Word That Kansas and Ne braska Will Have No Surplus Boosts Prices

that Kansas and Nebraska this season have no surplus wheat and have only raised enough for their own mill and seed requirements did a good deal today to life wheat values here.

The market closed firm 5-8 @ By Frank Lischke of Milwaukie. 3-4c to 1 1-8c net higher with covering the appropriation of September 99 1-8c @ 99 1-4c and water from the Deschutes river December \$1.02 1-2 @ \$1.02 5-8. for the development of power at Corn finished at 3-8 to 5-8c. various points in Wasco, Sherman gain, oats 1-2 @ 5-8 to 3-4 @ By E. E. Luce of Prairie City. for the appropriation of water

to 7c down. At first the wheat market had something of a downward ten- drive his own automobile between dency, the result of hedging sales them. The accident happened at and the fact that buying appeared Yreka. While officers were to be of a scattered character. Later, however, it became evident that offerings were passing into strong hands. At this juncture, reports from Kansas City indi- fined Olsen \$50, which was paid cated that domestic millers were actively purchasing choice hard winter wheat there. Millers were also said to be good buyers of wheat on track in Chicago. The reason given, that Kansas and Nebraska were no longer to be counted as among the 1923 surplus producing states, was soon followed by an upward swing in prices to a new high level for the

week. Continued bullish crop reports from the Canadian northwest aided the ascent of the wheat market. According to current advices, damage to Canadian wheat has been much heavier than was looked for and serious further curtailment by frost seems likely. Some notice was taken also of reports that differences betweeen the United States vessel-owners and the Canadian might interfere with prompt hauling of Canadian wheat by way of the Great Lakes. Corn and oats rose with wheat.

Shipping demand both for corn and oats was well maintained. Likelihood of liberal receipts of hogs here tomorrow eased the provision market.

BLUE BOAR English Blend Cigarettes

A New Cigarette a new blend

We call this new cigarette Blue Boar because it is developed from America's favorite fine tobacco, Blue Boar Pipe Mixture. For 19 years its tobaccos have been the finest obtainableeight rare types of the choicest American, Turkish and Egyptian. Here was no chance for betterment. The secret of this new-type cigarette is in a newly dis-

covered method of blending. This may sound commonplace to men who have felt that the limit of refinement had been reached. but you will be as surprised as others when you smoke your first pack of Blue Boars.

Triple Blending

Blue Boar tobacco is triply blended. The ordinary process is but a single blending, which now seems crude. Yet for years experts have considered one blending sufficient, and have searched elsewhere for refinements.

In Blue Boar we blend the two American tobaccos separately. Likewise the five Turkish. Then we give the Latakia from Egypt a mellowing treatment. Each tobacco develops its finest characteristics. A third and final blending insures a rare and distinctive combination, such as you've never known before. The old way never could bring such perfection.

It is a costlier, slower process—but worth it, as you'll agree. The result of this simple discovery makes all the difference in the world—an entirely new taste, a refinement of all refinements.

Try Them Today

Buy one pack of Blue Boars. We promise you a delightful surprise. You'll undoubtedly adopt Blue Boars as your finaltype favorite and never switch again,
