NEW YORK, Oct. 23.-Stock prices generally failed to give any indication of a definite trend in oday's quiet market, most issues Great Lakes were construed also floundering irregularly within a narrow trading area.

Renewed weakness of sterling exchange, which carried down to been expected had a distressing another new low level for the year had a depressing effect on sentiment but its effect on stock prices was generally held to be negligible. The financial community however, is paying close attention to European cables which have formed the major topic of morning conferences in some of the largest banks.

Fluctuations in stock prices continue to reflect the play of opposing speculative forces. Fresh weakness cropped out again today in the rubber and leather issues, most of which fell to new low records for the year.
