The water company declares that the island can never be used for cultivation or transportation, and that by its actions the plaintiff threatens to remove gravel from that portion of the island where it is used in the filtration process and to contaminate the water by running live stock, either of which would destroy the island for filtering purposes.

CHAUTAQUA IS PROMISING WELL

Mrs. Thatcher Arrives and Is Pleased With Progress Made in Sales

The men and women of Salem who have guaranteed the sale of a certain number of tickets for the Chautauqua met last night with Mrs. Theresa Thatcher, local manager of the Salem show. More than \$900 worth of tickets were reported as sold to date, which Mrs. Thatcher said was an unusually good record for so early in the season.

The Chautauqua will open Tuesday with the play "Turn to the Right." This and three other numbers are said to be each worth the price of the season ticket. Single admissions and reserved ticket sales do not become a part of the fund guaranteed by the local committee, according to those in charge, so Salem people are being urged to buy season tickets.

Other big features in the program for this year are Dr. Ng Poon Chew, Thomas Skeyhill and Thaviu's Exposition band. The latter organization is one of the best in the country and carries two grand opera singers as part of its organization.

Mrs. Thatcher is well pleased with the results to date. She will speak Monday at the Chamber of Commerce luncheon and will meet with the ticket committee Monday night. Work is needed, she says, that those who have guaranteed to sell tickets should sell their quota. Mrs. Thatcher is making her headquarters at the Marion hotel while in Salem.

Foley Kidney Pills give quick relief. Refuse substitutes. Insist upon Foley's.—Sold everywhere.—Adv.

Quarantine Laws Are Effective, Says Park

Present quarantine laws are effective and bar the entrance of the tuber moth from California into Oregon through potato shipments, declares Charles A. Park of Salem, president of the state board of horticulture, in reply to an attack made upon him on the market page of the Portland Journal. "The California potatoes are inspected," said Park, "in the fields of California. They are inspected before they are shipped out and they are again inspected after arriving in Oregon. Once in a while some tuber moths have come through, but the potatoes have been shipped back. In the district where the tuber moth appeared early this year in California no shipments were certified."

Over the top—The loganberry growers. That is the first step towards stabilization. The local workers for the Salem Chautauqua are encouraged. They are getting good support. Keep it up. Put it clear over the top, and let it be known that Salem is a Chautauqua city of the first class.
