HUNDREDS ATTEND BUSHEY FUNERAL

Tribute to County Official Paid By Rev. Blaine E. Kirkpatrick

More than 500 friends and neighbors, including former fellow workers from the court house, attended the funeral of Judge W. M. Bushey, which was held yesterday at 2 o'clock. The offices of the court house were closed during the funeral except for clerks on duty in the tax collector's office, in the county clerk's and the recorder's offices.

The pallbearers were former fellow workers of Judge Bushey. They were B. B. Herrick, U. G. Boyer, Oscar Steelhammer, O. D. Bower, D. G. Drager and S. H. Van Trump.

Mrs. Hallie Parrish Hynes sang two of the favorite hymns of Judge Bushey, "Shall We Gather at the River" and "Rock of Ages." Mrs. Frank Zinn played the accompaniment.

Rev. Blaine E. Kirkpatrick paid tribute to Judge Bushey as a conscientious office holder who unfaltering stood for the right as he saw it. He referred in particular to the work of the judge as one who in his capacity as juvenile officer, helped many erring ones back to the right road, often going out of his way to assist both juveniles and grown-ups.

Burial was in City View cemetery with the Webb Funeral directors in charge.

RAINS DOING NO GOOD TO PRUNES

If They Will Stop Quickly, However, the Damage Will Not Be Very Great

The rains are at least doing no good to prunes, was the verdict last night of a man well up in the industry in this district.

In the first place the fruit is nearly all dead ripe, and it is falling from the trees. Once on the ground, if it is not immediately taken care of, it quickly suffers injury. As long as it stays on the trees it is not so subject to injury.

There has already without doubt been some spoilage.

In the hills, harvesting is pretty well through; but in those sections

tions the crop was not so heavy as in the bottoms, and therefore more drying space in proportion to the whole crop was and is available.

The drying of the large crop on the low lands has been set back by shortage of drying space, and also because the drying of the fruit has been slow. There are sections where the crop has not been more than half picked and dried. In other sections harvesting is about over.

The great hope of the prune growers who still have a large proportion of their fruit on the trees is for fair days, or for days free from heavy rains or even frequent showers. Nearly all the fruit looked fine and large on the trees, but some of it is taking longer than expected to dry; in other words, it is drying down to 17 or 18 pounds to the bushel, when it ought to make 20 to 22 pounds, and had every appearance of doing so.

Distance Reduced for Youngsters to Travel

The county boundary board met yesterday at 1 o'clock to consider changes in school district boundary lines. Two changes were approved by the board. Both changes in lines which were approved were unopposed. These involve the Central Howell and Bethany schools, and the Mahoney and Johnston schools. In each case the distance which the children will have to travel is reduced by the change.

The petition for a change in the boundary line between the Pleasant View school and the Marion school was denied because the children would have too far to travel to reach the Marion school and because the valuation of the Pleasant View district would be reduced too much by the change. A number appeared to oppose the change of boundary in this instance.

Polk County Schools Did Better Last Year

An increase in the high school enrollment of Polk county last year over the previous year is shown in the annual report of County Superintendent Josiah Willis to State Superintendent Churchill. For the year ending in June, 1922, the enrollment was 511, and for the year ending in June, 1923, it was 579. Polk county has 11 high schools, located at Arlie, Ballston, Bethel, Buena Vista, Dallas, Falls City, Grande Ronde, Independence, Memmouth, Perrydale and Rick-reall. These high schools graduated 46 students from the 12th grade.

The total enrollment in high and grade schools of the county was 3457. One hundred and fifty-seven teachers were employed at an average monthly salary of \$133 for the men and \$97 for the women.

Use of Whole Mind Is Necessary to Success

"We can never be a whole success until we have learned to use the whole of our mind. Those

people who do things and, seemingly, so easy are those who have learned the power of the subconscious mind and therefore work in agreement with natural law," said Cosgrove Murphy at the lecture last night at the Capital Business college. The lecture was "Auto-Suggestion, or the Power of the Subconscious Mind." It is quoted authority for a number of cases of mental and physical aggresses who have benefited through this power.

"When Mr. Edison was asked what was the reason of Mr. Ford's success, he hesitatingly answered, 'He is able to draw on the subconscious mind.' It is a scientific fact that the subconscious mind is capable of far more than our conscious mind is aware of."

The lecture was well attended. Tonight the subject will be "The Ladder of Success," and will be the last of the free lectures. It will start a class in psychology and character analysis beginning Monday night.
