SCHOOL TEACHERS WELL EQUIPPED

Statement Made by Churchill Shows Preparation Undergone By Pedagogues

That school teachers in Oregon are usually well equipped for teaching is shown by reports in the hands of J. A. Churchill, state superintendent of schools. "The reports," said Mr. Churchill, "show that 1847 have attended normal school for two years or more and 527 have attended normal school for one year, 1363 are graduates. Teachers to the number of 1517 are graduates of four-year high schools only, and of these 561 have taken the teachers' training course as a part of their high school course. Teachers who have had less than four years in high school number only 272. These receive their certificates through the state examinations. The law now requires 24 weeks of normal training in addition to graduation from high school before a teacher may secure a certificate to teach in Oregon schools. "The record shows an increase in the preparation of teachers over the preceding year. There were in 1923, 261 more teachers in Oregon who had completed one or more years of a college course. There were 150 more who had completed one or more years in a normal school. Sixty-four more

ROSEBRAUGH HAS ENVIABLE RECORD

Salem Man, Elected to Oxford, Has Exceptional Career at University

UNIVERSITY OF OREGON, Eugene, Dec. 13.—(Special to the Statesman) — William Arthur Rosebraugh, a senior in the University of Oregon school of law, who was appointed to the Rhodes scholarship at Oxford from the state of Oregon, has made an enviable record in scholarship and in student affairs at the university. Rosebraugh was elected as Rhodes scholar from a group of seven candidates representing five institutions of higher learning in this state. When he was graduated from the Salem high school, Rosebraugh resolved to give himself the best preparation available with the purpose of entering the state department for diplomatic service. He accordingly enrolled as a major in economics in 1919 and two years later entered the school of law. Since that time he has devoted himself principally to law but has carried each term from three to six hours of liberal arts courses in addition. His scholarship has been of the highest. He will be graduated from the university in June. Rosebraugh will enter the honor school of jurisprudence at Oxford. He hopes in his three years there, aided by previous training in liberal arts and law to complete the work for the B. A. degree and possibly even the B. C. L. While abroad he will have the opportunity to acquire a cosmopolitan point of view. His work at Oxford, following his collegiate work here, will be an ideal training if he is accepted later in the diplomatic service or the state department. Rosebraugh was a member of the University of Oregon track team for the past two years, winning his "W" in the 440-yard dash and the relay. He served on the student council, and is a former varsity yell leader. He has been a member of the Homecoming directorate, was vice president of the inter-fraternity council, was student chairman of a joint faculty and student committee to discuss the curtailment of extra-curriculum activities among students, and has been a member of a number of class and fraternity athletic teams. He represented the University of Oregon chapter of the Sigma Chi fraternity at its general convention last year. He is also a member of Phi Delta Phi, professional legal fraternity.

HIRAM JOHNSON WILL FILE IN SOUTH DAKOTA PRIMARY

PIERRE, S. D., Dec. 11.—Senator Hiram Johnson will file as a candidate for the nomination as president at the March South Dakota primary. This was made known today when John Sutherland, attorney of this city, and prominent Republican, received a telegram from Johnson giving him power of attorney and asking him to file Johnson's name on the minority Republican ticket. At the time of the closing of the secretary of state's office today the filing had not been made, and it is not yet decided whether Johnson will be filed in the minority ticket, or will file as an independent.

CANBY CANNERY PLANS COMPLETE

Final plans for the new \$25,000 cannery at Canby have been completed, according to advices received here, and it is announced that it will be completed and ready to handle fruit by May 1 of next season. The building is to be 50x100 feet, of tile construction and with concrete floors, and will have an initial working force of 40 to 50 persons. It will be operated under the same management as the Carver cannery which recently disposed of the last of its 1923 pack. One seldom feels the handicap of a poor vocabulary except when the furnace fire goes out.
