## EYES SCIENTIFICALLY CORRECTED

There are thousands of pairs of correctly fitted glasses in and around Salem. I know they are correctly fitted, for I did the work myself. There is no guesswork about it!

I have been fitting glasses for more than a third of a century, and I take pride in fitting each and every pair correctly. The necessary skill to achieve such results can be acquired only by years of close study and active, practical experience. In fact, scientific knowledge of the highest order is required to recognize and properly correct defects of vision.
