Visits From South Dakota—Mr. and Mrs. J. E. Wells and son Robert of Mitchell, S. D., were at the Salem Auto park last night. They came out through the Yellowstone park and report fine roads all the way. They came down the Old Oregon trail and Columbia River highway into Portland where they spent Tuesday night. South Dakota will have a wonderful corn and small grain crop this year, according to Mr. Wells. The farmers are going back to raising hogs, after the war-time slump. Mr. Wells was postmaster in Mitchell for six years and served four years as mayor. They are now on their way south to Berkeley, Cal., where another son, Earl, is taking post-graduate work at the University of California. Mr. and Mrs. Frank

PROPOSED TUNNEL WILL JOIN OCEANS

Work on Great Aquaduct Through Continental Divide Begins in Spring

DENVER, Colo., July 18.—Actual work on the Moffat tunnel, through the continental divide west of Denver, is expected to begin early next month. The first shovelful of dirt may be tumbled on August 1, Colorado Day. Everything is in readiness to start. Bids for construction are being advertised, and the bonds are being offered for sale.

The Moffat tunnel will cut the rail distance between the Atlantic and the Pacific oceans by 70 miles. Its construction is an engineering feat of much difficulty, and it is of great national importance, for it will open up a large section of land in northwestern Colorado rich in natural resources. The campaign to construct this tunnel has been carried on for the last 50 years. Early in the 60's the pioneers of what is now the state of Colorado realized adequate transportation was necessary to develop the territory, and set about to get it.

The tunnel commences at the headwaters of South Boulder creek in Gillin county near the

James Peak and emerges a trifle more than 6 miles west at the headwaters of the Fraser river in Middle Park, Grand county. The western side of the tunnel is 4 1/2 miles from the town of Fraser, Colorado.

The tunnel will be available immediately to the Denver & Salt Lake railroad, now completed to Craig, Moffat county. The plans of this line include building into Salt Lake City. It also will be available later to the Denver, Rio Grande & Western railroad which now is building a cutoff to connect with the tunnel. The actual saving to the Denver & Salt Lake railroad will be the tortuous climb of 23 miles over the crest of the continental divide, where the Moffat road now crosses the divide above timberline at an elevation of 10,660 feet.

On the Denver & Rio Grande the distance to Salt Lake City will be shortened by 173 miles through building the cutoff to connect with the tunnel.

The tunnel will be 60.4 miles long. The project consists of a main tunnel 29x16 feet in the clear and a pioneer tunnel paralleling it. Trains through the tunnel will be operated by electricity. Provision has been made so that automobiles and other traffic may pass through the tunnel in special cars. The tunnel elevation at the east portal is 9,190 feet, at the west 9,100 feet.

Sponsors of the tunnel predict that ultimately almost all of the railroads entering Denver will use the tunnel as a short cut from Denver west. Tourists who have enjoyed the trip over the continental divide on the Moffat route will mourn the fact that the coming of the tunnel will mean that the famous little station, Corona, the "top of the world," will pass out of existence as a railroad stop. Corona, 10,660 feet above sea level, now is the highest point in the world where there is a standard gauge railroad. The tunnel will eliminate the climb from Tolland, whose altitude is about 9,000 feet, to Corona. This climb has given many a thrill to eastern tourists. The grade above Tolland is four percent—almost unprecedented in railroad grades—and there are many curves as the train mounts upward. It is a land of perpetual snow. Even in the middle of June the train, when near the top of the divide, frequently climbs through snowdrifts higher than its car tops.

EUROPE IS READY FOR WAR, BAKER

In Better Condition Now Than in 1914, Cleveland Women Are Told

CLEVELAND, Ohio, July 18.—Europe is now more nearly ready for world war than it was in 1914, Newton D. Baker, told an audience of women gathered here to hear the former secretary of war and others outline the purposes of the league of nations nonpartisan association. It was the first offering here in an attempt to obtain signers to a petition that the United States enter a league of nations.

"When we present 10,000 names or 10,000,000 names of those who want America to join a league of nations they will listen," Mr. Baker declared.

Sweet, Los Angeles; Walter Smith, F. J. Aids, San Francisco; J. H. Sulzberger, Fred Weichman, Forest Park, Ill.; M. Franks, Bend; S. S. Haughton, Bandon; E. S. Grundy, Long Beach; C. A. Smith, Santa Barbara; John Eastman, Hibbing, Minn.; Frank Nowman, Yellowstone; Barton Smith, A. Havens, Stockton, Cal.; H. R. Preston, Miami; Fred J. Cook, Caldwell, Idaho; J. A. Hall, Bakerfield; O. Lofsvold, Spokane; A. G. Bailey, Woodland, Cal.; M. E. Dunlap, Berkeley, Cal.

