SACRAMENTO, June 13.—Lefty Thompson was found for bunched hits and a cluster of runs by the Seals in the second and third innings of today's game and San Francisco defeated Sacramento 4 to 2. Penner stopped the invaders in the meanwhile. Shorel Hodge was turning the Solons back, scoreless all of the way to the ninth. Here a rally started which threatened to tie the score, until Les Cook, running for Koehler, outran himself and was trapped at the plate.

The Beavers laid down the first batter in the second inning, pummeling Gilder for four runs and sending him to the clubhouse, but this offensive was soon smothered under the avalanche of 10 tallies which the Tigers took away from Yarrison, Sutherland and Schroeder in the next two innings driving all of these twirlers from the mound.

MARKETS BULLISH;
CLOSING IS FIRMUpward Tendance at Open-
ing Followed by Material
Decline Later

CHICAGO, June 13.—Unfavorable reports about probable serious curtailment of wheat yield in Kansas this season and also in France had a bullish effect today on the wheat market here. Closing prices were firm, 1/4 to 1 cent higher, with July \$1.11 1/4 to \$1.11 1/2, and September \$1.09 1/4 to \$1.09 1/2. Corn, too, finished 1/4 to 1 cent up; oats at unchanged figures to 1/4 to 1 cent lower, and provisions varying from 10 cents decline to 10 cents advance.

An upward tendency which the market showed at the opening was soon followed by a material decline and it was only in the last hour of trading that price gains were re-established. The initial strength of prices appeared to be due chiefly to an unexpected advance in Liverpool quotations. However, the Liverpool advance failed to hold. The buying here lacked volume and there was considerable selling as a result of bearish estimates of the winter crop in Illinois, Missouri and Nebraska, all suggesting much larger production than indicated earlier in the season. Offerings of wheat became scarce in the last half of the day and shorts who tried to buy met with difficulty. Under such circumstances, the market proved sensitive to advices regarding Kansas crop deterioration and assertions that the condition of the wheat crop in France was alarming because of persistent bad weather. A little investment buying which developed at the last gave added force to the price advance and the finish was at virtually the day's top figures.

Corn swayed with wheat. During the late dealings liberal orders to buy July corn at 80 cents and September at 76 cents brought about a tight situation for shorts. Besides, shipping demand here was said to be more urgent than has been acknowledged. Oats were weakened by slackness of cash inquiry.

In the provision market selling on the part of smaller packers counterbalanced firmness of hog values.

DEMPSEY FLOORS
SPARRING PARTNERNegro Feels Full Effect of
Defender's Swing After
Week's Layoff

GREAT FALLS, Mont., June 13.—(By the Associated Press.)—Wearing a heavy, green leather headguard to protect the healing cut over his left eye, Jack Dempsey boxed for the first time in a week today, flooring a 225 pound negro sparring partner and all but knocked out Harry Drake, the English heavyweight, in the savage six rounds he stepped with a trio of human punching bags.

The workout was the real start of Dempsey's training for his 15 round championship contest with Tommy Gibbons, at Shelby, July 4. From now on the champion will continue hard work until the tapering-off process begins three days before the fight.

Within 15 seconds after getting into the ring with Dempsey, Geo. Godfrey the negro giant was on the floor. Dempsey drove him into the ropes at the start knocking him over with a vicious left hook to the chin. Godfrey fell backward to the resined canvas floor, quickly scrambled to his feet and clinched, holding on until he could sweep the cobwebs from his dizzy brain.

Dempsey boxed two rounds each with Godfrey and Jack Burke, a Pittsburgh heavyweight and a Drake, a former sparring partner for Jess Willard. Today's workout was in the nature of a limbering up for Dempsey, who has done little or no training for a week. He eliminated the exercises with the heavy punching bag, merely doing a round of shadow boxing before pulling on the gloves. The day was chilly after the blistering heat of yesterday and Dempsey worked out in full length tight instead of fighting trunks to protect his body from the chilly wind that swept the outdoor ring.

When the flag is used as an altar covering, the union should be at the right as you face the altar. Nothing should ever be placed upon the flag except the Holy Bible.

When two flags are displayed, the United States flag should be placed on the right.

When several flags are displayed on poles with the national flag, the Stars and Stripes should be hoisted first, on the tallest and most conspicuous staff.

Under no circumstances should the flag be draped over chairs or benches or emblem be placed upon or above it, nor should it be hung where it can be easily contaminated or soiled.

If a number of flags are carried, the national flag should either precede the others or be carried in the center, above the others on a higher staff.

When in parade the flag, if carried, should have the place of honor, at the right of the marching column.

The flag should not be fastened over doorways or arches, nor be tied in a knot, nor be fashioned into a rosette. Use instead bunting, or red, white and blue, the blue at the top.

When the flag is suspended between buildings so as to hang over the middle of the street, hang the union to the north in an east and west street, and to the east in a north and south street.
