Churchill Issues Statement Explanatory of Course of Study

The fact that many Oregon ouths must become breadwinrs immediately after leaving igh school, without going on to llege, is the consideration that has resulted in many graduates the entrance requirements of a rom standard high schools not ing prepared for entrance exminations to colleges and unirersities. This condition has aused some criticism to be weed at high schools, and the itnation is explained in a letter hat J. A. Churchill, state superstendent, has written to all high hool principals in the state. Mr. Churchil says, however, that prinals should have a knowledge of he college and university enince requirements so the high ool courses of the pupils may be shaped accordingly if desired.

Many Critics Heard. "Many criticisms have come to

meet the entrance requirements of colleges and universities, not only outside of Oregon but also in Oregon. Parents and friends of Oregon hig hschool graduates cannot understand how a high school can be standard and, at the same time, graduate students who do not meet the entrance requirements of colleges and universities.

"This letter is written with the hope that full publicity will be given to it through the high schools of the state. We desire to make it clear that Oregon's high school course of study was not built with the idea that all high school graduates should meet the course of each shapes up with college or university. There are many students that must leave school after graduation from the high school, and such students wish to secure a course in the high school that will best prepare them as breadwinners after graduation. In the larger high schools, especially where there is much freedom in the choice of electives, many students are graduated who cannot enter a standard college without being conditioned.

"However, we believe that a high school principal should know fust the subjects that a high school student must complete in this office this last fall which order that he may meet the enere directed at the work done trance requirements. It should n the standard high schools of be the business of someone on the gon," said Mr. Churchill. high school faculty to inform each ur high schools were criticized student from year to year just cause of the failure of so many how his course is shaping up for

Don't you think you'd better lie down?" "Just come right in my room, Mis' Graham," Mrs. Ticer promptly interposed, "and I'll make you

a cup of tea." I followed her passively, furtively watching Grace Draper and Edith Fairfax as I did so. There was a knothole in the door I shut behind me, and I unblushingly looked through it, as soon as I closed the door.

I saw Edith Fairfax shrug her shoulders, touch her forehead significantly, and heard her say contemptuously:

"Don't mind her, Gracie. Come back upstairs and lie down, and I'll rub your head. Her screeching like that hasn't done it any good, you know."

The utter heartlessness of her words as applied to me brought no resentment to my mind, only a wild, fantastic surmise. Could it be possible that Edith Fairfax was also involved in this horrible tanfleeting instant, as Mrs. Ticer gle of which I was beginning to clutch only the most slender "Those girls know something,

REVELATIONS OF A WIFE

WHAT GRACE DRAPER TOLD MADGE AND WHAT MADGE GUESSED.

CHAPTER 435

Over my baby's pitiful little plaything, clasped close to my lips, I stared wildly at Mrs. Ticer, trying dumbly to comprehend what she was saying to me. Then, as the terrible import of her words struck me. I caught her arm fiercely.

"You found this in the hands

of the baby of the man across the road?" I shrilled. "Then he must have carried off Junior. Oh-h!" I could not repress the shriek which tore through the house and brought a swift staccato of feminine feet down the stairs. The next second Edith Fairfax and Grace Draper burst into the sitting room, with consternation written

on their tense, anxious faces. "What is it?" they exclaimed simultaneously. I gesturned feeb. ly to Mrs. Ticer.

"Tell them," I choked, then strangely out of my subconscious self came the admonition to watch
