FIRPO ASKS ONLY ANOTHER CHANCE

Defeated Challenger Says He Accepts Decision—Wants Another Bout

NEW YORK, Sept. 19.—(By the Associated Press).—The decision of the referee is sufficient for Luis Angel Firpo and despite the protests of his friends and many spectators of his fight with Jack Dempsey that he was unfairly treated and fouled, he asks nothing more than "another match" with the world's champion.

The true sportsmanship of the Argentine fighter is shown in a statement given by him to the Associated Press, in which he first defends his chief second, Horatio Lavalle, indirectly accused of incompetency by William Muldoon, chairman of the state boxing commission, and ends by simply asking another battle with his conqueror when he has rested and his arm has healed.

Dempsey was declared by thousands of spectators not only to have struck Firpo viciously after the call of time and to have disregarded the referee's instructions as to retreating to a neutral corner during a knockdown count, but to have technically lost the fight on a foul when he was assisted back to the ring by reporters, after having been knocked through the ropes by Firpo in the first round.

Referee Gallagher also is declared to have neglected starting a count until Dempsey had been returned to the ring. Chairman Muldoon said after the fight that had Firpo's seconds claimed a foul when Dempsey was pushed back into the ring, the state boxing commission would have recognized the claim and declared Firpo the winner. No such claim was made.

Firpo has been urged by his South American admirers and many others to protest against the decision of Referee Gallagher. His statement made to the Associated Press today reads: "There has been enough discussion on the question of fouls in my match with Jack Dempsey. The charges against Horatio Lavalle are unjust because Mr. Muldoon, chairman of the New York boxing commission, assured us that justice would be done for me.

"I have read what Mr. Muldoon has said on the subject of fouls and I appreciate it. I have also read many references by sporting writers to the same matter. But

FRANK PRODUCES BIGGER FRUIT

Frank Simeral says he read in a paper a few days ago that a man in another part of the county had picked 12 prunes which weighed one pound. Mr. Simeral is no novice at prune growing, being possessed of one of the fine orchards in this part of the valley. To find out just how his fruit would "size" up with the other fellows, Mr. Simeral picked 9 prunes from one tree in his orchard which weighed 18 ounces. Mr. Simeral says a noticeable thing in his orchard this year is the uniform size of the fruit. Looking into the trees from the underside the fruit hangs in such uniformity that it seems to have been graded when hung on.—Silverton Appeal.

PRUNES GO TO JAPAN

ROSEBURG, Sept. 19.—The committee in charge of the Japanese Relief Drive in Roseburg, met yesterday afternoon at the Chamber of Commerce offices and outlined the policy of the campaign. It was decided that it would not be advisable to send money to Japan, as it is food products and clothing that are most needed, and it would be only necessary for the Japanese to return the money to this country in exchange for food. Because of this fact it was thought best to send food products direct and as a result an effort will be made to obtain one or more carloads of prunes and ship them to Japan for distribution there.

RECALL UNPOPULAR IN LANE COUNTY

Up to this morning there had been no petition for the recall of Governor Pierce offered for names in Lane county, and political leaders of both parties are doubting whether any will be. General suggestion is that Lane county would be a cold field for enemies of the governor who try to use the recall under present conditions, although one official believed that a thousand or so names might be secured from that class of people

F. S. Montgomery Winner in Trotting Race at Lane County Fair

EUGENE, Or., Sept. 19.—F. S. Montgomery, driven by Stuart, won the 2:14 trotting race at the Lane county fair today and Mary Logan, driven by Smith, took two out of three heats in the 2:25 pace. It is the fastest time recorded since 1917. Barondale, favorite in the event, was scratched after the second heat because of sickness. that signs any petition without stopping to use due judgment. And this official is a political opponent of Pierce who says he will not vote for a recall on charges now presented.

Edward F. Bailey of Junction City, representative from Lane in the legislature, says his territory is violently opposed to any recall of the governor. No word has been received from southern or western Lane, but both these districts are Pierce strongholds.

Representative interviews in Eugene today failed to find a man who would sign a recall petition. John M. Williams, chairman of the Lane county republican central committee, gave it as his private and personal opinion that this proposed recall is not desirable, and said that he would throw his ballot against it should it come to a vote.—Eugene Guard.

FALL IS TIME TO PLANT SHRUBBERY

Miss E. D. Purdy Gives Advice to Persons Contemplating Gardening

Owners of new residence properties who are contemplating shrubbery should keep in mind that the fall is the best time to plant certain ornamental shrubs, roses and trees, according to Miss E. D. Purdy, manager of the Salem Nursery company. The latter part of October and the first of November are the best times for this, she said. Bulbs will bring the best results if planted after the first of the year, between that time and the latter part of February.

Orchard stocks mostly in demand at present are filberts and walnuts, Miss Purdy said, though requests for prunes are also received. The latter are leaning heavily toward the date prunes, developed by the Oregon Nursery company. A large supply of this variety on hand last year was taken, and sufficient orders have been received to take care of the supply this year.

From a nursery point of view, Miss Purdy said she believed that the New Oregon prunes would live up to predictions made by fruit growers that this would be the leading variety for shipments to fresh fruit markets located at a distance.
