## DEMPSEY KNOCKED OUT OF BOX PERFORMS BETTER AT FIRST BASE FIRPO PASSES UP DAILY GRIND

SARATOGA SPRINGS, N. Y., Aug. 29.—(By the Associated Press)—Jack Dempsey, world's heavyweight champion, was knocked out today, but not on the floor of a ring with a referee counting over him. The title holder was knocked out of the pitcher's box when his offerings were batted to all corners of the lot during a baseball game between the training camp attendants and cottagers on the shore of Saratoga Lake. After one disastrous inning on the mound Dempsey was shifted to first base where he performed like a major leaguer. He collected half a dozen hits driving runs in ahead of him every time he smashed the ball.

After a three-day layoff Dempsey is scheduled to resume training tomorrow to continue probably without further interruption until he winds up the conditioning grind for the defense of his title and against Luis Angel Firpo at New York September 14.

Aside from a cold the champion is in excellent condition and eager to resume work. The three days of rest, doing nothing, became so tiresome that it made Dempsey restless. His cold, while not serious continues to bother him and upset his usual cheerful disposition. His sympathetic callers today offered positive cures for colds varying from rubbing his chest with coal oil to sleeping in a room with a pall full of tar beside the bed.

ATLANTIC CITY, N. J., Aug. 29.—(By the Associated Press)—A cold driving rain falling throughout the early part of today compelled Luis Angel Firpo to pass up his daily workout in preparation for his title match with Jack Dempsey in New York September 14.

The South American champion started out for his regular sprint along the beach and board walk at 7 o'clock this morning and he had walked briskly for about a mile when rain began falling. Reluctantly he turned for home.

When he returned to his cottage in Chelsea he let loose for a while on the heavy sand bag that is suspended in the garage, then pulled the weights.

The rain continued falling heavily until 2 o'clock when it let up for a spell. The sparring outfit was summoned and the party motored to the dog racing track where the training ring is pitched but the ring canvas was water-soaked and a chill wind blew so that Trainer Lavalle declared a full halt for the day. Although Firpo has taken some hard punches on the jaw, face and body during the first week of training, never once has he lost his serious, workmanlike expression or appeared to have been hurt. He has smiled only twice when working, once when he misjudged a left hook intended for Young Frank Koebele's jaw and once when the Joplin Ghost's chin slipped away from a right uppercut.

## PORTLAND AGAIN BEATS SALT LAKE

Game Featured by Home Runs and Continual Wrangling at Umpire

PORTLAND, Aug. 29.—Portland won again from Salt Lake 7 to 5 in a game featured by four home runs and continual wrangling at the umpire's decisions by Salt Lake. In the eighth the Salts tied the score, 5-5, in an assault on Middleton that culminated with Leslie's homer into the left field bleachers with two on, but in their half the Beavers batted out two more runs.

Vernon 10; Oakland 9  
LOS ANGELES, Aug. 29.—Oakland again dropped into last place in the league standing today by being defeated by Vernon 10 to 9. The Acorns appeared to have had the game sewed up until the seventh inning when Red Murphy, Vernon first sacker, hit a homer with one on. This gave the Tigers encouragement and they made three runs in the eighth and won the contest in their half of the ninth frame by sending another run over the plate.

## VOCATIONAL WORK MAKING STRIDES

E. E. Elliott Reports 26 Agricultural Departments in Schools

Twenty-six departments of agriculture will be conducted in various high schools of Oregon during the coming year under the authorization of the state board for vocational education, according to E. E. Elliott, director and supervisor of agricultural education. In two of the schools the instructor in this department has been elected principal.

These departments have been formed into districts according to locality. The eastern district embraces eight schools in that part of the state. Central Oregon has three, the lower Columbia district five and the remainder are embraced in the Willamette valley district.

Of the 26 men employed, 18 have had experience of three or more years, most of these in the positions they now hold. All but five of the entire number received their training in Oregon Agricultural college. As these instructors are employed for 12 months of the year, they hold a more permanent place in the communities where they are located, and in ad-

## MORE \$50-RACERS NEEDED FOR LABOR DAY EVENTS HERE

Come along with your \$50 racing car.

The auto races to be held at the state fair grounds on the afternoon of Labor day for the benefit of the Salem hospital fund include not only expensive racers, but a comic race for which no car valued at more than \$50 may be entered.

But here is the trouble. While 21 of the fastest racers in the northwest have entered for the big event, there seems to be a shortage of \$50-cars, notwithstanding the number of used cars that are sold every month.

Hence, there is some real money lying around for those who have \$50 cars and who feel their cars have a little of the old speed left. Now is the time to enter while the entering is good.

Another big feature of the afternoon's program is the free vaudeville, beginning at 7 o'clock in the evening. The best in Port-

land has been engaged for the event and the five artists include fancy dancing, a magician, a black face artist and singers who will give the very latest Broadway hits.

Now, instead of waiting, as is usual at races, the management absolutely and positively announces that the first race will begin as the town clock strikes 3. And each race will follow promptly instead of the usual delays.

With Governor Walter M. Pierce and Mayor George Baker of Portland as speakers, and with the Cherrian band furnishing music during the afternoon, and with the dinner prepared by Henry Thiele of Portland, and the free vaudeville, and as a fitting ending, the dance at the pavillion, a wonderful day is in store for those who go to the state fair grounds on the afternoon of Labor day, Sept. 3.

dition to the high school work in which they are directly engaged, they are said to render such service to farmers and others in their local communities. Over 700 boys were enrolled in the agricultural classes during the last school year, and an increase is expected for the coming year.

## SPRAYED YARDS PRODUCING BEST

Yield of Hops This Season Spotted, and General Crop Average One

Hop yard owners who sprayed their crops in the spring are reaping the benefits of their labors, for throughout the Salem district yards where this plan was used are now giving heavier crops than will come from the unsprayed yards. Hops throughout the district are of good quality, and spotted in productivity. The crop this season will be an average one.

Picking started in some of the early yards the first of the week, and by next Monday practically all of the yards will be harvesting the 1923 crop. There has been no scarcity of pickers, and though some owners are advertising for pickers, all have sufficient labor contracted for to insure no difficulty in getting the hops to the drier.

There are 2,000 acres of hops close to Salem, while the acreage in the entire Willamette valley is considerably in excess of this amount. It was stated yesterday

VIEW OF HONGKONG HARBOR WHERE TYPHOON STRUCK

One hundred persons were drowned and 100 killed ashore in the typhoon that struck west of Hong Kong. Many were caught in the debris of buildings. The stress of the storm centered in Macao.

The railroad company replies that the installation would cost between \$700 and \$800, that the view in both directions is adequate for safety and protests the petition. The newly paved market road crosses the railroad at the point.

DEATH BEATS SHERIFF

### One Man Tells Another "It's the triple blending"

Overnight, practically thousands of discriminating men, tired of the commonplace, have joined in welcoming Blue Boars.

The reason is simple: we took a pedigreed tobacco, a 19 year favorite 'mongst pipe smokers, and instead of merely making it into a new cigarette, we spent 6 years and a fortune in discovering how to super-refine it into a unique, exclusive cigarette.

We blend the eight rare tobaccos three times, instead of merely once. That is the difference between the commonplace and the extraordinary.

We ask you to judge—smoke your first pack of Blue Boars—see how triple blending gives you a new appetite, added delight.
