NEW YORK AND CHICAGO SPLIT

Hack Miller's Homer in Second Game Gives Home Team Lead to End

CHICAGO, July 28.—(National.)—New York and Chicago divided a double header today, the visitors winning the first game. The Giants bunched their hits in three innings of Alexander in the initial contest, while the Cubs were unable to do anything to Jack Bentley's southpaw pitching. O'Farrell's homer saved Chicago from a shutout.

Hack Miller's homer which sent two runners in ahead of him put Chicago out in front in the second game and they were not overtaken.

Brooklyn 2; Cincinnati 1
CINCINNATI, July 28.—(National.)—George Smith won a light pitchers' battle from Rube Benton today, and the Brooklynites evened the four game series with the Reds, forcing the home team down to third place in the league race. The Reds out-hit the Dodgers but three double plays hurt their chances of scoring and they were helpless in the pinches.

The visitors scored in the pinch. Benton's only pass, a single by Griffith and a safe fly by Bornier. The Reds tied it after two were out in the fifth on Finelli's single.

Brooklyn's singles, Brooklyn won out in the tenth on hits by Taylor and French and an out at first.

Ten-Inning Game Won by Beavers
Both Brazill and McCann Knock Homers Over Fence at Portland

PORTLAND, July 28.—The Beavers took another 10-inning game from Seattle today, the score being 4 to 3. The Beavers hit Jacobs hard early in the game, both Brazill and McCann knocking homers over the left field fence.

In the ninth, with the score 2 to 2, successive wild throws by Wolfert and Leverenz let in Orr with the tying run. Portland won in the 10th when High walked, was

The doctor's orders even prevented a conference which Senators McNary and Stanfield of Oregon had requested with the President. The two men boarded the presidential train at Eugene early this morning and Senator McNary and brought with him a number of telegrams and petitions from agricultural organizations which he as chairman of the senate agricultural appropriations committee had been asked to place before Mr. Harding. Most of these communications urged that congress be called in special session to enact additional farm relief legislation, notably the Gooding wheat price stabilization bill and measures designed to bring about reductions in freight rates on agricultural products.

Salem Riders to Enter Contests
Annual Hill Climb in Portland Sunday—Locals May Get Coveted Cup

Salem is to send several motorcycleists to Portland today to take part in the annual Portland Journal hill climbing contest up Council Crest hill. The series of contests was arranged two years ago and Salem riders have won the big trophy cup twice in succession. If they get it this time, it's theirs to keep.

The big prize is for hill climbing with a 61-inch motor. Last year it was won by W. F. Crane of Salem, and he will contest again this year with Homer Best and Cody Evans as his team mates in the same event. Joe Sproed will enter as a novice in the novice class. The Salem Harley-Davidson agency will have two of the big 80-inch machines for two of the Salem riders, not yet chosen, to enter in the big machine climb. In all, there will be six machines going from Salem.

Another big auto event is scheduled for the Rainier National park, on August 5, when a great mountain climb is to be staged within easy sight of the park hotel. This is put on by the Tacoma Auto club and is expected to bring crack riders from all over the northwest. They will almost have to have ice creepers on their machines, as they practically skate up the foot of one of the great park glaciers.

Standard Size Brick Adopted By Markers

CLEVELAND, July 28.—Through the good office of Herbert L. Hoover and the Simplified Practice Division of the Department of Commerce, the brick industry has been enabled to sweep away an infinite variety of odd sizes of brick and establish one standard size for the seven billion bricks produced every year in the United States, according to the Common Brick Manufacturers Association headquarters here.

This size is approximately 8 inches by 3 3/4 inches by 2 1/4 inches. The only exception now to be allowed is in the case of smooth faced brick for special exterior use, in which a very slight variation in one dimension only is permissible.

The common brick industry established the standard size some years ago, but experienced trouble because its standard was not insisted upon for public work by many architects.

With the government now definitely supporting the industry in its efforts to standardize its product it is expected that before long all specifications will call for the standard sized brick, to the great benefit not only of the brick industry but to all users of the product.

It is claimed that the blind are influenced by colors. We all seem to have a hankering for the long green.
