

WHAT DID THAT MEAL COST?

Several dollars—not counting your time and labor—and it's ruined all because of heavy bread or a soggy cake. You may have saved a fraction of a cent by using an unreliable baking powder—but ruined your baking—made a failure of your meal. Do you call that economy?

THE CALUMET BAKING POWDER

will make a success of any meal because it always produces perfect bakings—and that's what counts in the success or failure of a meal. No other baking powder is any better—regardless of the price you pay—none is any more economical in use; for Calumet has far greater leavening strength—it goes farther—lasts longer. The last spoonful is as good as the first. Millions of housewives use Calumet—so do the leading hotels, big railroads, renowned restaurants and good bakers.
