He is 20, weighs about 160 pounds, has brown wavy hair, blue eyes and a small scar on his lower lip. Foul play is suspected, as there is no reason for his disappearance, Mrs. Philo says. IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR
Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur at any drug store.

Hard-Up Collectors Sell Art Treasures to America

LONDON, Sept. 18.—(Associated Press)—Art collectors from America have sent more treasures to America since the war than were purchased by Americans during the 20 years previous to 1914. English collectors explain that this is the result of the need for cash which is being acutely felt in England. Many formerly wealthy art collectors are forced to sell their possessions in order to meet high taxation and living costs. There seems to be no such condition among the American collectors, for their English agents are

everywhere and always ready to seize upon any treasures that are for sale. In fact, so anxious are some of the agents to buy that they have adopted the method of calling on well-known collectors and making them offers for valuable objects.

Art objects to the value of \$10,000,000 were shipped to the United States last year.
