

German Row-Runner Succumbs to Strategy

BERGEN, Norway, June 28.—Strategy plays its part now and then in Norway in the taking of row-runners, and the recent capture of the 206-ton German yacht Elizabeth is a case in point. Standing off the Norwegian coast, the Elizabeth was in need of coal, and sent in a motor boat and 17 men to get a supply. The boat was seized, and the men released by 17 armed police and customs officers. Approaching the Elizabeth, the police signalled for three men to come off in a row-boat to help with the unloading of the coal supposed to be aboard. When they reached the motor boat they were overpowered and handcuffed. The police then drew alongside the Elizabeth and boarded her.

Speaker Again Employs Shift in Batting Order

CLEVELAND, June 28.—Manager Tris Speaker, of the American Leaguers has again resorted to the shift in his batting order that he used when he won the pennant and world's championship in 1920. The shift, which is not uncommon in baseball, had been discarded this year by Speaker. It is the changing of players to meet right or left handed pitchers.

With a southpaw working, Speaker will use Louis Ghibito at first, O'Neill behind the plate and Joe Conolly, to recruit obtained from Little Rock, in right field.

When a pitcher is working the right arm, Frank Brower, acquired in a trade with Washington will be on the initial sack, Myatt will catch and Homer Summa will play right field.

BLOSSOM MARTIN, 23 years old, office assistant in the home of Dr. G. W. McCulliffe, New York city, was strangled to death by Eulogia Lozade, a manservant in the household.

Lozade was arrested while attempting to dispose of the body at Mariner's Harbor, Staten Island. He is now locked up on a charge of homicide, and will be formally charged with the murder. Miss Martin and the young Filipino were sweethearts, and the cause of the tragedy was a quarrel over their love affairs and her insistence that he set a date for the wedding, according to the slayer. Patrolman Anthony A. Piscopo arrested Lozade, while he was attempting to dispose of the body. The victim is described as very pretty. The features and accents of her Filipino sweetheart reminded the detectives of a character in the jungle films.

Baker Project Likely To Be Adopted Soon

Early adoption of the Baker irrigation project as a federal enterprise is indicated in telegrams received by Senator McNary from O. W. Pugsley, acting secretary of agriculture, and D. W. Davis, commissioner of irrigation, and Senator McNary has so informed the Baker Chamber of Commerce by telegraph. Apparently there is to be no further questioning of its feasibility. The telegram from Mr. Davis said: "The present situation respecting the Baker project is that advice from the agricultural department is expected. I shall keep in touch with this and try to promote a decision, as I share your interest in agreeing upon a feasible project for Oregon and securing its construction." The advice of the agricultural department expected by the interior department and referred to by Mr. Davis is contained in the telegram received by the senator from Acting Secretary of Agriculture Pugsley, which says: "Since congress has made an appropriation for initiating this project we are advising the interior department that it does not seem advisable for this department to reopen the question of its feasibility unless directed by congress to do so." "If I only had the capital," every man knows how he could become rich, but if he had the capital the chances are some other man would take it away from him before he could say eat.

Mayor Works Without Pay To Clear City of Debt

JACKSONVILLE, Ill., June 27.—A few years ago the city of Jacksonville was "broke." It was so crippled financially its credit wasn't good for a 60-cent telegram its then chief executive attempted to send. Today it has a credit of many thousand times 60 cents.

The change has been brought about, it is said, by an efficient business administration given by a mayor and a city commission who do not draw a cent of salary for their work for the city. Elected three times without giving away so much as a nickel cigar or making a single public political speech, Mayor Edward Crobert is now in the midst of his third term with the aim to make Jacksonville one of the best business cities in the state. Mr. Crabtree says he never gave a dollar to a campaign fund and never asked for a single vote.

When he returned to Jacksonville after two years of work in liberty bond drives during the war, the citizens of the city urged him to run for mayor. He promised to do so on the sole condition that he be paid no salary and that several of those boosting him for the position run with him for council positions on the same platform.

Jacksonville has a population of 16,000 and a total taxable property worth of \$12,000,000. It was the first city in Illinois to go "bone dry" and was one of the first to adopt the commission form of city government.

Milwaukee Take Steps To eliminate Public Debt

MADISON, Wis., June 27.—The gradual elimination of its public debt with a consequent reduction of taxes, is to be undertaken by the city of Milwaukee as the result of enactment by the Wisconsin legislature of a bill creating a public debt amortization fund. The Wisconsin city is said to be the first in the United States to take such a step.

Under the new Milwaukee plan the city is compelled annually to set aside \$250,000. This growing fund is allowed to accumulate with compound interest until it reaches an amount equal to three-fourths of the city's bonded indebtedness. After that time, the

Danish Farmers Welcome Plans for Russian Trade

COPENHAGEN, June 28.—Plans for a direct steamship line from Scandinavian ports to Petrograd have been made by Norwegian, British and Danish capitalists, to be opened this summer. The new line is being established as a result of the preliminary Russian-Danish trade agreement which was signed in Moscow recently.

The Danish farmers are particularly interested in the new agreement as it is looked upon as providing a market for their surplus produce.

administration has deposited \$400,000 in the amortization fund. Another \$250,000 is to be deposited next January 1. With this rate continued, it is estimated that Milwaukee's debt will disappear in 40 years, and the city tax rate will have been reduced one-third.
