

CANADA'S RICHES WILL BE PROBED

Mining Engineers of This and Other Countries Make Summer Trip North

NEW YORK, July 24.—Mining engineers from this and other countries will make their summer pilgrimage next month to the heart of Canada's mineral riches. The 128th meeting of the American Institute of Mining and Metallurgical Engineers, it is announced here, will be held August 20 to 31 in Ontario and Quebec.

With the cooperation of the Ministers of Mines of these two Provinces and of the members of the Canadian and American Institutes of Mining and Metallurgical Engineers, the vast mineral wealth of Canada will be placed on exhibition.

Petroleum and gas will be among the principal general subjects of the technical sessions, which are to be held in Montreal. The geology of Santa Elena oil fields, Ecuador, will be discussed by Joseph H. Sinclair of New York and Prof. Charles P. Berkey of Columbia University. Other papers will be presented by A. F. Mcston of New York and Oliver U. Bradley of Muskogee, Okla.

"The average man of the street if asked what minerals of commercial value were found anywhere near New York," Secretary F. F. Sharpless of the Institute said, "would probably answer, 'coal and possibly some iron.'"

"It is scarcely realized by the average citizen that within 24 hours' ride from New York, just a short distance north of the Lakes lie the deposits from which nearly all the nickel of the world comes from; then, on a little further to the northeast, the richest silver mines that the world has ever known are still producing; and then again a little further to the northwest we come to what promises to be one of the most interesting gold developments of the present century."

"The Hollinger mine is today probably the most important gold producing mine of the world. Near it are the highly profitable Dome and McIntyre mines. Then passing on to the east down into Quebec, there are the asbestos mines which are today furnishing the bulk of the asbestos being imported into this country. "The Porcupine Gold District and the country lying to the east of it are attracting considerable attention at present and the American engineers whose duty it is to advise in respect to them will take this opportunity to familiarize themselves a little further with the districts that are daily referred to in the public press."

QUART OF WATER CLEANS KIDNEYS

Take a Little Salts if Your Bladder Hurts, or Bladder is Troubling You.

No man or woman can make a mistake by flushing the kidneys occasionally, says a well known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

"The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation; thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications. By all means have your physician examine your kidneys at least twice a year.—Adv.

CANADA ARE DOING MORE FOR HUMAN KIND BY THEIR EXEMPLIFICATION OF NEIGHBORLY FRIENDSHIP THAN ANY OTHER TWO COMMUNITIES IN THE WORLD."

The friendly and neighborly feeling was reciprocated at every opportunity by officials of the dominion, provincial and state governments, as well as by the people themselves.

Premier MacKenzie King, unable to come to Vancouver, sent his minister of public works, Dr. J. H. King, here to welcome the American chief executive.

The city of Vancouver was profusely decorated with British, Canadian and American flags, in honor of the visit of the presidential party and the military display, consisting of British naval and army units, two companies of Canadian Royal Mounted Police and other units, was greater than has greeted the president anywhere on his present trip. The downtown section of Vancouver was jammed from the curb to building line during the passing of the parade, which inaugurated the president's visit, and even out in the residential section people lined the streets four and five deep.

Mr. Harding, in addition to participating in the parade, making two addresses and attending the state dinner and an after reception, got in 18 holes of golf, the first time he had played in a month. He was a member of a foursome at the Shaughnessy Golf club, consisting of Minister King, Frank Peters, western manager of the Canadian Pacific railroad, and Chief Justice MacDonald of British Columbia.

CALIFORNIA MAY REVIVE RACING

Nearly 600 Horsemen to Be on Hand at Tanforan Early in November

SAN FRANCISCO, July 24.—Between 500 and 600 horses will be on hand November 3 for the opening of Tanforan, the new race track near here, when horse racing in California will be revived after 17 years, John D. Stelling, manager of the Pacific Coast Jockey club announced here. The horses are coming from every part of the United States, and several of them will be here from Hawaii.

Prominent owners who will have California stables, Mr. Stelling said, include: C. K. G. Billings, Thomas Fortune Ryan, Harry Payne Whitney, Sam Hildreth and A. K. Macomber, all of New York; Frank J. Kelley of Chicago; C. A. Hartwell of Honolulu; A. B. Spreckels, Rudolph Spreckels, and Herbert Fleishacker of San Francisco.

Frank J. Kelley will ship 60 horses from Kentucky to Warm Springs, Calif., this summer, Mr. Stelling announced. This will be a permanent stable for the horses owned by the Chicago sportsman, and the stable will include the famous Chatterton and Paines.

