MEDIUM STILL MAY SHOW GHOSTS BUT SHE MUST ARRANGE THE PARADE

Mrs. Clarence H. Tomson, Chicago spiritualist medium, still may have the opportunity to try to convince the Scientific American representatives that she can make honest to goodness spirits materialize. But she will have to make the first move to obtain another trial. J. Malcolm Bird, assistant editor of the publication, has announced. She was given a chance to compete for the \$2,500 prize in New York a few nights ago but refused to "go on" at the last minute on the plea that the law library, in which the tests were to be made, did not have the psychic atmosphere. Whereupon the ghosts—and Mrs. Tomson were given the air.

Mellon Tax Reduction Not Approved By Pierce

Secretary of the Treasury Mellon's proposal for the reduction of government taxes does not meet the approval of Governor Pierce, and, in the opinion of the governor, would not be approved by the people of Oregon, according to telegraphic messages the governor sent in reply to inquiries by New York newspapers.

To the New York Times the governor sent this reply: "After reading Secretary Mellon's proposal on tax reduction I take it that he proposes to cut down the income taxes mostly of those of larger denominations. Moreover, the reduction, if made, means there is to be no adjusted compensation for soldiers. I believe the boys who fought this country's battles are entitled to adjusted compensation. Furthermore, I believe that the people with large incomes, many of whom obtained them during the war period, should be the ones to pay the soldiers' bonus. While I believe every effort should be employed to reduce government taxes, I am opposed to the Mellon proposal."

The governor sent a message of the same purport to the New York Herald.
