People Should Study Amendments
One of the main issues to come before the next election, November 6, will be the income tax measure. One of the good features of the bill is that it will catch those who pay no property tax but who have incomes that will come under this law, if it passes the vote of the people, thereby causing them to pay their share to the support of the state government. It will cause the big industry to pay their share of taxes, and if successful, will cause the burden to be lifted from the over taxed land owner. Along with it would be a good scheme to transfer tax exempt securities to this classification and cause some of these "Get rich quick at the expense of the tax payers" to do

some tall thinking.—Turner Tribune.
L. C. McShane, who for some nine years has published the paper in our neighboring town on the south, has leased the plant to L. T. Ward, a veteran newspaper man of Canton, Ohio. Mr. McShane, it is understood, will continue his residence at Hubbard for the present, but will become identified with the Portland Printing Co., of 49 1/2 First street, where he will spend the greater part of his time.—Aurora Observer.
Advertisers Have Explanation
COTTAGE GROVE, Ore., Sept. 22.—Seventh-day Adventists see in the terrible calamity that has come to Japan another sign that

the second coming of Christ is hastening on. As terrible as has been the loss of life and suffering, the Adventists point to the words of Christ himself as a basis for their belief. Jesus said "And there shall be signs in the sun, and in the moon, and in the stars; and upon the earth distress of nations, with perplexity; the sea and the waves roaring; men's hearts failing them for fear, and for looking after those things which are coming on the earth; for the powers of heaven shall be shaken. And then they shall see the Son of Man coming in a cloud with power and great glory." (Luke 21:25-27).
Water Power Sites on Umpqua River
ROSEBURG, Sept. 29.—Applications for a preliminary permit, covering proposed power development on the North Umpqua river, have been filed by the California Oregon Power company. The projects being considered by the

power company embrace practically the entire river from Rock creek to Diamond lake.
Under the federal power act it is necessary for a company or organization figuring on power development to first obtain a preliminary permit. This permit gives the company priority rights while it is making its surveys, investigations, etc. A company may desire to locate a power development project on a certain stream but may not know just where it desires to place its plant. In order to select the best site considerable engineering work is necessary, requiring much time before any definite action can be taken. Without the preliminary permit it would be possible for several companies to be at work on the same project and one could block the other and hold up development. Under the existing act a company, after taking out a preliminary permit, can make its surveys, investigations, etc., but within three years, must decide upon some definite location. The company then has two years to start work on the project selected, and if it fails to do so, its rights are forfeited.

Improvements for Harrisburg
HARRISBURG, Sept. 29.—The assurance of a bridge is already meaning big things for Harrisburg aside from the best river crossing on the Upper Willamette. W. T. Sherman of Eugene was here Monday looking over conditions with a view to establishing a handle and box factory here. It is well known that there are still large bodies of hardwood in this vicinity as well as much native

Badly Banged Up
Thomas Caterer, who was hurt in an automobile accident in which his brother lost his life, was sent to Salem recently for a thorough examination by Dr. Smith. It was found that his spine was dislocated and his hip and leg not in the best of shape. He was advised to rest a few days from labor. He is a good worker and has given satisfaction to those for whom he has labored, but he has been working under a disadvantage when he was really unable to do anything.—Woodburn Independent.
New Band Leader
AURORA, Sept. 29.—M. B. Briggs of Portland has leased the Aurora band hall and has spent a considerable sum in renovating and decorating it, the color scheme being salmon and jade. The decorations call for 21,000 decorating pins, 360 rolls crepe paper, 6,000 feet of music wire and 1100 feet of lattice work. The floor will be fixed in A-1 condition for dancing, which will be enjoyed each week. Mr. Briggs' orchestra of six musicians includes two seconds from Darby's orchestra and one second from George Olsen's of Portland.

Facist Control Brings Better Times to Italy
ROME, Sept. 30.—As the first year of Fascist rule in Italy draws to a close, it is interesting to consider what has been accomplished in the agricultural and industrial life of the nation. It is believed that the increased energy and confidence on the part of land owners and farmers, together with favorable weather conditions, has started Italy on the road to greater production and prosperity.
The number of unemployed has steadily declined; the official returns for the months of March and April, 1923, show a reduction of almost one-half as compared to the corresponding months of 1922.
There have been practically no strikes or labor troubles since the Fascist and their leader undertook to run the government of Italy last October. The ministry of agriculture estimates that the gross value of Italy's crops for 1923 will exceed that of 1922 by about 4,000,000,000 lire; the yields of wheat, barley and rye are about 23 per cent higher than

in 1922, and from 19 to 25 per cent higher than that of the average for the last five years. In addition, orange groves, olive groves, vines, sugar beets and potatoes have all been more intensively cultivated and have also yielded larger crops.
SHUN "MODERN" WIVES
FRANKFORT-ON-THE-MAINE, Germany, Sept. 23.—(By Associated Press.)—Germans do not want their wives too modern. This is quite clear from the advertisements for wives appearing in the best German newspapers.
The native Indians were true Americans, however. They never did gang-whip anybody.

You'll Cheerfully Welcome This Heater in Your Home

The CHEERFUL Heater

—and you'll get a lot of real satisfaction from it for the reason that the "Cheerful" is built especially to meet the requirements of homes in this section. Burns wood. Has large end feed door which permits fairly large sticks of wood to be used. Has cast-iron bottom and cast-iron swing top. Heavy cast linings entirely to top mean many years of service from the "Cheerful." Attractively designed. Good draft regulation.
—A large Western stove concern makes this and other practical types of heaters. They are of highest quality, materials and workmanship. We have them on our floors—and recommend them.

- Other houses, farms and lots for sale and trade by **GERTRUDE J. M. PAGE**, 492 N. Cottage St.

JUNCTION CITY WAS FIRST

JUNCTION CITY, Sept. 29.—Junction City wins first prize this year in the exemplification of that newspaper slogan, "Be first, but first be accurate." The north Lane municipality was the first town in the county to present its complete budget for the approval of the tax conservation commission. It came in yesterday to Herbert E. Walker, secretary. Florence sent in its budget a few days ago, but it is not complete and could not be classed as entered. The Port of Stiuslaw has also presented its expense outlay for 1924. No other city has submitted its budget.

Local Bank Protection

With the big wheat crops of the northwest the syndicates selling fake oil stocks and other soothing-syrup and rubberneck securities are already circularizing the farmers.
With the best investment and commercial banking system in the world, why would it not be a fairly intelligent proceeding for would-be investors in securities of any kind to consult responsible investment banking houses, instead of listening to fly-by-night stock promoters?—Mt. Angel News.

FAIR SIDELIGHTS

On the way to the American legion convention in San Francisco a Ford sedan bearing many signs, chiefly those of the "40 & 8," was among the state fair visitors Saturday.
Of all the people who saw the fair, those from the feeble minded school got the greatest "kik" out

Glasses Now
may save you from years of eye trouble, if not total blindness. Don't you think you owe it to yourself to call and let us examine your eyes?
If you don't need glasses we will tell you.
