## MARION COUNTY WILL KEEP ON KEEPING ON BUILDING PAVED MARKET ROADS

of Marion county and the prosperity and growth of Salem. boro, 24; Lincoln, 24; Monroe, Marion county is building thirty miles or more of paved 24; Oxford, 24; Princeton, 24; market roads this year—that is, finishing that many miles. This will nearly complete the five year program; nearly complete it in four years. Of the \$850,000 of market road bonds authorized, \$745,000 have been sold. There will be \$105,000 sold in December, for the work of next year. But this is 22; Plymouth, 22; Burlington, not all the story. Marion county will have in addition \$119,372 under the Pierce state market road act, and she will have still in addition to this at least \$52,500, for her onefourth of the vehicle taxes paid by residents of this county to the state of Oregon. Add these three amounts together, and you have \$276,872. That is the amount Marion county will have for permanent road work next year; mostly for paved market roads.

Now add the two last amounts together, and you have \$171,872-

The amount Marion county will have for permanent road work in 1925. She will have more than this, because her part of the state vehicle taxes will be more than \$52,500; and perhaps her matching of the state market road money will realize more than the \$119,372.

This Pierce state market road act is a fine thing for Marion county; for other counties taking advantage of its provisions. (It is called the Pierce state market road act because it was sponsored by the present Governor Pierce when he was State Senator Pierce, in the session of 1919.) It is a fine thing for Marion county, for one thing, because it takes away from the taxpayers of Portland this year \$17,686 and gives this sum to the people of Marion county to build paved roads with.

How is this?

Well, the state market road law provides for a one mill tax. This yields \$2,000,000 annually. But it allows to any one county not more than 10 per cent of the entire sum. It allows nothing to any incorporated city of town. The money all goes onto country roads. The city of Portland pays about could probably be enacted by \$250,000 a year under this act, and gets nothing for its own streets or roads. Multnomah county pays about a third of the state taxes, but gets from the state market road fund only 10 per cent. The balance goes to the various counties taking advantage of the act. Marion county would ordinarily get about \$42,000 of the state market road money, by matching it with an equal amount of her own money. But she also matches with her own money this extra \$17,686, making a total of \$59,686. A like amount of the county's own money makes up the total of \$119,372 mentioned above. The state market road money that is not matched by any county goes to the counties that do match. Marion county matches, each year, to the full extent, and will continue as long as the state market road law stays on the statute books. You may depend on Marion county to do this.

Ours is a good roads county.

Our people, having once entered upon the program of paved market highways, getting up out of the mud in winter and away from the dust of summer, will make it a permanent tion. The Bible school does not program. Having put their hands to the plow, they will not arouse religious hostility, does not turn back.

There will come the time of the peak load in the retiring of the \$850,000 bonds; but even in that year there will be best aided by bringing up our tasteful to her. The next instant some money for new mileage of county paved roads, besides children in Christian citizenship. keeping the roads already built in repair; and the latter item will be an annual charge, for all time. But it will not cost more than did the old system of summer fallowing the streaks of dust that passed for roads-

To say nothing of the enormous advantages of paved dition of our tourist camp. Howhighways; and the reader can think of many of them, and ever, it is not wisdom to shut our still leave a long list.

So, as the heading says, Marion county will keep on keeping on building paved roads. It will take a long time to pave corrected. Salem, as the capitol slipped unobtrusively from the all the public roads; the most important ones must come first. But there will come a time in the history of Marion county when all the public roads will be paved.

## DANGEROUS GROUND

Congressman Albert Johnson of the state of Washington has undertaken to reveal the new president to the west, and the revelation is a decided disappointment. Mr. Johnson holds the president up as a typical New England conservative. If this is true, it means trouble from the start, because the progressive west is in for a hearing. Among other things, Mr. Johnson outlines future trou-

bles as follows: "I am not much of a prophet, but I think I can predict that the new congress will have a long struggle with some kind of a revision of the Esch-Cummins transportation act, and that the La-Pollette group in the house and senate who dictate some of the paragraphs in it. If these be too advanced, I am inclined to believe ent Coolidge will veto the

same thing to a bonus bill. think the new president will frown upon proposed plans for artificial prosperity in the wheat territory. I look for him to support military and naval prepared-