Dakota Non-Partisans to Select State Committee

VALLEY CITY, N.D., July 18.—A conference which seeks to reorganize the North Dakota nonpartisan league and select a new state committee on which the names of A. C. Townley, former head of the national nonpartisan league, and William Lemke, former attorney general will not appear has been called to meet here tomorrow.

New Charges Presented in Disbarment Proceedings

OLYMPIA, Wash., July 18.—New charges were preferred against E. S. Snelling, attorney at South Bend, today by the board of law examiners with a view to disbarment. The allegations are similar to those in an action heard recently and under consideration by the board. Snelling is accused of using confidential information obtained from a former client in bringing an action against him for another person. Hearing will be August 14, at South Bend.

FORD PETITIONS ARE CIRCULATED

Boosters for Presidency Will Stage Big Round-Up Late in August

CHICAGO, July 18.—Henry Ford, for president boosters will stage a general round-up in Ford's home town, Dearborn, Mich., the latter part of August. Dr. F. L. Clark, president of the Illinois Ford for President club, announced here today.

At the time boosters who wish the automobile magnate at the head of a ticket in the next presidential election, will try to bring Ford out in the open in the race for president, Dr. Clark said.

Petitions now being circulated throughout the country will be presented to Ford at that time.

14 of 'Em in One Car

Mr. Albert Counts 'Em

One can't tell by the size of the car how many tourists are within it, according to T. G. Albert, superintendent of the Salem camp. A car which did not seem overly large pulled up to the registration booth at the camp and after getting the name of the owner and car number, Mr. Albert asked how many were in the party.

The woman in the front seat, tired out with the long ride and with the family cares, and evidently thinking such a remark a personal question, informed the busy superintendent that if he "must know, there were 14 of them." Mr. Albert said a glance into the car seemed to indicate that it was the truth although he would not have known it from the outside of the car.

New arrivals last night were: Mr. and Mrs. D. Manual, Rialto, Cal.; Mr. and Mrs. F. O. Rhoades, Seattle; Mr. and Mrs. H. Lee, Lawrence, Cal.; Mr. and Mrs. W. Van Wych, Seattle; Thos. J. Williamson, Oakland, Cal.; Mr. and Mrs. I. J. Williamson, Los Angeles; Mr. and Mrs. J. E. Wells, Mitchell, S. D.; Mr. and Mrs. W. L. Miller, Seattle; Mr. and Mrs.

Disabled Japanese Ship Is Floated to Astoria

ASTORIA, Ore., July 18.—The Japanese steamer Yanan Maru was floated late this afternoon. Two kedg anchors had been set and by the strain kept on them by the steamer's windlasses, the tugs Oneonta and Tamaroa placed lines on board the craft and they, with the assistance of the strain on the kedg anchors pulled her slowly into deep water. The steamer was brought here. A survey will be held and she may be taken to a Portland drydock for examination. The steamer hull is said not to be seriously injured as she was rested on the sand, but about 500,000 feet of the Japanese squares and hemlock in her deck-load were jettisoned and one of the anchors and about 60 fathoms of chain were lost.

Find of Precious Stones Made in New South Wales

MELBOURNE, July 18.—A remarkable find of precious stones has been reported near Wyangala, about 25 miles from Crows, New South Wales, and not far from the once-famous Mount McDonald gold and copper mines. The stones, which comprise diamonds, rubies, sapphires and turquoise, have been submitted to experts who declare them genuine.

The diamonds were found in blue pug clay similar to the pug clay in which South African diamonds are embedded. The sapphires are of a brilliant hue, and the rubies a deep red.

Wedchase, also of Mitchell, were members of the party. They plan to leave the Salem camp early today.

Son Is Born

The birth of a son is announced from the home of Mr. and Mrs. Frank Lander, who now lives near Monroe, Ore., in Benton county. They formerly lived near Salem. The son weighed eight pounds at birth and has been named William R.

What Would You Do?
(No. 14.)

Suppose you were in the loganberry business and had been making contracts each year with a certain packing house through their agent, L. C. Platt. Mr. Platt has been discharged from this firm for several months, but you do not know this. In an attempt to renew the packing company, Platt makes a contract as usual purporting to be with the old firm. Can you hold the packing company liable on this contract? Just another one of those practical problems our students are called upon to solve in their regular work. We try to prepare them for the sort of emergencies they may actually have to face in business. New classes in all subjects started a short time ago. Write or call for information.
