#### MUST STOP ALIEN ENEMY IMMIGRANTS

The Statesman of last Tuesday had in this column a state ment of the number of immigrants coming into the United States each year-

Showing that we are getting about 300,000 new people annually in this way; though the number is restricted to 3 per cent of the number of their nationals or races we already have.

But this does not tell the whole story More's the pity-

THINGS

TO DO

Copyright, 1923, Associated Editors.

For we are getting 100,000 additional new people a year, who are sneaking in; this according to the high authority of President Coolidge.

It is the duty of every newspaper and citizen to call instant and constant attention to this great national danger—the dan-ger repeatedly pointed out by President Harding and recently mentioned by President Coolidge+ "the un-Americanized aliens THE SELL SELLENGER

Our government has recognized that danger by the enacteffectively enforced, would guard against further inflow of manifestly and outstandingly undesirable immigrant classes; for our laws provide against the coming into our country of eriminals, of diseased persons, of weak minded persons, of dependents, and of contract laborers, but it has become apparent stacle to the enforcement of the business being a law enforcing of- in Stayton directly to the fathers that those laws are being evaded-

And on a very extensive scale. In his July 4th speech in Portland, President Harding said:

"Thousands are finding their way across our borders or through our ports every month in defiance or evasion of the law because of our insufficient regulations or inadequate provisions for enforcement of restrictions.'

In an earlier address to Congress on December 8, 1922 President Harding urged the enactment of bills then pending who do not make an honest atfor the registration of the alien who has come to our shores. tempt to enforce it. He truly said that:

"Life amid American opportunities is worth the cost of registration if it is worth the seeking, and the nation has the right to know who are citizens in the making or who live among us and share our advantages while seeking to undermine our cherished institutions."

It needs no argument to establish the fact that a man who last winter and I shall continue highways came in for a good part the German mark has flooded the park. Not all of us are able to violates the law in order to get into this country can not be to do so as long as I am governor, of this, and we must have the world and Germany has reaped analyze and identify them for ourtions. In his recent address to the conference of Governors made to convince me that there is President Coolidge estimated the number of aliens coming into no sincere action on the part of the United States unlawfully at 100,000 annually, or a number the prosecuting attorney to en-

equal to about 30 per cent of those who come lawfully. This, joyed special privileges so long Why Druggists Recommend as he said, is a serious menace to the success of our immigration that it resents taking its place

The smuggling of this number of aliens who are not en- state. Every official draws his titled to come in accordance with the provisions of law is a salary for the time for which he direct challenge to the American government. One hundred is elected and any sane man knows. Dr. Kilmer's Swamp-Root, the thousand foreigners each year defy the laws of the United States in the manner of their admission. Having come here in defiance of the government, they live here in equal defiance. Defying one law of the government, a very considerable proportion of the whole number may be presumed to be ready to defy every other law. Some of them no doubt have in them the making of good American citizens. Perhaps a way ought to be provided to allow these people to remain-even though they have sneaked in under the tent or broken in through the back door-

But even these people, supposed for the purposes of mercy to be deserving; even against appearances, should not object to a registration of all aliens in this country.

- Our present immigration law is wrong. It is not right to admit mere numbers; a mere percentage. We should have a sulting America by his strictures. right; indeed we should make it a duty, to pick the people He is calling us all sorts of desiring to make up a part of our citizenship, and who will names and poking all sorts of fun naturally transmit their qualities to a part of our future citizenship. The present law is only an emergency measure; an emergency measure reenacted for want of an agreement upon a bill him at that sort of business. In for a wise and just law to take its place-

But whatever disagreement there may be as to the wisdom of retaining the present emergency law, there can be no question by anybody anywhere—at least by any red blooded American as to the vital importance of enforcing that law when its enforcement is challenged by men outside of the United States who seek to come here and live here in defiance of law.

The fact is, Congress has a most important duty to perform in framing and enacting an immigration law that will allow our country to pick its new people; to allow the picked BOYS AND LAW ENFORCEones to come in-

And to exclude all others; absolutely. There is no more important duty to be considered

#### ENFORCING THE LAW

per capita tax was \$5.82, in 1914 fewer. it was \$6.40, in 1922 it was \$35.31. Of course, our roads and roads. However, we did not pay indetbedness was 66 cents per capita; in 1922 it was \$48.12. However, this is not discouraging, as we will pull out in a few years. This showing does say, however, that there is much ground for the demand of economy in public affairs in Oregon. We cannot continue mounting our government expenses and our debts so rapidly that there will soon be a race between the two. We must institute strict economy in state and government affairs.

### A GREAT MAN GONE

Tree surgery has been developed and accepted during the lifetime of many men now living. In fact, the inventor of tree surbery has just died. John Davey deserves a place with the great men of the world. True, it may seem like a simple thing to docwith you-but stay after school tor a tree, but no one did it until Davey came. The crossing of plants may be a simple thing but The Frenchman called him "Monalong. It is now claimed that there are are airplanes that will travel 90 miles on a gallon of gas. Sounds like the talk of some fellow who has airplanes to sell.

Eugene Debs is suffering from an attack of heart trouble. We can hardly spare 'Gene. He is needed to run for president on the Socialist ticket in 1924.

## **EDITORIALS** OF THE **PEOPLE**

Would Identify Trees

Editor Statesman: In the beautiful grounds surrounding the state capitol, I have been told that we have the largest single collection of trees and shrubs in the United States. This is splendid. and we are all proud of our park, but how fine it would be if we might know the names of all these trees and shrubs.

It has occurred to me many times, that the identifying and labeling of these trees would not only be of value to tree lovers, but would increase the interest in and love of nature, of those According to recent information | who daily walk by or through this the benefits . Anybody who says selves, yet would be very glad to cash for the roads. In 1917 our the German people are not smart have a permanent tag or label giving the common and scientific name of each, affixed to each.

I do not know just how this could be accomplished, nor at what cost, nor how the expense could be borne, but your paper has fostered so many splendid movements, that I felt impelled to call this to your attention. Such work is being done in other places for example, in Chautauqua, New York, not only the trees in the parks, but unusual trees in private grounds have been so labeled.

Yours very truly, A NATURE LOVER.

### About \$850 Raised For Red Cross, Says Harris

Approximately \$850 has been subscribed in Salem for the annual roll call of the American Red Cross, according to an announcement made Monday by R. A. Harris, director for the drive. This amount is \$150 short of the desired quota.

"There should be 1000 subscribers in Salem alone," Mr. Harris said. "Undoubtedly there are many who have not been solicited individually who wish to contribwish to make donations are requested to send in their contribu-

Though the drive officially closed in Salem Sunday night, every effort will be made to see that the quota is subscribed. No reports as to progress throughout the county have been received, but the work will continue until December 1, Mr. Harris said-
