hospitals to serve all such cases. The American legion will present to the congress a legislative program too extensive for detailed discussion here. It is a carefully matured plan. While some of it I do not favor, with much of it I am in hearty accord, and I recommend that a most painstaking effort be made to provide remedles for any defects in the administration of the present laws which their experience has revealed. The attitude of the government toward these proposals should be one of generosity. But I do not favor the granting of a

The cost of coal has become unbearably high. It places a great burden on our industrial and domestic life. The public welfare requires a reduction in the price of fuel. With the enormous deposits in existence, failure of supply ought not to be tolerated. Those responsible for the conditions in this industry should undertake its reform and free it
