"Youth to Youth"

In pictures in which Billie Dove heads a distinguished cast at the Liberty Theatre.

This is the first time a stage boat has been used in motion pictures. A member of the studio photographic department was sent to several points along the Mississippi river to obtain pictures of the floating showhouses and to study details which would prove helpful in reproducing the interior of the boats on the Metro stages as well as the exterior on the Sacramento river.

The advent of motion pictures spelled the doom of these crafts. Only one remains on the Ohio, while a few are scattered on the rivers watering the South Atlantic states. The Mississippi is their last real defense, and even on this gigantic stream there are but a few. They formerly reaped excellent profits at towns where barnstormers seldom stopped.

But now even the smallest settlement affords a picture show, giving the community the same opportunity to enjoy seeing the world's leading actors in fiction masterpieces that are held by the theatre-going public of the largest cities. The stage boats have found competition with the motion picture shows unprofitable and one by one they are giving up the attempt.

These traveling companies of aquatic actors sometimes have an attraction which they play all season. Others have repertoires which include everything from Shakespeare to musical comedy.

The "Thespia" is the name given the boat built for use in "Youth to Youth." It was patterned after one of the famous stage boats on the Mississippi. It has a thirty-foot stage, an orchestra pit, upper and lower boxes and a balcony, with a total seating capacity of approximately 1,000 persons.

In "Youth to Youth" Billie Dove has the part of the star of one of these barnstorming—or to be more exact, wharfstorming companies. Following the completion of interior scenes at the studio, Director Emile Chautard left for the Sacramento river with the entire cast, including Miss Dove, Cullen Landis, Zazu Pitts, Noah Beery, Sylvia Ashton, Edythe Chapman, Mabel Van Buren, Paul Jeffrey, Hardee Kirkland, Louise Macintosh, Lincoln Steadman, Jack Gardner and Carl Gerard.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.—Adv.

Making Money Go a Long Way

GEORGE WASHINGTON: it is related, threw a silver dollar across the Potomac river. At the spot where the feat is said to have been performed, the stream is approximately a mile in width. But admittedly, a dollar went farther then, than now.

The purchasing power of a dollar bill has shrunk considerably in the last ten years. There has never been a time when discriminate buying paid bigger dividends.

Every day this newspaper contains information that you should have to increase your buying power. The advertisements are intimate little lessons in every-day economy. They teach you how, when and for what your dollar will go farthest.

Merchants tell of their bargains through the advertisements. Almost every new opportunity is offered through an advertisement. Practically every unusual buy is advertised.

You can stretch your dollar to its elastic limit by keeping abreast of the opportunities to get full value.
