Sheridan Apple Crop Will Be About Normal

The apple crop around Sheridan will be about normal this year, R. E. Shanahan of the Oregon Growers said yesterday upon his return from that district where he has been since June 26.

Orchards in general are not as taken care of as they are in other districts, due to a great extent, he said, to diversified crops in the fruit line.

The prune crop will be fully as heavy this year as it was last year, and the sites are said to be very good.

The photoplay features Ignatrace Joy, with Owen Moore and Robert Edson, and is a Charles Maigne production delineating swift-moving New York life. It is well worth while.

SAGE TEA KEEPS YOUR HAIR DARK. When Mixed With Sulphur It Brings Back Its Beautiful Lustre at Once. Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is the face. When it fades, mars the face and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.—Adv. TODAY—TOMORROW.
