## BAGSHAW'S ELEVEN DRILL FOR MIDDIES

New Year's Classic in Rose Bowl to be Fight of Year for U of W

SEATTLE, Dec. 22.—With but one more practice before Christmas, the University of Washington football team went through its winter drill today with vim in preparation for its contest with the United States naval academy at Puget Sound New Year's day.

Knowledge of some of the navy's plans has been drifting into the Rose Bowl for 10 days and yesterday Coach Bagshaw gave his officers a special workout on the strategy against the middy defense as personified by the Washington second team.

Shortness was of the essence yesterday with more attention paid to the technicalities of the various formations than to the rough and ready tactics that had been the rule for the preceding three practices.

The squad will turn out Monday and will receive training then until Wednesday to enjoy the holiday. Bagshaw's supporters have displayed their enthusiasm over one particular new play that he has devised which the second team has been unable to stop even when it knew just where and when the maneuver was to be sprung.

## PADDOCK BARRED BY OLYMPIC TEAM

USC Champion Runner Must Clear Himself of Charges Made by AAU

NEW YORK, Dec. 22.—Charles Paddock, America's crack sprinter, will not be allowed to compete for the United States in the 1924 American Olympic team until he has cleared himself of charges with the amateur athletic union. It was announced today by the American Olympic committee.

McTigue declared after the conference that he would not go through with the contract Jacobs signed for a fight with Tunney and also refused to accept his manager's compromise terms for a bout at Madison Square Garden with Carpenter.

McTigue added that he probably would leave soon for Europe in search of fights, not returning to the United States until August when his contract with Jacobs expires. It was pointed out, however, that the light heavyweight champion, under the state athletic commission's rules would become automatically suspended if he fails to go through with the Tunney match by April, when the time limit for fulfilling that contract expires.

McTigue's case was the chief subject of debate at the Olympic committee meeting this afternoon.
