a furtive glance of my own con- where .- Adv. firmed her statement.

Great holes gaped through the filmy texture of the stockings, through which the swollen and chafed feet strained as if bursting. Truly, Bess Dean had paid dearly for her petty vanity about the size of her feet as compared to mine, and I felt a sharp sting of conscience, knowing that I was partly responsible for her plight. I had yielded only too readily-if not gladly-to Dicky's demand that I give her the exact pair of sneakers for which she had asked, my own, instead of the extra, larger pair I had in my trunk.

A WALNUT HIGHWAY

By H. C. TSCHANZ valuable suggestion, namely, that we plant trees Pacific highway, has been made by the press of the idea is so broad and worthwhile, that one cannot pass out some additional comment. Imagine a highway be sold for large amounts of The Lewis and Clark expedition of fine trees on each side of it to make it beautiful. money when the trader carried opened the Northwest to settlers, Pennsylvania and Illinois. ide beautiful by a highway bordered with walnut or them back to civilization in the who rushed in to establish themes; a paved highway from Portland to Siskiyou, a summer. f 360 miles by rail and more than 400 along the It is such a colossal idea for beauty, that every f the state should feel his civic sense aroused and at

ne interested for its accomplishment. ly Oregon is fast becoming famous as a country with ie finest highways in the world so that it has been that we are surpassing our sister states in tourist in the great industry. New Ord these tourists giving us the once over will adver- leans was a trading post for furs ate and sooner or later bring people and capital to long before its settlers ever ir unsurpassed, dormant resources. With a walnut aighway extending through the entire length of the vould have an advertisement that would find no equal g up the state. Cost? Yes! But every worthwhile advertisement has an initial cost be it in business or ing else. Our sister state, California, is advertised being made a home for capitalists, who bring money

atry with which to develop it. it not be possible, that a similar idea of tree-planting parried through Washington and California both, thus a uniform road of travel all along the Pacific coast? et Oregon lead the way? It could be named the Walvay or the Pacific Walnut Highway, thereby bringing states to the front and the attention of eastern cap-

ice we may hear someone reply: how monotonous! kind of trees all the way for hundreds of miles! But bt pavement for these same miles, yet no one seems monotony. The walnuts and filberts might be placed te intervals and the black walnuts which make such I tree, though are a cheaper nut than the English, h English walnuts and filberts. This would relieve although I personally would feel that planting black ould be a mistake—unless one cared for beauty only

no attention to crop-value. , the trees could be planted far enough at the sides vement so that there would be little trouble from ex- twilight fell, they built a roaring but they pledged themselves to "She leaped from the rock and shortage, but it has not been done. ade in winter, or from leaves dropping on the roads. d the nuts drop on the highway, as the distance bee and road would be too great. These are really, to

minor difficulties. should do the planting? The answer is that the State Commission should be in charge so as to have it a pb. It might be possible that farmers and property claimed. You can hardly see it in ong the way would plant and take care of the trees, tting the harvesting of the crops, the state furnishing o as to have all good uniform trees. Possibly, even a can see it plainly," replied the rporation might plant the trees and care for them,

to reap the crop benefit which would be no small would be involved by kind and age of trees as well stance between them. Two rows of walnut trees 30 t for a distance of 400 miles would require about At 50 cents per tree, the cost would be \$70,400 Add to that the cost of planting and the care for say ten years. Reports of the hundreds of acres of n Oregon show that it pays to raise them, for we ast quantities from other places. Why not produce

elves at home? would the crop be worth? If a ten year old tree uce 20 pounds of first class nuts that market at 15 ound, we would get, from 140,800 trees about \$422,year. Of course this does not include picking, dry-bor items. Neither does it consider the fact that the not bear every year. But reports are made that an ld tree may, under favorable circumstances, produce to 400 pounds of nuts in one year and we have for our only considered 20 pounds per tree which is, to

ens of the state! Shall we make Oregon with its beaua timber backgrounds and the most wonderful climate; capped mountains, a beauty paradise of the world so sts may look on with envy and say: "There is none it!" Talk it up with your fellow citizens and boost; done if we want it as badly as we did the paved roads.

DEMOCRACY IN TROUBLE

Elihu Root once remarked that democracries were always in trou-This is true. Where everybody is as good as everybody else, and everybody does his own thinking there is bound to be constant friction and constant trouble. However, if we learn to think straight we can minimize that trouble. America has suffered less from the ambition of its people than any other country in the world. We fight just as hard for our principles but we fight fair.