"After taking such stands, it goes without saying that he will seek the republican presidential nomination as a conservative. He will be met by so-called progressive opposition, but in my opinion We have reached the time now revert back to the period when embarrassment, declares a noted Senator Hiram Johnson will not develop as much strength in opposition to Coolidge as will some others whom the newspaper correspondents seem to have overlooked. I have in mind Governor Pinchot of Pennsylvania and for-Kenyon of Iowa. Both will loom

### VISITING THE STATE

Senator McNary is off on a tour of the state, acquainting him- suspected. He now lives in Florself with the needs of the people. ida, The long session of congress and the distance from the national capitol has prevented the average senator and congressman from keeping in touch with his constituency. It has been fortunate for these members that there has been no congress this summer. REVELATIONS OF A WIFE and not only can people get acquainted with their representatives, but the representatives can get acquainted with the people.

The danger in official life has always been a lack of touch with the people. There are manifold unfortunate surroundings for the man in Washington, and the vision is so clouded that it takes a mighty straight looker to know some legislation this winter than Dicky can go jump in the lake for

## RELIGIOUS DAY SCHOOLS

The demand for religious instruction for children has increas- child has returned his devotion ed so amazingly of recent years that the religious day school has been revived and is in successful operation in a number of places. This school does not undertake to teach denominationalism. It is what its name implies. It is a school for the study of the Bible.

There is a strong effort being made to establish this religious any father, and he's going to be day school in Salem. A modified plan was tried out here for six weeks last year and worked admirably. Today many of the thoughtful people of the city believe that the time has arrived to put the full plan in operafurther creed, and it does appeal to understanding Americans who revelation of her intimate affairs believe their government can be before a stranger was most dis-

## MAKE IT RIGHT

The Oregon Statesman is sorry that there is criticism of the coneyes to these criticisms, and it certainly is not good business. Whatever is wrong can be easily of the state, ough to have the room. most attractive touring camp in the state, and we have reason to Dicky remarked in off-hand fashbelieve that the park board will ion to the wall nearest him. Then make the park what our people desire it to be—a model of its kind. Our city administration is on the lookout for improvements Madge's Excuse. and will doubtless remedy this promptly.

## BITS FOR BREAKFAST

Talking again of seeds-\* \* \* The industry is coming on-\* \* \*

It is attracting wide attention, and there are some developments that will follow that will be interesting; not ready yet for publica-

. . . The illustrated flax puller ar ticle is crowded out till Sunday. \* \* \*

Have you driven down the River road lately? You will see some beautiful new homes down that way, and on the side roads leading west from near the Haysville church-both of the side roads. And beautiful grounds and flowers. Everybody in that section has electric lights. The residents in other directions out of Salem will have to spruce up to keep ahead of the farm people to the north.

The Canadian flax puller will

be working today, and part of tomorrow, it not all day, on the Guy Hobson place west of Turner. It will commence work Monday morning on the 43-acre, tract of the Willamette Valley Irrigation company, about three miles beyond Turner, and it will be engaged there all next week, and perhaps Monday and Tuesday of the following week. This will finish the flax harvesting season in this district. To reach the Irrigation company's tract, go through Turner and pass the Marion-Turner road on the paved road to Aumsville; and turn into ahe first road leading south from the paved road. Go down this road, south, for about a mile, and you will come to the flax field. \* \* \*

The paved market road program for this year will accomplish a lot of connecting up of roads already built. There will be provided a way to get from Salem to Mt. Angel over a paved road all the way. The road all the way from Salem to Shaw, through Macleay, will be paved, excepting a stretch around the Early hill, which will be a new piece of road, packed over the winter. This will be finished next year. In all he did so, and Dicky, slipping his directions there will be connected aggrievedly. "I'm surprised at arms around Marion's slight fig- ing pieces finished this year, and

Things

To Do

by the end of 1924 there will not be a market town in Marion county left unconnected by the paved market roads. Then the paving August 1 to 29-Annual encame will be finished through such towns as Turner and Aumsville, and 1925 and all the years thereafter will see further finishing touches and extensions of the system. Marion county is going to be known the country over for its
