed gravel. Wallowa county—Unit No. 2, Enterprise—Forest Boundary section of the Enterprise-Flora highway, 6.1 miles of grading and broken stone, surfacing involving approximately 55,000 cubic yards of excavation and 15,000 cubic yards of broken stone.

Bridges

Grant county—Five bridges on the John Day River highway near Mt. Vernon, requiring approximately 255 cubic yards concrete, 8,000 pounds metal reinforcement, 270,000 pounds structural steel, 5,200 lineal feet piling. Josephine county—Bridge over Applegate river near Grants Pass on the Grants Pass-Crescent City highway, requiring approximately 290 cubic yards concrete, 21,000 pounds metal reinforcement, 185,000 pounds structural steel and 335 lineal feet wood trestle.

Archbishop to Dedicate New Church at Gervais

GERVAIS, Or., June 12.—Next Sunday, June 18, at 10 o'clock Archbishop Christie will dedicate the new Catholic church here and immediately after will administer confirmation to a large class. The church is built of hollow tile at a cost of \$25,000, and replaces the one destroyed by fire a year ago. A dinner will also be prepared and served by the women at the city hall.

Decay of London Buildings To Be Studied By Experts

LONDON, June 9.—London, it is said to be slowly crumbling away, or at least most of the historic buildings are decaying. In an effort to ascertain the cause of this crumbling of apparently insoluble stone work, the government has appointed a committee of scientific experts to thoroughly probe the matter. It is known that stone used in one part of the country will stand unaffected, but if used in another it will decay. This is a mystery the experts have to probe, and it will take considerable time, for it involves questions of chemistry, biology and physics. Among the buildings needing immediate attention are the famous Carlton Club, Tower of London, Houses of Parliament, Holyrood Castle and Tintern Abbey.

PRECEDENT

"Living in the country," said Representative Connally at a dinner in Dallas, "always reminds me of rice pudding." "There was a young man who went to work in a mill that was a short distance out of town, and so, for convenience, the firm supplied luncheon to the hands at cost. 'Well, this new chap liked his stomach, as the saying is, and one day during the second week he said to the man beside him as the firm lunch got under way: 'I wonder what we'll have for dessert, old timers?' 'Rice pudding,' said the old timer gruffly. 'No, I don't think so,' said the new hand. 'We've had rice pudding every day now for over a week.' 'Well,' said the other man. 'I've only worked here eleven years, but every day in all them years we've had rice pudding; so I guess it's rice pudding today.'"

Modest Polish Family Inherits Great Wealth

WARSAW, June 7.—All the lucky Poles with rich relatives in the United States seem to live in Chenotobova. During recent years several citizens of this town have inherited large sums of money from American Poles, but it appears that the biggest fortune of all has just fallen to the members of a family of the name of Holich, in moderate circumstances who are reported to have inherited \$30,000,000 from Frank Holich of Buffalo, N. Y.

Lake Salem

VIENNA, June 12.—A black caterpillar with a yellow stripe is invading the fields of Steyregg and Pulgarn, in upper Austria. Swarms of the grub are eating the country bare.

Says Japan's Need of Land May Cause War

LONDON, June 11.—Unless some of the western nations are awakened to their mistaken attitude toward the eastern nations, the struggle between east and west will involve the whole of humanity in the most disastrous war the world has ever seen. These frank words were spoken by Professor Hishinuma, a Japanese, at a recent dinner in London of the Japanese society. The limited area of Japan, the professor explained, was a cause of great anxiety to her statesmen. With only 15 per cent of her territory available for agriculture, and a population of 360 to the square mile, Japan looked with longing eyes to North and South America, Canada, Siberia, and Australia where there is so much land available for development. She wants to send her surplus population to these em-

War Reduces Revenues Of Chinese Railroads

PEKING, June 11.—China has her civil war to thank for a net decrease of \$381,566 (Chinese currency) in operating revenue from her government railways during the year ended in November, 1922. In spite of the fact that eleven lines showed increases ranging from \$286 to \$114,634, the disposition of traffic and appropriation of revenues by the military government has turned the balance so that the year's operation showed a loss. The Peking-Mukden line which, to the north of Shanhsai-kwa, has been under the control of General Chang Tso-lin since he established the independence of the three Eastern Provinces in Manchuria a year ago, accounted for \$922,946 of the deficit. General Wu Pei-fu's operations on the line of the Peking-Hankow railway caused a loss of \$139,501 in revenue from that line. The total revenue for the year received by the government was \$7,987,359.

Austrian National Bank Appoints Foreign Adviser

VIENNA, June 11.—The national assembly has approved the appointment of a foreign advisor to the Austrian National Bank. There was considerable opposition to the measure by the Social Democrats. It is predicted that the coming of this foreigner will be followed by other foreigners to take charge of the federal railroads, the tobacco monopoly, and the department of posts and telegraphs.

Violin Making Assumes Importance in Prague

PRAGUE, June 9.—Favored by a natural love for music, a plentiful supply of the right kind of resonant wood, and deft craftsmanship, the violin making industry in Czechoslovakia is assuming an important position. Something like 4,500 home workers are engaged, and the instruments all are of high quality. One hundred and three-thousand violins were turned out in 1922, beside 2,100 cellos and 1,200 double basses.

Sweden's Paper Money May Be Worth More Than Gold

STOCKHOLM, June 12.—When the dollar began to rise in London recently the Swedish State bank continued to sell dollars in order to keep the Swedish crown on par with the American currency, but the dollar went up to 3.755 from 3.74. The State bank at the beginning of this year had a portfolio of foreign currency amounting to 160 million crowns but this has now been reduced to 63 million. According to the experts, the bank would be in a position, if parliament rejects the proposal for a further postponement of a return to a gold footing, of seeing its paper notes higher in value than the corresponding number of crowns in gold.
