FOR EXCHANGE

AT CORVALLIS, NINE ROOM MODERN house with full basement, east front and located one block from College Will exchange for Salem residence property. If interested write E. A. Schwiening, 204 Kings Road, Corvallis, Oregon.

PUBLIC NOTICES

NOTICE OF IMPROVEMENT OF HIGHLAND AVENUE BE-TWEEN FIFTH STREET AND FAIRGROUNDS ROAD.

Notice is hereby given that the Common Council of the City of Salem, Oregon, deems it necessary and expedient and hereby declares its purpose and intention to improve Highland avenus from the west line of Fifth street to the west line of the Fairgrounds road at the expense of the abutting and adjacent property, except the street and alley intersections the expense of which will be assumed by the City of Salem, by bringing said avenue to the established grade, constructing cement concrete curbs, and paving said portion of said avenue with a redress macadam base and a two and one-half inch asphaltic concrete wearing surface pavement in accordance with the plans and specifications therefor which were adopted by the Common Council July 2nd, 1923, and which are hereby referred to and made a part hereof.

The Common Council hereby eclares its purpose and intention to make the above described improvement by and through the street improvement department of the City of Salem.

By order of the Common Coun cll this 2nd day of July, 1923. -M. POULSEN, City Recorder. Date of first publication hereof

July 7. 1923.

CLEVELAND, July 14 .- Whether or not branch banking in the United States should be encouraged, will be the subject of debate between the chapters from Boston and Philadelphia of the American Institute of Banking at the 21st annual convention of that organization here July 16 to 20.

Acriculture and its relation to all other interests, will be the subject of an address by E. T. Meredith of Des Moines, at the general sessions of the Institute.

One of the features of the con rention will be the reunion of the pioneer members who were responsible for its organization in 1903 in this city and who were active in its development through the first five years of its existence. There will be conferences on various banking subjects. There are 10 general subjects and there will be 28 of these conferences in addition to the two general bus iness meetings.

The Star Car Has But **One Competitor**

And that competitor is "PREJUDICE"

There is an old saying "None is so blind as he who will not see" and no saying was ever more truly uttered.

There was never a car built, since the inception of the Automobile, selling under \$1000.00 that had the tried and proven units built into the STAR, and the only reason why the Star is not sold, exclusively, in the light car field is because of "PREJUDICE."

PREJUDICE never gets us any where and never will. There was never an article manufactured, and never will be, but what some other manufacturer equals or excells it. When W. C. Durant brought out the STAR he said "In the STAR I will build the greatest value in the world, for the money," and he did it.

In the short time the STAR has been built it has surpassed, in sales, and popularity, double that of any other car in the world, and the men that have bought them were not "PREJUDICED" and were willing to be shown.

We have delivered NINETY STAR cars since May Fifth in spite of "PREJUDICE."

Get away from "PREJUDICE." Come to our store with an open mind and be shown how the STAR is built, and what it will do.

er camera with a 60-foot focus will be taken by the Cogshall expedition.

These cameras will be held in osition by means of specially constructed towers.

San Felipe, 144 miles south of the international boundary, has been selected as the site of the Cogshall expedition's observations. Dr. Douglas has not definitely selected his location.

Austrian Royal Plate To Be Placed on Sale

VIENNA, July 14 .- What is probably the rarest and most valuable collection of silver plate in Europe, the famous silver treasure of the Cumberland family, is reported to be coming into the market. It was kept in the Cumberland royal villa at Penzig, just outside Vienna, until the death of the old King of Hanover in 1878. Afterwards it was removed to the Cumberland country seat at Gmunden in Salzkammergut.

The collection includes priceless specimens of the work of the first silversmith in England, France, Augsburg, Hanover and Osnabruck, during the three centuries between 1560 and 1850. The only other collection which approaches it in extent and completeness is that in Windsor casle.

The total weight of the Gmunden treasures is about 130,000 ounces and its value in Austrian crowns must amount to several hundred milliards. But it is understood that the purchaser, or purchasers, will have to pay in some foreign money of normal exchange, and not in depreciated Austrian crowns.

CHICAGO, July 14 .-- One who desires to live 100 years should marry early, refrain from indoor dancing, should not be a college athlete and be neither rich nor poor, according to an address made here tonight by Albert M. Johnson, president of the National Life Insurance company, before several hundred boy scouts. Mr. Johnson said these maxims were reached by his company following statistical computation of results from a survey onl ongevity under modern conditions.

The long list of "don'ts" which Mr. Johnson said the survey suggested in order to attain this age contained a few "do's." chief among which was "religion in a true way." Mild exercise daily and a "straight neck" in walking were others.

"Our statistics show, when comfiled and averaged, that to reach five score years one should marry early, be neither rich nor poor, siould not be a professional or
