

The Indiana Highway Bridge is now nearing completion between the north and south banks of White River, at the town of Hazleton, Ind. This bridge is the first connecting link spanning rivers between Chicago and the south over the Dixie Bee Line, a State and Federal constructed pavement which is now being built through the States of Illinois, Indiana, Kentucky, Tennessee and on to the Gulf coast. It is the largest highway bridge ever constructed in the central West. The bridge is to be dedicated on December 15, 1923. The total cost will be \$300,000. Above photo shows bird's-eye view of the bridge. Photo on left shows the old and the new way of crossing the river. A ferryboat can be seen in the foreground. The bridge is 38 1/2 feet above low water stage, and a "draw" span was unnecessary. Photo on right shows approach from the south, showing the steel construction of the two girder steel spans on the south and the roadway through to the north end.

Candidate for Presidency Says Action Beyond Power of Committee

WASHINGTON, Dec. 14.—Restoration of the delegate strength of southern states by the recent action of the Republican National committee, drew fire today from Senator Hiram Johnson, himself a candidate for the presidential nomination. At the same time the restoration was defended in a statement by Chairman John T. Adams of the Republican national committee.

The situation thus brought about promises a fight in the Cleveland convention. Senator Johnson characterized the committee's action as beyond its powers and "repugnant to every sense of fair dealing and just representation."

Chairman Adams, on the other hand defended it as an act of "justice to congressional districts in the south where the Democratic party refuses a free ballot and an honest count to Republicans both black and white."

While Senator Johnson attacked the restoration as a penalty upon Republican states and a reward for southern states "where there is no Republican party and where delegations some times are a farce and a scandal," Chairman Adams defended it by pointing out that the committee's action added only nine delegates to the southern states quota while it added 116 delegates as a reward to the states which went for President Harding in 1920.

It has not been determined whether the Johnson organization will carry the fight against the committee's action yesterday to the national convention although Senator Howell of Nebraska, believes that this could be done successfully.

Senator Johnson in his conferences today with his campaign manager and others made progress in the plans for the Johnson campaign. It was announced that Senator Norbeck of South Dakota will head the Johnson primary candidates. Senator Norbeck will be a candidate at large on the Johnson ticket.

"Profit And Loss"

Is The Great Problem in Business Today

Get Started Right

THE HAWKEYE CAMERA
Makes 2 1/4 x 3 1/4 pictures. Is a well made, substantial camera in every respect. It loads in daylight, has automatic shutter for time and snap shot exposures, and a carefully tested meniscus lens of the very first quality. Each camera is thoroughly tested by the Eastman Kodak Co. before it is sent out.

GIVE AWAY DANCE IS NOT FAVORED

Program of Action Is Outlined By Indian-Welfare Advisory Board

WASHINGTON, Dec. 14.—A comprehensive program of action for dealing with problems affecting the Indian wards of the governments was included in the resolutions committee's report adopted today by the advisory committee of 100 on Indian affairs, the semi-official body named by the secretary of the interior. The resolutions touched, among many questions, on health, education, land leases and Indian dances.

The committee urged the granting by congress of appropriations "for education sufficient to secure, through largely increased salaries, teachers of highest ability and training competent to achieve the mighty task committed to their care." Establishment of public school systems on reservations equal to those of the white schools and encouragement of religion among the tribes, also was recommended.

Proceeds from oil, gas and other mineral rights on executive order reservations would be paid wholly to the Indians under another resolution adopted. Prompt action by the departments of interior and of justice in deciding cases now pending affecting Pueblo land titles also was recommended, as was legislation to admit Indian wards to the court of claims.

The committee commended the general purpose and spirit of various orders of the Indian commissioner on dances. The orders were interpreted by members of the committee as discouraging only those undesirable dances which might be considered injurious to morals or otherwise, such as the "give away" dance, which often leads to the giving away of the individual's most valuable possessions.

Dirk Lay, a missionary, urged the support of legislation favored by the interior department to begin immediate construction of San Carlos dam in Arizona to provide water for the Pima Indian farmers. Many telegrams, including one from Governor Hunt of Arizona, were read urging committee support for this.

A little sad and truly said
Can deeper joy impart
Than hosts of words that reach
The head,
But never touch the heart.

Talking about cuts to wealth doesn't save much time, if you count the weeks spent before the grand jury,

WILL DIVIDE UP BIG LABISH FARM

Some of Richest Land in the World to Be Put on Market Soon

The big holdings of the Hays interests in Labish Meadows lands in Marion county, beginning about 12 miles northeast of Salem, are to be divided up into small farms, from five acres up. Plans are under way, under the direction of J. W. and A. E. Hays of San Jose, Cal., owners of the lands. By the end of next summer all the lands will have been put under

der cultivation, with the exception of about 35 acres, which will be slashed soon, preparatory to clearing.

In the sale of the lands, preference will be given to men who understand the farming and gardening conditions there.

Buildings To Go
There are seven huge warehouses on these lands. They are necessary in the operation of them. During the present year a million and a half pounds of onion sets were raised on the Hays holdings, and immense quantities of onions, potatoes, etc. Storage space must be had.

So the warehouses and dwelling houses will be allotted to different tracts in the proposed disposition of the lands.

All of the lands could no doubt be sold quickly, on the terms that will be offered—terms giving the purchasers the privilege of paying for them from crop sales. But the

Hays brothers wish to see the whole tract developed as originally planned, so they will make sure in each case of the ability of purchasers to carry on.

This will be the making of one of the most solid farming and gardening communities in the whole country.

Those lands are capable of yielding crops to justify prices of \$1000 an acre, and it is understood that sales will be made in dividing them up on about this basis.

Tangier No Longer to Be Trouble Maker in Europe

LONDON, Dec. 14.—(By the Associated Press.)—From next week onward Tangier will, it is expected, cease to be a source of quarrels among the nations of Europe. A convention embodying unanimous agreement on all the points which for the last 50 years have caused much friction and jealousy among Great Britain, France, Spain and Italy, will be signed in Paris on Tuesday and Wednesday and will be submitted for ratification by the parliamentary bodies of the various governments soon after.

The treaty invests the Sultan of Morocco with complete sovereignty of Tangier, which will be regarded as an integral part of Morocco.

Extra territorial rights for foreigners will be abolished and the consular law courts superseded by mixed international judicial bodies.

Cement Manufacturing Association Dissolved

NEW YORK, Dec. 14.—Federal Judge Knox today signed a decree dissolving the Cement Manufacturers' Protective association.

On October 23 Judge Knox ordered dissolution of the association on the ground that it operated in violation of the Sherman anti-trust law. His decision was reached after extended litigation by the government in his order the judge extended the dissolution to include all the corporate and individual members of the association.

He also ordered the association to discontinue the practice of interchange of statistics regarding production, and granted all other decrees sought by the government.

WINTER COUGHS AND COLDS

With the changeable weather which we have at this season of the year coughs and colds are very prevalent. Be prepared for them. Have a bottle of FOLEY'S HONEY AND TAR COMPOUND handy, and with the first sign of a cough or cold take a dose and prevent a serious ailment. FOLEY'S HONEY AND TAR COMPOUND has been the standard family cough remedy for over 35 years, bringing prompt relief and when once used you will never be without it. Sold everywhere. Adv.

why we recommend the original LANG RANGE

THE LANG STOVE is a result of years of experimental work and study of fuel conditions and heating problems. Its construction enables it to cut fuel costs to a minimum. Manufactured of the finest material obtainable, its lasting qualities and durability are second to none. The HOT AIR DRAFT and the HOT BLAST SMOKE BURNING principle are original LANG features and are embodied in every LANG Range manufactured.