Four of C. A. Hartwell's horses have arrived from Honolulu for the Tanforan season, and three more will arrive in July, according to word received from Mr. Hartwell. The four horses are all by Harvester.

California is the home of many retired race horses, and the number is being increased each year, according to sporting authorities. Horses that have brought thousands of race fans to their feet by their final burst of speed on the home stretch, today trot the cool, green meadows of the Golden state.

Runnymere, sire of the damous Morrivic, a California horse; Vorhies, full brother to Harvester Dr. Leggo and Hand Grenade are four of the retired horses in the A. B. Spreckels stable here. Palo Alto and War Cry are on the retired list in the Rudolph Spreckels stable. A. K. Macomber's list includes: War Fame, Liberty Loan, Gun Sight, and the Falconer, while Svenson Christenson has the fleet War Shot. In Nevada George Winsfield's stallions include: Atheling, 2nd, Star Master and Honeywood.

STOCKS DEPRESSED FOR MANY CAUSES

Short Selling of Rails, Politics and High Wage Demand Effective

NEW YORK, July 26.—Stock prices generally moved within narrow and irregular limits during the greater part of today's session. Great strength characterized the early dealings with a number of good gains being recorded in the steel, equipment and automotive groups and by the hard coal carriers. Prices sagged in the early afternoon, rallied and then in again in the last hour with gains slightly exceeding losses at the close.

The final decline was precipitated by heavy short selling of the northwestern rails based on the recent unfavorable developments in the wheat market and the application for a receivership for the Minneapolis and St. Louis railroad.

The growth of the farmer-labor movement in the northwest, as reflected in the recent election of Magnus Johnson as senator from Minnesota, and the expected demands for higher wages by the big brotherhoods also have had a depressing effect on shares.

Trading in the steel shares was rather quiet pending an official announcement on the United States Steel corporation's plan for putting

THEY APPRECIATED THE CHERRIAN BAND

A Thankful Note From the State Tuberculosis Hospital for Music Treat

Editor Statesman: Apropos of last night's splendid concert, which the Cherrian band saw fit to give for our benefit, we feel compelled to send the kind leader and his good musicians an overwhelming vote of thanks.

There was joy in T. B. camp last night!

The imposing figure of the tall conductor just gave the high sign and lo! the various instruments of the skillful musicians thundered forth in snappy time, echoing on through the somewhat cool night, which was overwhelming with a thin veil of gray. The concert was on in earnest! Anon our latent enthusiasm broke loose—we had caught the soothing spirit of the thing and our glowing hearts were in your kind and friendly hands.

Radiant faces were in evidence everywhere, faces that smiled—not one of those stupid, conventional grins but a smile that had the right combination, a kind of spontaneous explosion if you please, that came gushing right from the inner fountain. It was indeed good to see. On this starless night you brought to us the warm sunshine of universal understanding. We thank you for furnishing us with two happy, celestial hours, that lifted our heads into the clouds and made our thoughts soar to Olympus. That concert will linger with us in the future pleasant food for reveries.

We respect you more because it was done—we were quick to sense this—in that wonderful spirit that asks naught in return and as Socrates put it long, long ago, "To do a good act for its own sake, that is the essence of real charity."

Then we must not forget to thank the short, robust gent, who sang the Carmen March so artfully. That was a fine treat and gave us all an extra thrill. You betcha sweet life, there was joy in camp!

—Harry Brandhoff.

Salem, Or., July 24. (Mr. Brandhoff did not sign his name to the above communication; and perhaps he would prefer to remain incognito; but the editor has signed it for him, at the risk of offending his modesty. In a note to the editor he says in concluding, "Hoping this will find you in good spirits," etc. Some reader will reflect that a tuberculosis hospital is a strange place from which to receive such a greeting. But will the same reader reflect and search his memory for the time when he has seen a gloomy blind person, or deaf man, or crippled child or grown-up. The writer knew a lady once with abounding health and the use of every faculty who used to say that whenever she saw a certain handicapped man go smiling joyfully on his way, it made her ashamed of herself.—Ed.)

If a man is going to make his mark in the world he will need something more than an indelible pencil.

Whether it is advisable to be up early depends upon whether you are the bird or the worm.

A good horse was always able to get intoxicated drivers home safely, and that's more than the best automobile can do.

Many men fall because when opportunity knocks, they knock opportunity.

Supposing the world isn't getting any better, isn't it pretty fair as it is?

Doubtless some housewives are wondering what all this fuss over a 12-hour day is about. They'd be glad to get it.

A girl can get along without beauty if she has brains, or without brains, if she has beauty, and without either one if she has money, but if she has none of them her only hope is to marry a rich and half-witted blind man.
