## TENNIS MATCHES WON BY SALEM

### Local Take Clean Sweep and Will Try for Four-City Tittle Sunday

The team representing the Salem Tennis association will next Sunday meet the winner of the Oregon City-Hood River match of last Sunday, due to the fact that the Salem team made a clean sweep Sunday of the tourney played here with the McMinnville team. The games next Sunday will probably be on neutral courts and may be played in Portland.

The results of Sunday's matches with McMinnville were: Dr. C. E. Bates, Salem, defeated C. K. Knickerbocker, McMinnville, 6-4, 11-9. Roy Okerberg, Salem, defeated C. P. Crum, McMinnville, 7-5, 6-3. William Walsh, Salem, defeated Lyle Bridwell, McMinnville, 3-3, 6-1.

Paul Rice, Salem, defeated G. S. Sardam, McMinnville, 6-3, 6-1. The set between Dr. Bates and Knickerbocker, which was the final set of the series, is said to have been one of the closest ever seen on the local courts. Bates took the lead by two games and then Knickerbocker tied him at 1-4. From then on it seemed impossible for either to win the two necessary games, but finally Bates wiggled ahead of his opponent.

## Kiwanis Club Will Hear Hospital Story Today

Today the hospital working committee will meet with the Kiwanis club at dinner and report the very last word in hospitalization. The Kiwanis club, that has backed the movement most generously from the beginning, will hear the story of the workers, and will help to administer cheer and comfort.

Today's luncheon will be the last for the Kiwanians until September, for the club voted for a vacation during the month of August. Of the five organizations that held weekly luncheons all winter only two are holding on for the whole summer—the Lions and the Rotarians.

### Salem Rider Shuts Off Gas Trifle Too Soon in Portland Hill-Climb

Crane, the Salem motorcycle champion, came within about a tenth of a second of winning the biggest event in the big Portland hill climb Sunday.

In the open event for 80-inch machines or less, he topped the hill one and one-half seconds quicker than his nearest competitor, "Dud" Perkins, imported California rider, who is rated as the greatest hill-climbing expert in the motorcycle world. But the hill to be climbed breaks off on to a dead level, with one last final back-curve that is likely to trap a machine back down the hill if the rider doesn't shut off the gas precisely as his front wheel crosses the crest, and then coasts over this last foot, to the electric timer set so as to be sprung just as the last wheel touches the rim. Crane beat the redoubtable Perkins by a safe margin, but cut off his gas that barest fraction of a second too soon, and his machine stopped within a foot of the tape and started to go back down hill. The attendants dragged it back, and because of their assistance he was disqualified. But like "Fuzzy Wuzzy" in the Kipling poem, the ragged wilderness warrior who "bruk a British square," Crane

The New Studebaker Special-Six Touring Car

## Before you buy any car, see the STUDEBAKER 1924 MODELS

Studebaker presents its complete line of 1924 models, announced a week ago, with the conviction that they will increase the prestige of the name Studebaker which, for 71 years, has stood for the best in transportation, quality and value of product.

Into these 1924 cars are built every proved feature in design that makes for the comfort, convenience and safety of passengers, and many refinements that further enhance the value of a line of cars already highly perfected.

It is common knowledge in the steel industry that Studebaker uses only the highest grades of the finest steels. And the same is true of the electrical equipment, instruments, bearings, batteries, upholstery, finishing paints, tires and accessories used in Studebaker cars.

It is equally known that Studebaker, with \$90,000,000 of actual net assets, including \$45,000,000 of plant facilities, is unsurpassed in ability and resources to manufacture economically and give maximum intrinsic value for a given price.

Produced under these favorable conditions, the 1924 Studebakers are distinctly the finest cars and greatest values Studebaker ever offered.

These are not careless statements. They are facts that reflect the honesty and integrity of the manufacturer and its product just as they do the truth of Studebaker advertising.

The public has placed its confidence in Studebaker by accepting these facts, supported by the performance of Studebaker cars in owners' use. That's why Studebaker sales for the past six years have increased progressively each year and sales for the first six months of 1923 of 81,880 cars broke all six months' records.

Studebaker never cheapens quality to meet competition. The name Studebaker stands for satisfaction and service.

Power to satisfy the most exacting owner
