for the year 1923 during the same period 28,385 in excess of the 1922 registrations. So far during the year the license and other fees from motor vehicles total \$3,933,652, as against \$3,232,818 during the same period in 1922, or more than \$700,000. It is estimated that in the event registrations continue at the same ratio during the balance of the year, the total number of cars licensed in Oregon by December 31 will be at least 165,000, which will make the registrations for the year in excess of 30,000 more than for the year 1922.

"The number of vehicles sold in Oregon during the year 1923 is practically 50 per cent greater than during any previous year in the history of the automobile industry. A review of the registrations for years past shows that in no year were the registrations more than 20,000 over the preceding year, whereas for the year 1923 they are expected to be not less than 30,000. Oregon now has motor transportation facilities for moving her entire population at one time on wheels, one of the few states to enjoy this unique distinction."

"Since January 1," said Mr. Kozor, "154,038 motor vehicles have been licensed in Oregon. During the same period in 1922 the cars licensed numbered 125,643. This makes the registrations

Secretary Kozor Gives Figures Covering Business in Department

played in quantities in making the building attractive, new floors are being placed and the roof of the building has been entirely gone over with a special roofing preparation which insures machines a leak-proof covering in the event of rain during the week of the fair.

The last word in cars from the heavier types to the smaller, general utility car will be on display, with dealers present to explain to those interested the various points of merit. Everyone likewise interested in accessories will undoubtedly take advantage of the opportunity offered to better acquaint himself with the latest and best invention in accessory lines. The exhibitors will have specialists in attendance to explain and demonstrate the various devices displayed.

Space Signed Up Dealers numbering about 40 have already signed for space, and those who come in later will have to be contented with what is allotted them. About 30 dealers have leased space in the machinery hall, exhibits here to consist largely of automotive machinery.

Secretary Fred B. Curry of the state fair board expresses himself as more than pleased over the prospect for an unequalled automobile show. According to him special attention will center in the tractor and farm machinery and implements of an automotive nature.

Big Firms Come In Workmen have been busy for a fortnight hurrying things for the opening date. The automobile show is always one of the first things to be fully arranged when the fair opens, and this year will find every exhibit in place on Monday morning.

Among the prominent firms that have signed for space, thus insuring the success of the forthcoming automobile show are: Portland Motor Car company, Vick Brothers, Salem; Oldsmobile company, Portland; Cook & Gill, Portland; Covey Motor company, Portland; Bonesteel Motor company, Salem; Newton Chevrolet company, Salem; Braley Auto company, Portland; Marion Auto company, Salem; Salem Auto company, Thearleless Auto company, Portland; Burdette Albee company, Portland, and the Howard Auto company of Salem.

Space Assigned The following space has been assigned in the machinery building: Mitchell, Lewis, Staver company, A. C. Haag & Co., Valvoline Oil company, Westco Chippewa Pump company, Percy Brothers, Case & Co., International Harvester company, H. M. Wade Co., Farm Utilities company, Delco Light

Chalmers building. So important did he become in the thought of the people that he was not only considered as the man who had visited the Chalmers plant and actually worked out his ideas upon the factory progressive assembly line, in conjunction with his own employes.

"Saying that eight cents per car," he told the trio when he met them later, "was of even more importance to Chalmers than my appointment with you."

"And it was of even greater importance to the automobile industry, or will be, than to your own company," one of the three replied.

The saving of that eight cents by the active head of one of the industry's largest concerns does not in itself mean a large saving, even considering quantity production. But the point is that it is merely another Chrysler forward step, and that it was done by the man who has been responsible, more than any other one person, for the tremendously lower costs of manufacture accomplished in the new Chalmers models when they were introduced a few months ago. He is widely recognized by manufacturing experts throughout American industry of all kinds as being an outstanding figure in economical quality manufacture.

SAVING EIGHT CENTS PER CAR

Maxwell Corporation Official Holds Up Meeting While Plans are Completed

Walter P. Chrysler, chairman of the board of directors of the Maxwell Motor Corporation, came to Detroit recently from his New York offices primarily to see three men. He kept them waiting for three hours. This is why he did it. On the train from New York, Mr. Chrysler's manufacturing ingenuity directed itself towards ways by which costs of producing automobiles could be lowered. After some thought, he devised a method by which he believed eight cents could be eliminated from the cost of producing each Chalmers car through the greater ing device at a particular stage of
