SECOND NIGHT OF REVUE GOES BIG

Cherrians Conclude Successful Performance and Dazzling Fashion Show

Greeted by another large crowd, larger than that attending the first performance, the Cherrians in their Music Box Revue last night successfully wiped out whatever criticism they may have received from the show of the previous year.

Members of the cast, the first effects of appearing before an audience and under the glare of bright lights, presented their acts in truly professional manner.

This, of course, does not apply to the several individuals who have appeared in vaudeville in the past, but these exerted themselves and showed an improvement over the first night.

As on the previous night, the fashion review, with its bevy of beauty, its dazzling lighting effects, brought for the highest approval.

Following the show all members of the cast, including the orchestra, were the guests of Claude Belle at the Gray Belle. Although the hour was late, the cast availed themselves of the hospitality.

Members of the orchestra, whose names have not been given before, donated their services for the rehearsals and the two nights of the show were A. F. Galgano, director, and Miss Naomi Whalen, first violin; Charles Kurth, second violin; Mrs. Ruth Galgano, piano; F. J. Beebe, cello; Richard Ryley, string base; Roland Desart, clarinet; Oscar Steelhammer, trombone; Charles Pabst, cornet, and Mark J. Renne, drums.

ROYALTY TO TAKE PART IN PROGRAM

Japanese Prince Will Put on Jui Jitsu Tumbling Act at Show Tonight

The Cosmopolitan club of Willamette university will give an entertainment this evening at 7:30 o'clock in the Willamette chapel, Eaton hall. The Cosmopolitan club is composed of foreign born students attending Willamette.

Mr. Yamashita, who is of the ancient order of Japan's royalty has come to Willamette to prepare for a career among his own people. He is an advanced student in tumbling and a teacher of Jui Jitsu. Other Japanese at the school say that Nori's style of Jui Jitsu is known only to the royalty in Japan. A talented Filipino who will perform is Sofio Zarzadias. Sofio plays nearly all of the native instruments of the Philippines and will entertain with selections on the mandolin, guitar, ukelele and piano. Two other Filipinos on the program compose the senior class debate team this year. They are Sinfiorosa Padilla who taught in the high schools of Manila for a number of years and Ponciano Tuanlo, an expert with the Philippine mandolin.

The money will go towards sending the Willamette delegates to the Student Volunteer to the convention at Indianapolis.

The program will be in oriental costume and will last about two hours. The program for the evening is as follows:

the floor and overflowed the galleries heard the president. Hundreds unable to get near the chamber were able to hear him on the east plaza of the capital through amplifying apparatus.

Mrs. Coolidge Attends

So great was the crush on the floor that the sergeant at arms was unable to cry out resolutions passed by the house for the clearing of the floor before the arrival of senators who filed in to take seats allotted them in the front rows. In one second members of the cabinet were seated.

Mrs. Coolidge heard the president's address from the front row of the executive gallery.

The president was given an ovation as he entered and left the chamber, and was repeatedly applauded during his address. He prefaced his message with a tribute to President Harding, and both the house and senate after resuming their individual sessions later adjourned until Monday out of respect to the dead president.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Adv.

SATURDAY IS BIG DAY IN CONTEST

(Continued from page 1)

put yourself along with the rest right now. Let's see you do it. Mrs. G. N. Thompson has been laying very low and yesterday she too sprung among the Honor ones. Mrs. Beckendorf still shows her friends she's not asleep. Raymond Ely still stays in the Honor Roll. John Edwards was away down yesterday in the list and yesterday put himself on the Honor Roll. Miss Katherine Hileman too was another away down and yesterday she surprised the contest

editor by putting herself on the Honor Roll. So you see it pays to try and put yourself there after all. Mr. Bill Hunt is one who says he wants the car and one who is doing so very fine work. Although he is not the highest he gradually crept up on the Honor Roll.

Now remember Saturday, December 8 at 9 p. m. sharp this office will close as far as issuing votes on the two diamond rings so be here early and work just as hard as you possibly can for you never can tell just who that winner will be.

Your Long Distance Service

FROM fifteen to twenty-one telephone operators cooperate in establishing a New York-San Francisco circuit; and other telephone employees by scores must be at their posts to insure efficient transmission.

That you may have a choice of destination for your voice, a vast network of Bell System circuits interconnects all important centers, reaching millions of homes and business places.

Over these circuits more than 158,000 traffic employees stand guard. But long before these highways of speech were ready for use another army of workers had wrestled with problems of construction and maintenance.

A huge manufacturing plant had mobilized its forces.

Thousands of toilers in mine and forest had sought raw materials.

Physicists and chemists, through laboratory research, had laid a sure foundation for efficient service.

All the forces and wonders of industry and science have been drawn upon to serve you when you make a long distance telephone call.
